EXPLANATION OF SYMBOLS

NO PRICE INCREASE!

Suggested deeraster resistant plant

Xeriscape		Full Sun	
Low Moisture		Part Sun	
Moderate Moisture		Shade	
Moist		Adaptable	

ELEVATION

For most items we list the highest limit in elevation at which a plant will survive. It is intended only as a guide and the specific environment should receive consideration. For his help we thank Dr. James Feucht, former Colorado State University Extension Horticulturist.

TAGGING TREES

To allow personalized selection for pick-up or deliveries, trees can be "tagged" for up to 30 days. We will make every attempt to hold these plants, but can't guarantee the tags won't be removed or the items sold. If your customers prefer to choose the stock, you must accompany them. After 30 days, plant material will become available for sale and the tags removed.

TERMS OF SALE

We accept cash, checks, and major credit cards unless credit has been established. Call or stop by our sales office for a credit application. The credit application process can take as long as two (2) weeks.

CHARGE ACCOUNTS

Upon credit approval, our terms are **Net 10th Prox**. Invoices will be mailed / emailed as incurred on a daily/weekly basis. Statements of account are sent after the 25th of each month. Payment is due on the 10th of the following month. It is understood that a service charge of 1.5% per month, 18% per annum, will be collected on **PAST DUE ACCOUNTS**. If payment is not made by due date on invoices / statements, your charge account will be placed on a C.O.D. basis until such time that your account is brought current or paid in full.

RETURNED-CHECK CHARGE

A $50 returned-check charge will be collected on all checks returned for insufficient funds.

GUARANTEE—CLAIMS

Alameda Wholesale Nursery, Inc. guarantees all plant material to be true to name and sold in good condition. Any claims (as to condition or count) must be made immediately upon receipt. Once accepted in good condition, we cannot be responsible for improper handling, planting, maintenance or damage by the elements. If any stock proves otherwise, we will not be liable for an amount greater than the original purchase price. No other guarantee is expressed or implied.

PRICING

We make every effort to stand behind the prices in this catalog. However, due to the nature of our business and the quest to provide our customers with the highest quality products, published prices are subject to change without notice.

RESTOCKING CHARGE

We charge a 10% restocking charge for accepted returns. Order carefully—it costs us time and money to handle plants. There is no restocking charge for plants or landscape supplies rejected at time of delivery.

WILL CALL ORDERS

We are happy to assemble your plant order and set it aside in our will call area for you to pick up. Please give us 24-hour notice to pull your order efficiently. Orders in our will call area will be held for 2 weeks from the day the order was assembled; please contact us as soon as possible if there is a delay in picking up your order. Only container products are pulled to will call, but we are happy to tag your B&B and container trees for you. It's wonderful to load and go!

CONTAINER-RECYCLING PROGRAM

We proudly accept clean and undamaged plastic containers for recycling. This year we are giving credit toward your account or purchase as follows: __¢ for #1; __¢ for #5; and $__ for 32 cell plastic flat trays with 2¼" pots. We reserve the right to suspend the recycling program at any time.

BALL CART RENTAL

We have two sizes of ball carts (1000# & 1600# capacity) available for just $__ a day to place your B & B trees. This is easier on your trees and on your crew. This also gives you a chance to try one before purchasing.

JAPANESE BEETLE QUARANTINE

In an effort to contain the spread of Japanese Beetle (JB) across Colorado, our Department of Agriculture has placed a quarantine of untreated plant material outside of the Front Range. Alameda was one of the first Nurseries to comply with the strict guidelines to become Quarantine Compliant, allowing us to ship plant material anywhere in Colorado. Alameda excels at buying quality plant material from only JB compliant growers. As a responsible friend to the environment, we love bees and other pollinators and use insect control in a response(BEE) way.

Thank you to Graphics Plus, LLC of Littleton for helping us produce this catalog for over 30 years and counting...

DELIVERY SERVICE—CURBSIDE

To help you save valuable time, we can deliver all of your landscape supplies directly to your job site. We normally can deliver throughout metro Denver with 48-hours notice. Deliveries not meeting the minimum order can be delivered as time permits for $__ in the metro area. We use our own trucks, drivers, and helpers. Our trained staff will let you know at the time you place your order if there is any problem in selecting the quality of plants you deserve. If any stock does not meet your standards, simply return it with our driver. **Please inform us if you will need to rent a ball cart or use a boom truck.**

BOOM TRUCKS

Having a problem deciding how to plant a tree in an established yard? Normally, we unload deliveries in one location. However, with advance notice and $__ per hour above the normal delivery charge, we can set B & B trees up to 2,000 lbs. as far as 15 feet from our truck. Our trucks can handle 18-20 foot spruce and ponderosa easily.

Potting Soil	.75 cu. ft.	**POTSOIL**

Peat Moss		*Cahcah smooshedipackeyi*
Small Bag	2.2 cu. ft.	**PMO2**
Large Bag	3.8 cu. ft.	**PMO4**
EKO Compost	1.5 cu. ft.	**EKO**
EKO Clay Buster	1.5 cu. ft.	**CLAYBUST**

Potting Soil		*Helpyi rootum growus*
Bulk	¼ cu. yd.	**PSO25**
Bulk	½ cu. yd.	**PSO50**
Bulk	1 cu. yd.	**PSO**

Ingredients: Compost, composted bark fines, peat moss and pumice.

Ultimate Potting Mix *Maximus pottimus*

Ferti-lome® product. Excellent for indoor/outdoor container flowers, vegetables, window boxes, seedlings and cuttings. No bark products.

Bag	3 cu. ft.	**ULTPOTMIX**

DIEHARD™ TRANSPLANT MYCORRHIZAE

A transplant amendment to inoculate landscape trees, shrubs, and perennials with live beneficial mycorrhizal fungi upon planting. Promotes rapid root development.

8 oz. package	**DHTP**
55 x 8 oz. bucket	**DHTB**

GEOTEXTILES

Professional landscape fabric is better than black plastic for separating mulch from the ground because it discourages weed growth, yet allows the soil to breathe and accept moisture.

Typar 3301 - 3 oz.		*Grayishii fiberimosioso*
Roll Width	100' long roll	300' long roll
3 ft.	---	---
4 ft.	---	---
6 ft.	---	---

Fabric Pins	*Hold-em downei from maxi-gustimus*
Each	**FABPIN**
Box of 1000 (U-pins)	**FABBOX**

STEEL EDGING

WARNING: SHARP! Steel edging separates sod and mulched planting beds, and can be sharp and hot! When left in the sun, it can burn your hands and kill grass. **Please wear leather gloves!** Black edging safety strip is recommended if your client has dogs or children.

Steel Edging		*Strongimus to the maximus*
Rolled Top	10-ft. 14 gauge	**EDGROLL**

(Rolled Top Edging eliminates the need for Safety Strip)

Edging Safety Strip		*Plasticimus no-ow ow*
100' roll		**ESSR**

Edging Pin		*Maximus hair-pinii*
Each		**EPI**
Box of 500		**EPIB**

Bag of Bulb Tone (3½ lb) **BULBOO**
Organic Bulb & Flower Food 3-5-3

OUR WIDE WORLD OF

Perennials, Ferns, Grasses, Groundcovers and Vines

Flats contain 32 2¼" square pots. Groundcover spacing is normally 6-12" apart for 2¼" pots and 10-18" for #1 pots, depending on growth rate. To calculate the number of plants you'll need, multiply the number of square feet by the number of plants required per square foot using the table below:

Distance Apart	Plants/Sq. Ft.
6 inches	4 plants
8 inches	2.25 plants
10 inches	1.77 plants
12 inches	1 plant
18 inches	0.444 plants

PLEASE NOTE: (CA) INDICATES THAT THE PLANT RECENTLY EMIGRATED FROM CALIFORNIA AND IS BIGGER, BUSHIER, AND MORE COLORFUL.

AJUGA / BRONZE CARPET BUGLE ***A. reptans***
Bronze leaves and blue flowers, May-June. Will take minimum traffic. Hardy.
Max. Elev: 8,000 ft. **BAJ** #1
Ht: 2-4" & Spd: 24" **BAJF** 32c Flat

AJUGA / BURGUNDY CARPET BUGLE ***A. reptans***
Burgundy-glow bronze foliage with a wine red cast, blue flowers, May-June.
Max. Elev: 8,000 ft. **BUJ** #1
Ht: 2-4" & Spd: 24" **BUJF** 32c Flat

ANEMONE, HONORINE JOBERT
2016 Perennial of the Year! ***A. hybrida 'Honorine Jobert'***
Single 3" snow-white flowers with yellow centers Sept. thru Oct., excellent cut flower. One of the tallest anemones. Deer & rabbit resistant.
Max. Elev: 8,000 ft. **AHJ** #1
Ht: 3-4' & Spd: 2'

ANEMONE, JAPANESE WINDFLOWER ***A. hupehensis***
Attractive late summer flower when little else is in bloom. Pink flowers up to 3" across. Needs organic matter and well-drained soil.
Max. Elev: 8,500 ft. **AJW** #1
Ht: 30-36" & Spd: 18-20"

ANEMONE, SNOW DROP ***A. sylvestris***
Pure white flowers up to 1½" across that bloom May-June. Well-drained soil.
Max. Elev: 9,000 ft. **ASD** #1
Ht: 12-15" & Spd: 12"

ASTER, ALERT / FALL ASTER ***A. 'Alert'***
Crimson red flowers cover this rounded clump that blooms August-September. Well-drained soil.
Max. Elev: 8,500 ft. **AAS** #1
Ht: 12-15" & Spd: 16-28"

ASTER, DWARF ALPINE-MIX ***Aster alpinus***
Back for Year 2026
Blue and pink daisy-type flowers bloom May-July on compact green foliage. Very hardy and super cute!
Max. Elev: 10,000+ ft. **DAS** #1
Ht: 6-12" & Spd: 10-15"

ASTER, FRIKARTII, MONCH ***A. frikartii 'Monch'***
Carefree, vibrant lilac flowers bloom June-September on stiff, upright stems. Good for cutting, and is low maintenance
Max. Elev: 8,000 ft. **AFM** #1
Ht: 24-36" & Spd: 18-24"

ASTER, KIPPENBURG / FALL ASTER
A.'Professor Kippenburg'
This *college-educated* aster knows that its masses of blue, daisy-like flowers from August-September will be a winner for any garden. Well-drained soil.
Max. Elev: 8,500 ft. **AST** #1
Ht: 12-15" & Spd: 16-28"

ASTER, PURPLE DOME ***A. novae-angliae 'Purple Dome'***
Royal purple flowers with greenish gold centers. Disease-resistant. Great cut flower blooming late August-September.
Max. Elev: 8,500 ft. **APD** #1
Ht: 18" & Spd: 15-18"

ASTILBE, DWARF—Pink ***A. simplicifolia 'Sprite'***
Lavender-pink blooms, July-August. Fine groundcover for shade. Great for cut flowers.
Max. Elev: 7,000 ft. **ADP** #1
Ht: 10" & Spd: 15-18"

ASTILBE / FALSE SPIREA ***A. x japonica***
Dainty, feathery plumes with mounding foliage, flowering May-June.
Max. Elev: 8,500 ft. #1
Ht: 24" & Spd: 15-18"
Pink-**ASI** Red-**ASR** White-**ASW**

BASKET OF GOLD ***Aurinia saxatilis (Alyssum saxatile)***
Often found at the end of a rainbow. Widely used in rock gardens or for cascading over boulders and rock walls. Gray-green foliage with yellow flowers completely covers plant, April-May.
Max. Elev: 9,500 ft. **BGO** #1
Ht: 8-12" & Spd: 12"

BEE BALM ***Monarda didyma***
A robust plant producing large, red flowers on erect stems. Foliage emits a spicy mint fragrance and is hairy-textured. Blooming period is early to midsummer. Grows well in any soil. *Bee sure to try this one!*
Max. Elev: 8,500 ft. **BBA** #1
Ht: 36" & Spd: 18-36"

BEE BALM, DWARF PINK ***Monarda didyma 'Balmy Pink'***

One of the smallest bee balms, with its aromatic foliage and light pink flowers, it has no problem attracting butterflies and hummingbirds.

Limited Supply!

Max. Elev: 8,500 ft. **BDP** #1

Ht: 10-12" & Spd: 10"

BELLFLOWER, PEACHLEAF ***Campanula persicifolia***

Clusters of blue (sometimes available in white), bell-shaped flowers bloom July-August. Narrow foliage. Prefers well-drained soil. *A peachy addition to the garden.*

Limited Supply!

Max. Elev: 8,500 ft. **BPL** #1

Ht: 30-40" & Spd: 15-18"

BERGENIA ***Bergenia cordifolia***

Back for Year 2026

Rose-colored flowers on large, cluster-shaped heads in April and May. Large, heart shaped leathery leaves. Ideal for perennial borders and rock gardens. Foliage turns brilliant burgundy red in the fall.

Max. Elev: 8,000 ft. **BER** #1

Ht: 12-15" & Spd: 12-18"

BLACK SNAKEROOT / BUGBANE ***Cimicifuga racemosa***

Dark green, fern-like foliage. Fragrant spires of white flowers.

Limited Supply!

Max. Elev: 8,000 ft. **BLS** #1

MAIDEN GRASS, DWARF ***Miscanthus sinensis 'Yaku Jima'***
Blade-like foliage on a compact clump. Creamy white, silky plumes. Blooms earlier than most grasses.
Max. Elev: 7,000 ft. **DMG** #1
Ht: 3-4' & Spd: 2-3' #5

MAIDEN GRASS, MORNING LIGHT
Miscanthus sinensis 'Morning Light'
Graceful, fine-textured grass with silver-green variegated foliage.
Max. Elev: 7,000 ft. **MMG** #1
Ht: 4-5' & Spd: 2-3' #5

MAIDEN GRASS, VARIEGATED
Miscanthus sinensis variegatus
Tall, white-and-green-striped foliage with silver plumes.
Max. Elev: 7,000 ft. **VMG** #1
Ht: 4-6' & Spd: 2-5' #5

MEXICAN FEATHER ***Nassella tenuissima***
Also known as Stipa, or Silky Thread Grass, this southwest native has fine textured foliage with early summer feathery green blooms turning to a buff color. Not hardy but reseeds well.
Max. Elev: 5,000 ft. **MFG** #1
Mature Ht: 2' & Spd: 1'

MUHLY GRASS ***Muhlenbergia hybrids***
This native grass is amazing in the fall when backlit by the sun or night lighting! Its mounds of fine textured green foliage are topped by clouds of tiny pink or ruby flowers. Depending on availability we will carry pink 'Regal Mist'® and/or 'Undaunted® Ruby' **(2014 Plant Select®)**.
Max. Elev: 5,500 ft. 'Regal Mist' Pink **GRM** #1
Ht: 18-30" & Spd: 18-30" #5
'Undaunted® Ruby' **GUR** #1
#5

PAMPAS, HARDY / PLUME GRASS ***Erianthus ravennae***
Tall, showy flower plumes in late summer. Good for dry flower arrangements.
Max. Elev: 8,000 ft. **PAH** #1
Ht: 12' & Spd: 3-5' #5

PRAIRIE DROPSEED ***Sporobolus heterolepis***
A central plains native clump forming grass with narrow green foliage turning orange-red in fall. Pinkish-tan flower panicles appear in late summer.
Max. Elev: 7,000 ft. **PDG** #1
Ht: 24-30" & Spd: 24-36"

RED, SWITCH GRASS ***Panicum virgatum 'Shenandoah'***
This grass works well in medians or landscapes gathering attention from early summer with its red tips to September when entire leaf blade is drenched in burgundy with clouds of misty pink plumes.
Max. Elev: 7,000 ft. **RSG** #1
Ht: 3-4' & Spd: 24-30" #5

RIBBON GRASS ***Phalaris arundinacea 'Picta'***
Variegated green and creamy white leaves, thriving in rich soils, more compact in dry, full sun areas. Very invasive. *Spreads like butter on a hot summer day.*
Max. Elev: 8,000 ft. **RIG** #1
Ht: 1-2' & Spd: 3'+

SEA OATS, NORTHERN ***Chasmanthium latifolium***
Wide, bronze-green, blade-like foliage. Clusters of drooping, oat-like seeds from midsummer to late fall.
Max. Elev: 6,500 ft. **NSO** #1
Ht: 2-3' & Spd: 1½-2' #5

ZEBRA / PORCUPINE GRASS ***Miscanthus sinensis 'Strictus'***
An unusual grass with gold bands that run across the leaf blades. Produces silvery white to beige plumes.
Max. Elev: 7,000 ft. **ZGR** #1
Ht: 5-7' & Spd: 2-5' #5

END-O-GRASSES

HAREBELL / BLUEBELLS OF SCOTLAND
Campanula rotundifolia 'Olympica'
Compact, profuse bloomers of intense bluebells appear in clusters from June-September.
Max. Elev: 10,000 ft. **HBL** #1
Ht: 12" & Spd: 12-15"

HELEN'S FLOWER/SNEEZEWEED ***Helenium 'Rotgold'***
Back for Year 2026
Helen's daisy-like flowers start out all golden yellow turning red from center outward July-October. In olden days the plant was dried and used as snuff, hence its common Sneezeweed name. Gesundhiet!.
Max. Elev: 8,500 ft. **HEF** #1
Ht: 3-4' & Spd: 3'

HELLEBORES / LENTEN ROSE
Helleborus x hybridus 'Ivory Prince' or 'Black Diamond'
2005 Perennial Plant Association Plant of the Year!
A new, improved selection exhibiting superior form with leathery-textured, rich green foliage. Flowers range from white to red to near black.
Max. Elev: 7,000 ft. **HES** #1
Ht: 18" & Spd: 24"

HEN AND CHICKS ***Sempervivum hybrids***
No yokes here! This hardy, attractive, low-growing spreading succulent has fleshy leaves in red and green shades. May produce a red flower in July. **Limited Supply!**
Max. Elev: 10,000 ft. **HCI** #1
Ht: 4-6" & Spd: 6-18"

HIBISCUS, HARDY ***Hibiscus moscheutos***
This strikingly showy perennial can produce 20 or more dinner-plate sized blossoms each day at peak bloom from midsummer until frost. This hibiscus collection will include pink, white and red blooming varieties, as well as both green and burgundy foliage varieties. Please be patient in spring as Hardy Hibiscus are one of the last plants to break dormancy, sending up new growth in May or June. Thrives in full sun. Best to mulch well in the autumn.
Max. Elev: 6,000 ft. **HHI** #2
Ht: 2-7' & Spd: 2-4'

HOLLYHOCK, CHATERS DOUBLE MIX ***Alcea rosea 'Chaters Double'***
Double flowers with bright, clear colors along tall stalks with large, hairy leaves.
Max. Elev: 8,000 ft. **HCD** #1
Ht: 5-6' & Spd: 2-3'

HOLLYHOCK, PARTY GIRL / FALSE MALLOW ***Sidalcea 'Party Girl'***
With rose colored blooms on erect stalks, this girl knows how to party. She also is a great cut flower blooming July-August.
Max. Elev: 7,000 ft. **HPG** #1
Ht: 24-30" & Spd: 18"

HONEYSUCKLE, GOLDFLAME ***Lonicera heckrottii***
Vine with fragrant flowers and bright green foliage. Grows in most soils. Light pink to orange flowers, June-September.
Max. Elev: 6,000 ft. **GFH** #1
Ht: 10-20' & Spd: 2' (CA) Staked #5
'Dropmore Scarlet' or 'Pink Lemonade'

HONEYSUCKLE, HALL'S ***Lonicera japonica 'Halliana'***
Vigorous, white and yellow fragrant flowers, June-Sept.
Max. Elev: 7,000 ft. **HAL** #1
Ht: 15-30' & Spd: 2' (CA) Staked #5

HOPFLOWER, OREGANO ***Origanum libanoticum***
2004 Plant Select® Trailing herb with lavender bracts in summer. Great in rock gardens or raised beds.
Max. Elev: 7,000 ft. **HFL** #1
Ht: 12" & Spd: 24"

HOSTAS / PLANTAIN LILY

HOS has been the original item code for Royal Standard, and HOV has been the original item code for Undulata Mediovariegata. However, other varieties use those item codes as well.

HOSTA, BLUE GIANT ***H. sieboldiana 'Elegans'***
Large, blue-green leaves that are thick and heavy-textured. White, bell-shaped flowers that bloom July-August.
Max. Elev: 8,000 ft. **HOB** #1
Ht: 36" & Spd: 24-30" (CA) #5

HOSTA, FIRE AND ICE ***Hosta 'Fire and Ice'***
'Fire and Ice' is a reverse-variegated sport of 'Patriot' with twisted leaves with pure white centers and dark green margins. Fragrant lavender flowers bloom on tall stalks midsummer.
Max. Elev: 8,000 ft. **HFI** #1
Ht: 16" & Spd: 24"

HOSTA, FRANCES WILLIAMS
H. sieboldiana 'Frances Williams'
Large, blue-green leaves with a wide, golden border. Foliage mounds with tall stems of delicate, white flowers, July-Aug.
Max. Elev: 8,500 ft. **HFW** #1
Ht: 36-60" & Spd: 24-30" (CA) #5

HOSTA, GUACAMOLE ***Hosta 'Guacamole'***
Light yellow-green leaves with apple-green to emerald marbling. Lavender buds open to large fragrant white flowers.
Max. Elev: 8,000 ft. **HOG** #1
Ht: 18" & Spd: 24" (CA) #5

HOSTA, HONEYBELLS ***H. 'Honeybells'***
Fragrant, light mauve, tubular flowers on large, light green leaves. Blossoms August-September.
Max. Elev: 8,000 ft. **HHB** #1
Ht: 24" & Spd: 24"

HOSTA, KROSSA REGAL ***Hosta 'Krossa Regal'***
Upright vase-like plant with gray-green leaves and lavender flowers mid summer on tall spikes. Slug resistant.
Max. Elev: 8,000 ft. **HKR** #1
Ht: 3' & Spd: 6' (CA) #5

HOSTA, PATRIOT ***H. fortunei 'Patriot'***
Stars and Stripes Forever… Elegant hosta with wide, irregular white margins on large, dark green leaves with lilac flowers. July-Aug.
Max. Elev: 8,500 ft. **HOP** #1
Ht: 12-15" & Spd: 24-30" (CA) #5

HOSTA, PAUL'S GLORY ***Hosta 'Paul's Glory'***
Large light green leaves have light yellow centers that turn whiter as they mature. Blooms lavender in July.
Max. Elev: 8,000 ft. **HPA** #1
Ht: 18-24" & Spd: 24-30"

HOSTA, ROYAL STANDARD ***H. 'Royal Standard'***
Fragrant, pure white blossoms glow on lush green foliage. Great for late season delicate blooms, August-September.
Max. Elev: 8,000 ft. **HOS** #1
Ht: 24" & Spd: 24"

HOSTA, VARIEGATED
H. mediovariegata albomarginata
Large, green leaves have broad, white edges. White flowers glow on slender stems, July-August.
Max. Elev: 8,000 ft. **HOV** (CA) #1
Ht: 12-24" & Spd: 24"

HUMMINGBIRD FLOWER ***Zauschneria garrettii***
2001 Plant Select® Bright orange, trumpet-shaped flowers on rigid stems with grayish green foliage. Blooms July-Oct.
Max. Elev: 8,000 ft. **HBF** #1
Ht: 4" & Spd: 18-24"

HYSSOP, 'BLUE FORTUNE' ***Agastache 'Blue Fortune'***
Long blooming violet-blue flowers with licorice-scented foliage. Flowers and foliage are edible.
Max. Elev: 8,000 ft. **HYF** #1
Ht: 24-30" & Spd: 18-24"

HYSSOP, CORONADO® RED ***Agastache 'Pstessene'***
2009 Plant Select® Crimson red flowers that darken as they mature, blooming July-October above silver-green aromatic foliage.
Max. Elev: 7,000 ft. **HCR** #1
Ht: 15-18" & Spd: 15"

HYSSOP, DOUBLE BUBBLE MINT, SONORAN SUNSET ***Agastache cana***
Double your pleasure, double your fun, this hyssop is the one! With dark pink flowers and bubble gum scented foliage it's a tasty treat for the garden.
Max. Elev: 8,000 ft. **HBU** #1
Mature Ht: 15" & Spd: 12-15"

HYSSOP, SUNSET ***Agastache rupestris***
1997 Plant Select® Bronze-orange-purple flowers from July to October. The entire plant is aromatic.
Max. Elev: 7,500 ft. **HSU** #1
Ht: 24-36" & Spd: 18-30"

HYSSOP, TALL DOUBLE BUBBLEMINT ***Agastache cana***
This double bubble mint hyssop is taller and has darker pink flowers than the Sonoran Sunset hyssop.
Max. Elev: 8,000 ft. **HTB** #1
Ht: 18-24" & Spd: 15"

ICE PLANT, FIRE SPINNER™ ***Delosperma 'Fire Spinner'***
2012 Plant Select® This ice plant will light your fire with spring blooms that have purple centers fading to orange outer petals.
Max. Elev: 7,000 ft. **IPF** #1
Ht: 1-2" & Spd: 12-18" **IPFF** 32c Flat

ICE PLANT, MESA VERDE™ ***Delosperma 'Mesa Verde'***
2002 Plant Select® A little more compact than purple ice plant with salmon pink flowers.
Max. Elev: 7,500 ft. **IPM** #1
Mature Ht: 2-4" & Spd: 12-24"

ICE PLANT, PURPLE ***Delosperma cooperi***
Low growing, succulent groundcover with bright purple, daisy-like flowers from May to September.
Max. Elev: 7,500 ft. **IPP** #1
Ht: 2-4" & Spd: 12-24" **IPPF** 32c Flat

ICE PLANT, RED MOUNTAIN® ***Delosperma dyeri 'Psdold'***

2007 and 2016 Plant Select® Glowing technicolor orange-red blooms dazzle throughout the summer on a tight mat of foliage.

Max. Elev: 7,000 ft. **IPR** #1
Ht: 2" & Spd: 12-24"

ICE PLANT, YELLOW ***Delosperma nubigenum***

Succulent, green leaves form a very dense mat. Red winter color. Yellow flowers bloom continuously, May-July.

Max. Elev: 8,000 ft. **IPY** #1
Ht: 1" & Spd: 24-30" **IPYF** 32c Flat

IRIS, GERMAN BEARDED ***I. germanica var.***

You can now order by variety and/or color from the following spectacular selections: **Limited Supply!**

#1

Variety	Color	Item Code
Beverly Sills	Coral Pink	**IBS**
Chief Quinaby	Polished Red	**ICQ**
China Dragon	Yellow/White	**ICD**
Cranberry Ice	Burgundy	**ICI**

Tomorrow's Child	Lt. Lavender w/purple tongue	**ITC**

IRIS, GERMAN BEARDED—Mix ***I. germanica var.***

Sword-like foliage with large, floral heads in a vast range of colors in June. Prefers some alkalinity.

Max. Elev: 8,500+ ft. **IRG** #1
Ht: 30-35" & Spd: 18"

IRIS, SIBERIAN—Caesar's Brother ***I. sibirica***

Petals are narrower than the bearded iris and do not have a beard. Blue flowers in June.

Max. Elev: 9,000 ft. **IRS** #1
Ht: 36" & Spd: 24"

IRIS, VARIEGATED, ZEBRA ***I. pallida 'Variegata'***

Variegated, light green and white leaves that do not fade. Fragrant, light blue flowers.

Max. Elev: 7,000 ft. **IRV** #1
Ht: 24-36" & Spd: 12-18"

IVY, BOSTON ***Parthenocissus tricuspidata***

Graceful and hardy, self-clinging vine. Excellent for covering masonry. Prefers non-windy areas and northern exposures.

Max. Elev: 7,000 ft. **BIS** (CA) Staked #1
Ht: 30-45' & Spd: 3' (CA) Staked #5

IVY, ENGLISH ***Hedera helix***

Dark green leaves on this hardy, moderate-growing, evergreen vine. Use as a groundcover or self-clinging vine.

Max. Elev: 6,000 ft. **ENS** (CA) Staked #1
Ht: 15'+ & Spd: 3' **ENS** (CA) Staked #5

JACOB'S LADDER ***Polemonium caeruleum***
Clusters of light blue flowers from June to July. Foliage is fernlike in appearance.
Max. Elev: 8,000 ft. **JAL** #1
Ht: 18-20" & Spd: 12-24"

JACOB'S LADDER, VARIEGATED
Polemonium reptans 'Stairway to Heaven'
Lighten up your shade garden with attention grabbing green and white foliage tinged with pink in spring. Light blue flowers bloom June thru July. "If there's a bustle in your hedgerow, don't be alarmed now…" **Limited Supply!**
Max. Elev: 8,000 ft. **JLV** #1
Ht: 18-20" & Spd: 12-24"

KINNIKINNICK / BEARBERRY ***Arctostaphylos uva-ursi***
Bright green, lustrous foliage. Light pink flowers in May followed by small, red berries. Likes well-drained soil.
Max. Elev: 10,000 ft. **KIK** (CA) #1
Ht: 4-6" & Spd: 15'

LADY'S MANTLE ***Alchemilla mollis***
Yellowish green flowers on mounds of green leaves. Blooms June to July.
Max. Elev: 7,000 ft. **LAD** #1
Ht: 12-18" & Spd: 24"

LAMB'S EAR, FLOWERING
Stachys byzantine 'Silver Carpet'
A classic ground covering perennial of very soft, silvery foliage with spikes of long-lasting pink-lavender flowers mid-summer. Honeybees and pollinators love the flowers! Easy to deadhead in early fall to prevent reseeding.
Max. Elev: 8,000 ft. **LAL** #1
Ht: 12" & Spd: 18-24"

LAMB'S EAR, FLOWERLESS
Stachys byzantine 'Helene von Stein'
With soft, silky, wooly, silver foliage. This rapidly spreading, rarely blooming perennial is great for borders. In the olden days, this was commonly used for toilet paper! (Much softer than corn cobs)
Max. Elev: 8,000 ft. **LAM** #1
Ht: 8-10" & Spd: 12-15"

LAMIUM, BEACON SILVER / DEAD NETTLE
L. maculatum 'Beacon Silver'
Silver and green, heart-shaped leaves with deep green margins. Produces pink flowers above the foliage, May-July.
Max. Elev: 7,500 ft. **LBS** #1
Ht: 4-6" & Spd: 12-36" **LBSF** 32c Flat

LAMIUM, PINK PEWTER / DEAD NETTLE
L. maculatum 'Pink Pewter'
Light pink flowers blooming May-July above metallic silver foliage with narrow green edges.
Max. Elev: 7,500 ft. **LPP** #1
Ht: 4-6" & Spd: 12-18" **LPPF** 32c Flat

LAMIUM, WHITE NANCY / DEAD NETTLE
L. maculatum 'White Nancy'
Silvery, variegated leaves that form a dense mass. A form of 'Beacon Silver', but produces white flowers, May-July.
Max. Elev: 7,500 ft. **LWN** #1
Ht: 4-6" & Spd: 12-36" **LWNF** 32c Flat

LAVENDER, ENGLISH ***Lavandula angustifolia 'Munstead'***
ONE OF OUR TOP SELLERS!!
Aromatic, gray-green foliage with scented, lavender flower spikes. Does best in well-drained soil. Blooms July-August.
Max. Elev: 8,500 ft. **ELA** #1
Ht: 12-18" & Spd: 12-18"

LEADWORT / PLUMBAGO ***Ceratostigma plumbaginoides***
Deep green foliage in spring turning red in the fall. Blue flowers, June-October, creating a truly unique fall color experience. Great for erosion control.
Max. Elev: 7,000 ft. **LWO** (CA) #1
Ht: 8-12" & Spd: 12-24"

LIGULARIA ***L. stenocephala 'The Rocket'***
Large, bold, decorative leaves. Tall spikes of lemon-yellow flowers, July-September. Prefers well-drained soil.
Max. Elev: 6,500 ft. **LIG** #1
Ht: 48-60" & Spd: 36-48"

LILY-OF-THE-VALLEY ***Convallaria majalis***
"Like, I'm so sure, you guys, this doesn't just belong in the valley, like you know, this is like, the coolest spreading plant with tiny, like white, like way-cool, bell-shaped flowers, you know, it is sooo there May to June—totally rad. Whatever."
Limited Supply!
Max. Elev: 7,500 ft. **LILF** 32c Flat
Ht: 8-10" & Spd: 12"

LIRIOPE, LILYTURF ***Liriope species***
Liriope muscari is a grass-like perennial that grows in an upright clump form of strap-like, arching, glossy, dark green leaves. Blueish-lavender flowers on short spikes all summer. Available in a variegated form with the same pretty flowers. Makes a nice low maintenance perennial border in the garden and along walkways.
Mature Ht: 24-26" & Spd: 12-18"

Liriope spicata spreads rapidly by underground stems (rhizomes) and will cover a wide area. Because of its rapid spread, L. spicata is not suitable for an edging but is excellent as a groundcover. Blueish-lavender flowers.
Max. Elev: 5,280 ft. **LTL** #1
Mature Ht: 12" & Spd: 18-24"

LUNGWORT / BETHLEHEM SAGE
Pulmonaria longifolia 'E.B. Anderson'
Flowers open up pink, turning light blue. Mounded shape, white-spotted, dark green leaves. **Limited Supply!**
Max. Elev: 8,000 ft. **LWT** #1
Ht: 12" & Spd: 18-24"

LUPINE, POPSICLE MIX ***Lupinus 'Popsicle Mix' - 'Gallery'***

Rich green foliage topped with spikes of assorted pastel flowers. A shorter variety than Russell Hybrids. *Tasty on a hot summer day!*

Max. Elev: 9,500 ft. **LPM** #1
Ht: 12-18" & Spd: 18"

LUPINE, RUSSELL HYBRIDS ***Lupinus 'Russell Strain'***

Long spikes of brilliant-colored flowers from May to July. Fan-shaped foliage.

Max. Elev: 9,500 ft. **LUP** #1
Ht: 30-36" & Spd: 24"

LUPINE, Westcountry™ Series ***Lupinus polyphyllus***

A Proven Winners® Color Choice® Selection

A remarkable new series of amazing Lupines bred in the United Kingdom that thrive in well-drained soils, enjoy warm sunny days and cool nights. Strong stemmed plants with enormous colorful blooms in late spring and early summer. Attracts butterflies and hummingbirds.

Variety	Bloom Color	Height
'Blacksmith'	Bicolor dark purple and white	36"
'Manhattan Lights'	Bicolor purple and white	36"
'Masterpiece'	Wine/Merlot purple	30"
'Red Rum'	Red	36"
'Tequila Flame'	Bicolor red and yellow	30"
'Terracotta'	Bicolor Peach and yellow	36"

Max. Elev: 7,000 ft. **LWC** #2
Mature Ht: 30-36" & Spd: 24"

MAHONIA REPENS / CREEPING OREGON GRAPE HOLLY ***M. repens***

Evergreen groundcover, holly-like with bright yellow flowers in May followed by blue berries. Leaves turn shades of red in winter and remain until new growth in spring.

Max. Elev: 10,000 ft. **MRE** (CA) #1
Ht: 12-18" & Spd: 18-24"

MALTESE CROSS ***Lychnis chalcedonica***

Silvery green foliage and hairy stems. Flowers are born on large, scarlet, globe-shaped heads resembling a small Maltese cross. Blooms June-July and prefers well-drained soil.

Max. Elev: 8,000 ft. **MAL** #1
Ht: 24-36" & Spd: 28-36"

MEADOW RUE ***Thalictrum aquilegifolium***

Impressive, airy sprays of lilac flowers with yellow stamens. Excellent for cutting. Blooms June-July. **Limited Supply!**

Max. Elev: 8,000 ft. **MRU** #1
Ht: 36" & Spd: 18-24"

MONEYWORT / CREEPING JENNY ***Lysimachia nummularia***

A fine, low creeper. Thick mat of bright green foliage with bright yellow flowers. Blooms June-August.

Max. Elev: 7,500 ft. **MOW** #1
Ht: 2-6" & Spd: 24-72" **MOWF** 32c Flat

MONEYWORT, GOLDEN / CREEPING JENNY
Lysimachia nummularia Aurea'
The golden yellow version of the versatile ground-hugging perennial groundcover. Same bright yellow flowers on top of the brilliant chartreuse foliage. Thrives in both sun and shady gardens. Blooms June-August.
Max. Elev: 7,500 ft. **MWG** #1
Ht: 2-6" & Spd: 24-72" **MWGF** 32c Flat

MUM, CUSHION / GARDEN MUM ***Chrysanthemum hyb.***
Showy color, Sept.-Oct., when little else is in bloom.
Max. Elev: 8,500 ft. #1
Ht: 18-24" & Spd: 24-36" 10"-12" Fiber Pot #2
Bronze-**MUB** Pink-**MUP** Red-**MUR**
White-**MUW** Yellow-**MUY** Purple-**MUL**

OBEDIENT PLANT / FALSE DRAGONHEAD
Physostegia virginiana
Medium-growing plant producing long spikes of pink or white, tubular flowers, July-October *(which actually obey if you move them).* Foliage is dark green and willow-like. Vigorous grower; should be divided every 2-3 years. **Limited Supply!**
Max. Elev: 8,000 ft. #1
Ht: 30" & Spd: 18-24"
Pink-**OPP** White-**OPW**

PACHYSANDRA / JAPANESE SPURGE ***P. terminalis***
Excellent groundcover under trees. White flowers in April and May. Lustrous green foliage. Prefers acidic, woodland conditions.
Max. Elev: 6,500 ft. **PAC** #1
Ht: 6-8" & Spd: 18-24"

PENSTEMON, ELFIN PINK ***P. barbatus 'Elfin Pink'***
Small, pink flowers on soft, leafy stems blooming May-June.
Max. Elev: 8,500 ft. **PEL** #1
Ht: 12-15" & Spd: 6-12"

PENSTEMON, HUSKER RED ***P. digitalis 'Husker Red'***
1996 Perennial of the Year! Striking red leaves and stems with white flowers. Blooms May-June. Also available "Dark Towers" and "Blackbeard" with pretty pink flowers and dark foliage.
Max. Elev: 8,000 ft. **PHR** #1
Ht: 20-30" & Spd: 18-24"

PENSTEMON, MERSEA YELLOW
P. pinifolius 'Mersea Yellow'
Bright yellow flowers on woody stems. Soft needle, evergreen foliage. Blooms June-August. **Limited Supply!**
Max. Elev: 8,000 ft. **PEY** #1
Ht: 6-8" & Spd: 12-15"

PENSTEMON, MEXICALE 'PIKE'S PEAK PURPLE'
1999 Plant Select® ***P. mexicale 'Pike's Peak Purple'***
Violet bell-shaped flowers with fine foliage. Blooms June-Sept.
Max. Elev: 7,500 ft. **PXP** (CA) #1
Ht: 24-30" & Spd: 15-18"

PENSTEMON, MEXICALE 'RED ROCKS'
1999 Plant Select® ***P. mexicale 'Red Rocks'***
Pink bell-shaped flowers with fine foliage. Blooms June-Sept.
Max. Elev: 7,500 ft. **PXR** (CA) #1
Ht: 24-30" & Spd: 15-18"

PENSTEMON PINIFOLIUS / RED BEARDSTONGUE ***P. pinifolius***
Narrow foliage. Red flowers, June-August.
Max. Elev: 8,000 ft. **PPN** #1
Ht: 12-24" & Spd: 18-24"

PENSTEMON, RUBY BELLS ***P. barbatus 'Rubycunda'***
Ruby really rings my bell with her large red tubular blooms that have a clear white center that attracts butterflies and hummingbirds. Blooms July to Sept.
Limited Supply!
Max. Elev: 7,500 ft. **PRU** #1
Ht: 16-20" & Spd: 12-18"

PENSTEMON, ROCKY MOUNTAIN ***P. strictus***
This Colorado native has deep lavender-blue flowers, June-August. Very drought-tolerant. Makes a good cut flower.
Max. Elev: 11,000 ft. **PES** #1
Ht: 12-24" & Spd: 12-18"

PEONY ***Paeonia lactiflora***
Popular flower that blooms in June. Single or double flowers and shiny green foliage. Very hardy. **Limited late season availability.**
Max. Elev: 9,500 ft. #1
Ht: 24-36" & Spd: 24-36"
Pink-**PEP** Red-**PER** White-**PEW**

PEONY, ITOH VARIETIES ***Paeonia (Itoh)***
These vigorous, sturdy double-flowering herbaceous Peonies resemble tree Peonies with a rounded habit and dark green lacy foliage. Bloom early May to the end of June. **Limited late season availability.**
Four beautiful varieties listed below:
Max. Elev: 7,500 ft. #5

Yumi™ (Beauty)	Soft Yellow	**PYI**

PERENNIALS, ASSORTED
We have an assorted perennial area to try new and old varieties. Below is a list of some of the items:

Coneflower, Lavender Fumewort
Sedora Sunsparkler Snow Flurry Aster
Stokes Aster

AAP #1

Special requests are accepted by our resident perennial experts, Megan or Ryan Brown.

PHLOX, CREEPING ***P. subulata***

Produces showy masses of small flowers, April-May. Foliage is needle-shaped and evergreen.
Max. Elev: 7,500 ft. #1
Ht: 4-6" & Spd: 12-24" 32c Flat

Blue-**PCB** Pink-**PCP** Red-**PCR** White-**PCW**

PHLOX, CREEPING 'CANDY STRIPE'

New for Year 2026

P. subulata 'Candy Stripe'

'Candy Stripe' produces striking blooms of Candy pink and white stripes atop of dark evergreen foliage. Drought tolerant and deer resistant, use this perennial groundcover to spill down banks, spread under trees, and lend its joyful color to hard to manage areas. Excellent in rock gardens.
Max. Elev: 7,500 ft. **PCC** #1
Ht: 4-6" & Spd: 12-24"

PHLOX, TALL GARDEN ***P. paniculata***

2002 Perennial of the Year is *P. paniculata 'David',* a tall white garden phlox. Large flower heads, July-August.
Max. Elev: 8,000+ ft. (CA) #1
Ht: 24-36" & Spd: 18-24"

Pink-**PTP** Red-**PTR** White-**PTW**

PINCUSHION FLOWER, BUTTERFLY BLUE

Scabiosa columbaria 'Butterfly Blue'

2000 Perennial of the Year! A profusion of lavender-blue flowers, June-August. Compact habit not requiring staking.
Max. Elev: 7,500 ft. **PBB** (CA) #1
Ht: 18-24" & Spd: 18-24"

PINCUSHION FLOWER, PINK MIST

Scabiosa columbaria 'Pink Mist'

Patented, pink flowering companion to 'Butterfly Blue'. Mixing these two together in your landscape gives a beautiful show of color all summer. Attracts butterflies.
Max. Elev: 7,500 ft. **PFP** (CA) #1
Ht: 18-24" & Spd: 18-24"

POLYGONUM / HIMALAYAN BORDER JEWEL

Persicaria affinis

Small, light pink flowers, June-July. Bronze foliage in winter.
Max. Elev: 8,000+ ft. **BOR** #1
Ht: 4" & Spd: 24-36" **BORF** 32c Flat

POPPY, CALIFORNIA ***Eschscholzia californica***

Slender stems with orange, cup-shaped flowers, rising above bluish green, lacy foliage. Biennial that readily reseeds. Blooms June-September.
Max. Elev: 10,000 ft. **POC** #1
Ht: 12-24" & Spd: 12-18"

POPPY, ICELAND ***Papaver nudicaule***

Flowers in assorted colors, May-August. Mounding plant.
Max. Elev: 10,000 ft. **POI** #1
Ht: 5-10" & Spd: 12-18"

POPPY, ORIENTAL ***Papaver orientale***
Crepe paper-like blooms with attractive black stamens, May-June. Assorted colors.
Max. Elev: 10,000 ft. **POO** #1
Ht: 36" & Spd: 18-24"

POPPY MALLOW / PRAIRIE WINECUP
Callirhoe involucrata
1999 Plant Select® Reddish purple flowers on a low mounding plant. Flowers from early summer into fall.
Max. Elev: 7,500 ft. **POM** #1
Ht: 6-12" & Spd: 12-36"

POTENTILLA, VERNA / CREEPING ***P. neumanniana***
Dense, mat-like cover of strawberry-like foliage with small, bright yellow flowers, May-August. Tolerates light traffic.
Max. Elev: 8,500 ft. **PVE** #1
Ht: 3-6" & Spd: 18-24" **PVEF** 32c Flat

PRAIRIE CONEFLOWER / MEXICAN HAT
Ratibida columnifera 'Red'
Mahogany-reddish brown flowers on bright green foliage. Appears like little Mexican sombreros.
Max. Elev: 8,000 ft. **PCF** #1
Ht: 18-24" & Spd: 18-24"

PRIMROSE, MEXICAN EVENING ***Oenothera berlandieri***
Likes a warm, sunny spot where it will provide many, pale pink blossoms, June-October. May be invasive.
Max. Elev: 7,500 ft. **PME** #1
Ht: 12" & Spd: 18-24"

PRIMROSE, MISSOURI EVENING ***Oenothera macrocarpa***
Blooms continuously with large, yellow flowers, June-Aug.
Max. Elev: 8,500 ft. **PRM** #1
Ht: 9-12" & Spd: 18-24"

RED BIRDS IN A TREE ***Scrophularia macrantha***
New for Year 2026

2008 Plant Select® An attractive and unusual variety. Deep red flowers that resemble small birds perched on the branches of the (tree) plant. Flowers that are arranged in tiers in the upper part of the stem. Loved by pollinators!!
Max. Elev: 8,000 ft. **RBT** #1
Ht: 24-36" & Spd: 24-48"

RED HOT POKER / TORCH LILY ***Kniphofia uvaria***
Long, poker-shaped flower heads of orange, yellow or red in early June thru August. Foliage is long and grass-like.
Max. Elev: 8,000+ ft. **RHP** #1
Ht: 24-30" & Spd: 28-36"

RED VALERIAN / JUPITER'S BEARD ***Centranthus ruber***
Large clusters of fragrant, carmine-rose flowers, June-Sept. Foliage is large, rich green and heart-shaped. Cutting flowers often will stimulate additional production.
Max. Elev: 9,000 ft. **REV** #1
Ht: 24-36" & Spd: 18-24"

RED VALERIAN, WHITE / JUPITER'S BEARD ***Centranthus ruber 'Albus'***
White flowering form of Jupiter's Beard.
Max. Elev: 9,000 ft. **VWH** #1
Ht: 24-36" & Spd: 18-24"

RUDBECKIA, GLORIOSA DAISY / BLACK-EYED SUSAN
ONE OF OUR TOP SELLERS!! ***R. fulgida 'Goldsturm'***
1999 Perennial of the Year! Yellow flowers with dark centers, July-October. *You should see what Susan did to the other guy!*
Max. Elev: 9,000 ft. **RGD** #1
Ht: 30-36" & Spd: 18-24"

SAGE, 'FURMAN'S RED' ***Salvia greggii 'Furman's Red'***
2005 Plant Select® A southwestern everblooming sage with crimson flower's. Needs winter protection.
Max. Elev: 5,500 ft. **SUR** #1
Ht: 2' & Spd: 18"

SAGE, POWIS CASTLE ***Artemisia 'Powis Castle'***
Shrubby mounds of lacy silver foliage. Don't worry about cutting off old, ugly blooms as this hybrid does not bloom.
Max. Elev: 8,500 ft. **SAP** #1
Ht: 2-3' & Spd: 3-4'

SAGE, SILVER MOUND ***Artemisia schmidtiana***
Dome-shaped, silvery gray foliage. Ideal accent plants.
Max. Elev: 7,500 ft. **SGS** #1
Ht: 8-10" & Spd: 18-24"

SAGE, 'WILD THING' ***Salvia greggii 'Wild Thing'***
2005 Plant Select® Long blooming semi-evergreen aromatic foliage with hot pink flowers. This 'Wild Thing' needs protection in winter and a hair cut in spring.
Max. Elev: 6,000 ft. **SWT** #1
Ht: 18" & Spd: 18"

SALVIA, 'CARADONNA' ***Salvia nemorosa 'Caradonna'***
Striking dark purple stems really set off the violet-purple flowers blooming early to late summer. Its more upright shape is good for cut flower arrangements.
Max. Elev: 8,500 ft. **SCD** #1
Ht: 18-24" & Spd: 18"

SALVIA, MAY NIGHT ***S. sylvestris x 'Mainacht'***
ONE OF OUR TOP SELLERS!!
1997 Perennial of the Year! Grayish green leaves topped by spikes of violet flowers. Blooms aaaaaaaaaallllll summer.
Max. Elev: 8,500 ft. **SMN** #1
Ht: 18-24" & Spd: 12-18"

SALVIA / PURPLE FLOWERING SAGE ***S. superba 'East Friesland'***
Upright plants with purple flowers, June-August.
Max. Elev: 7,500 ft. **SAL** #1
Ht: 12-24" & Spd: 24-36"

SALVIA, ROSE MARVEL/MEADOW SAGE *S. nemorosa 'Rose Marvel'*

New for Year 2026

Columns of magenta flowers on burgundy stems will entice hummingbirds and butterflies, while fragrant green foliage resists deer and rabbits. Flowers are the largest of any pink meadow salvia, blooming in spring and summer, and are excellent for cut flower arrangements.

Max. Elev: 7,000 ft. **SLR** #1
Ht: 10-16" & Spd: 10-12"

SALVIA / SILVER SAGE *S. argentea*

1997 Plant Select® Large foliage up to a foot or more in length, covered with a coat of silver fur makes this plant an eye-catcher. Stalks of white flowers from June to July.

Max. Elev: 8,000 ft. **SSS** #1
Ht: 24-30" & Spd: 18-24"

SALVIA, WHITE *Salvia nemorosa alba*

Robust plant with improved branching equals more flowers. Eye-catching pure white flowers with green foliage. Excellent rebloomer and heat tolerance.

Max. Elev: 7,500 ft. **SLW** #1
Ht: 24-24" & Spd: 24"

SEA HOLLY *Eryngium x zabelii 'Big Blue'*

Striking ornamental perennial grown for their arresting thistle-like, silvery or blue tinged flowers on sturdy stems. Heads adorned with a ruff of showy bracts. Useful in rock gardens where their steel blue foliage really stands out.

Max. Elev: 7,500 ft. **SHY** #1
Mature Ht: 36-40" & Spd: 18-24"

SEDUM, ANGELINA / STONECROP *S. rupestre 'Angelina'*

Who said sedums are boring? Not Angelina—she's hot with her succulent golden yellow trailing leaves that sparkle with clusters of yellow starry flowers in mid-summer. She looks great flowing over walls or pots.

Max. Elev: 6,500 ft. **SAG** #1
Ht: 4-6" & Spd: 12-24"

SEDUM, ASSORTED / STONECROPS *Sedum hybrids*

A fun new assortment of sedums, particularly the upright varieties and some groundcover types, too. Sedum Mojave, Sedum Purple Emperor, and Sedum Vera Jameson to name just a few.

Max. Elev: 9,500 ft. **SAD** #1
Mature Ht: 12-36" & Spd: 18-24"

SEDUM, AUTUMN JOY / STONECROP *S. spectabile 'Autumn Joy'*

Taller-growing variety of sedum producing large, flat clusters of red or pink florets in August. Gray-green foliage.

Max. Elev: 9,500 ft. **SES** #1
Ht: 18-36" & Spd: 18-24"

SEDUM, BLUE SPRUCE / STONECROP *S. pinifolium 'Blue Spruce'*

Needle-like, blue-green foliage. Yellow flowers from June to August. Does best in well-drained soils. **Limited Supply!**

Max. Elev: 8,000 ft. **SBS** #1
Ht: 4-5" & Spd: 6-24"

SEDUM, DRAGON'S BLOOD / STONECROP ***S. spurium 'Dragon's Blood'***

Bronzy leaves with rose-red flowers, June-July.
Max. Elev: 9,500 ft. **DRA** #1
Ht: 3-6" & Spd: 6-24" **DRAF** 32c Flat

SEDUM, GOLD MOSS / STONECROP ***S. floriferum***

Deep yellow flowers in June. Small, light green foliage.
Max. Elev: 9,500 ft. **SGM** #1
Ht: 2-4" & Spd: 6-24" **SGMF** 32c Flat

SELF HEAL ***Prunella grandiflora***

Dark green foliage forms a dense mat. Dark bracts that bloom June-August highlight hooded, lilac flowers.
Max. Elev: 7,000 ft. **SHL** #1
Ht: 8-12" & Spd: 16"

SNOW-IN-SUMMER ***Cerastium tomentosum***

Hardy groundcover that holds color throughout the winter. Silver-gray foliage with white flowers, May-June.
Max. Elev: 10,000+ ft. **SSU** #1
Ht: 4-8" & Spd: 24-36" **SSUF** 32c Flat

SNOW-ON-THE-MOUNTAIN / BISHOP'S WEED ***Aegopodium podograria 'Variegatum'***

Popular groundcover with white and green, variegated leaves. Stalks of white flowers, May-June.
Max. Elev: 9,500 ft. **SOM** #1
Ht: 10-12" & Spd: 36" **SOMF** 32cFlat

SOAPWORT ***Saponaria ocymoides***

Semi-evergreen with low-growing, spreading habit. Bright pink flowers, May-June. Vigorous groundcover, or can be used in rock gardens. Great cascading over a sunny wall.
Max. Elev: 8,000 ft. **SOA** #1
Ht: 6" & Spd: 12-18"

SPIDERWORT, BLUE ***Tradescantia x andersoniana***

Produces three-lobed, purple-blue blooms, May-July. Grass-like foliage. Best in organic soil.
Max. Elev: 8,000 ft. **SPB** #1
Ht: 18-24" & Spd: 18-24"

SPIDERWORT, BLUE and **GOLD** ***Tradescantia 'Blue and Gold'***

Bright chartreuse-yellow grassy foliage with gentian- blue flowers in May thru July. Attractive to butterflies.
Limited Supply!
Max. Elev: 7,000 ft. **SBG** #1
Ht: 18-24" & Spd: 18-24"

SPURGE, CUSHION ***Euphorbia sp.***

Back for Year 2026

Mounding clump forming perennial covered in bright yellow bracts on sturdy stems in May. Foliage turns brilliant red in fall. Tolerant of poor soils and dry conditions. Varieties may include Ascot Rainbow, Bonfire, Minor Merlot and Glacier Blue. Milky, toxic sap of Euphorbias may cause skin irritations.
Max. Elev: 8,000 ft. **SCU** #1
Ht: 12-24" & Spd: 18-24"

STRAWBERRY ***Fragaria 'Fort Laramie'***
Ever bearing groundcover with edible sweet fruit for your garden. Fast-grower after first season. White flowers, June-October.
Max. Elev: 10,000 ft. **STR** #1
Ht: 6-8" & Spd: 24-48"+ **STRF** 32c Flat

STRAWBERRY, BARREN ***Waldsteinia ternata***
Easy to grow, low-spreading groundcover adaptable to a variety of soils. Strawberry-like foliage. Yellow flowers, May-June. Good rock garden plant.
Max. Elev: 8,000 ft. **BAS** #1
Ht: 6-8" & Spd: 6-12"

STRAWBERRY, LIPSTICK ***Fragaria frel 'Lipstick'***
Lush, semi-evergreen ground-covering foliage. Blooms are light red, May thru September. Produces small, edible red berries.
Max. Elev: 8,000 ft. **SLS** #1
Ht: 6-8" & Spd: 18-24"

SUNROSE ***Helianthemum nummularium***
Semi-evergreen plant with dark green, waxy foliage. Blooms July to September.
Max. Elev: 8,000 ft. #1
Ht: 6-10" & Spd: 12-20"
Orange-**SRO** Red-**SRR** Yellow-**SRY**

SWEET WOODRUFF ***Galium odoratum***
Mat-like with small, white, fragrant flowers, May-June. One of the few plants that grows well under large evergreens.
Max. Elev: 8,500 ft. **SWW** #1
Ht: 8-10" & Spd: 18-24" **SWWF** 32c Flat

THYME, ELFIN ***Thymus speciosa 'Elfin'***
This is a dwarf variety of Lemon Thyme. Dark green foliage with small, lavender blossoms, June-July.
Max. Elev: 8,500 ft. **ELF** #1
Ht: 2" & Spd: 6-18" **ELFF** 32c Flat

THYME, LEMON ***Thymus serpyllum 'Pink Chintz'***
Green foliage with lavender blossoms July-August. Will stand light traffic.
Max. Elev: 8,500 ft. **LEM** #1
Ht: 2-4" & Spd: 6-18" **LEMF** 32c Flat

THYME, WOOLY ***Thymus praecox pseudolanuginosus***
Gray, fuzzy creeper with lavender blossoms June-July. Good for rocks and walks.
Max. Elev: 9,100 ft. **WOO** #1
Ht: 2-4" & Spd: 6-18" **WOOF** 32c Flat

TRUMPET VINE ***Campsis radicans***
Upright growing vine. Clusters of large, trumpet-shaped, orange flowers, June-August. Red & Yellow varieties may be special ordered.
Max. Elev: 7,000 ft. **TVI** #1
Ht: 20-30' & Spd: 3-5' #5

TWINSPUR, CORAL CANYON. ***Diascia integerrima 'Coral Canyon'***

2000 Plant Select® This heat-tolerant plant is great for borders or mixed with ice plants and other low-growing perennials. Long-blooming, rose-pink flowers make this a winner.

Elev: 7,500 ft. **TSC** #1
Ht: 10-14" & Spd: 12"

VERONICA, CRYSTAL RIVER™ ***V. 'Reavis' Crystal River***

2003 Plant Select® A vigorous, evergreen groundcover that is covered with tiny blue flowers in spring and scattered blooms through fall. Very heat tolerant.

Max. Elev: 8,000 ft. **VCR** #1
Ht: 3" & Spd: 20-30" **VCRF** 32c Flat

VERONICA, SNOWMASS® ***Veronica Snowmass® 'P018S'***

2017 Plant Select® Small, glossy rounded leaves lead to a stunning display of small, four petaled white flowers with blue eyes. A perfect complement to spring bulbs, it continues to bloom into early summer. A wonderful evergreen groundcover to add to the garden. Often called Blue-Eyed Speedwell.

Max. Elev: 8,000 ft. **VSM** #1
Mature Ht: 1-2" & Spd: 18"

VERONICA, SPEEDWELL / SPIKE SPEEDWELL ***V. spicata 'Goodness Grows', 'Red Fox'***

Compact-growing plant with green foliage. Blue or rose pink flower stalks, June-August.

Max. Elev: 8,500 ft. (CA) #1
Ht: 8-14" & Spd: 12-18"

Blue-**VSB** Rose-**VSR**

VERONICA, SUNNY BORDER BLUE ***V. 'Sunny Border Blue'***

1993 Perennial of the Year! Beautiful, dark violet-blue flower spikes. Long-blooming from June to frost.

Max. Elev: 8,500 ft. **VBB** #1
Ht: 18-20" & Spd: 15-18"

VERONICA, TURKISH ***V. liwanensis***

1997 Plant Select® Deep blue flowers cover a mat of small, glossy, dark green leaves. Bloom time is May-June.

Max. Elev: 8,500 ft. **VTU** #1
Ht: 1-2" & Spd: 12-18" **VTUF** 32c Flat

VERONICA, WHITE ***V. longifolia 'Vernique® White'***

Compact perennial with beautiful, full upright spikes of white flowers. Long blooming and hardy.

Max. Elev: 7,500 ft. **VRW** #1
Ht: 22-24" & Spd: 24"

VINCA MINOR / PERIWINKLE—Blue ***V. minor 'Bowles'***

ONE OF OUR TOP SELLERS!!

Blue flowers, June-September. Evergreen and will take light traffic.

Max. Elev: 8,500 ft. **VIN** (CA) #1
Ht: 4-8" & Spd: 24-48" **VINF** 32c Flat

VIOLA / TUFTED PANSY, CORSICAN VIOLET ***V. corsica***
2003 Plant Select® The Tufted Pansy is a spreading, compact-growing perennial producing blue blooms, April-July. **Limited Supply!**
Max. Elev: 9,000 ft. **VIO** #1
Ht: 5" & Spd: 8-12"

WALLFLOWER ***Erysimum species***
New for Year 2026
Upright spikes or clusters of small, four-petaled flowers in a wide range of colors, including yellow, orange, pink, purple, and red often appearing in bicolor or multicolor forms on a single plant. Butterflies and hummingbirds love the early banquet of blooms.
Max. Elev: 12,500 ft. **WFL** #1
Ht: 24-36" & Spd: 12-24"

WISTERIA, AMETHYST FALLS ***Wisteria frutescens***
Amethyst Falls is a first season bloomer unlike Chinese, also not invasive like Chinese. Fragrant 6" re-blooming blue flower clusters that bloom about two weeks later so late frosts are not such a problem. This beautiful vine needs an arbor, trellis or fence to support this beautiful vine.
Max. Elev: 6,000 ft. **WIB** (CA) #5
Ht: 20-25' & Spd: 4'

YARROW, MOONSHINE ***Achillea 'Moonshine'***
Sulfur-yellow flowers with silver-gray, fern-like foliage. Excellent for cut and dried flowers. Blooms June-August.
Max. Elev: 9,000 ft. **YAM** #1
Ht: 18-24" & Spd: 18-24"

YARROW, PINK
Achillea millefoleum 'Paprika' or 'Summer Pastels'
Gray-green foliage with pink to rosy pastel flowers appearing June-September.
Max. Elev: 9,600 ft. **YAP** #1
Ht: 24-36" & Spd: 12-24"

SMALL FRUITS

BLACKBERRY, BLACK SATIN
Rubus ursinus 'Black Satin'
Noted for its vigor, reliably heavy production, firmness, and good quality. Hardier than other selections. The sweet berries are one inch long, ¾" wide, long conic, and glossy black. Repens early and continues to produce for long periods.
Max. Elev: 6,000 ft. **BLB** #1
Mature Ht: 5-6' & Spd: 3-4'

GRAPE, HIMROD—White ***Vitis labrusca 'Himrod'***
Small, crisp, sweet, green berries. Good for desserts and wine. Ripens early in the season.
Max. Elev: 6,500 ft. **HIM** (CA) #1
Ht: 20-25' & Spd: 3-4'

GRAPE, SAINT THERESA ***Vitis x 'St. Theresa Seedless'***
2008 Plant Select® Blue-purple fruit, very hardy and mostly seedless. This sweet table grape shows little concern for our alkaline soils.
Max. Elev: 7,000 ft. **STG** (CA) #1
Ht: 20' & Spd: 8'

RASPBERRY, CANBY RED
Rubus idaeus 'Canby Red'
Developed in Oregon and introduced in 1953. Nearly thornless, produces large tasty, good quality, bright red berries. Ideal for freezing, canning, cooking and fresh eating.
Max. Elev: 7,000 ft. **RCR** (CA) #1
Ht: 6' & Spd: 4'

RASPBERRY, FALL GOLD -Yellow ***Rubus x 'Fall Gold'***
Firm, golden red berries. Fresh, frozen or canned. Vigorous!
Max. Elev: 8,000 ft. **RFG** (CA) #1
Mature Ht: 5-6' & Spd: 3-4'

RASPBERRY, HERITAGE-RED ***Rubus 'Heritage'***
Red, ever-bearing. Delicious for pies and jams.
Max. Elev: 6,500 ft. **HER** (CA) #1
Mature Ht: 5-6' & Spd: 3-4'

RASPBERRY, JEWELL-BLACK ***Rubus 'Jewell'***
Rates excellent for flavor, Jewell has large, black berries that ripen early. **Zone 4**.
Max. Elev: 7,000 ft. **RJE** (CA) #1
Mature Ht: 3-4' & Spd: 3-4'

STRAWBERRY ***Fragaria 'Fort Laramie'***
Ever bearing groundcover with edible sweet fruit for your garden, Fast-grower after first season. White flowers, June-October.
Max. Elev: 10,000 ft. **STR** #1
Ht: 6-8" & Spd: 24-48+" **STRF** 32C Flat

"I checked into the Hokey Pokey Clinic and I turned myself around"

ROSES

These beautiful, ever blooming rose bushes grow well up to 6,000 feet in elevation, or with considerable snow cover, up to about 7,500 feet.

CLIMBING ROSES

There are so many places to use these perennial climbers; Against a wall, along a fence, on a post or pillar, over an entryway or on a trellis.

FLORIBUNDA ROSES

Great for solid-color plantings along sidewalks, driveways, or foundation plantings.

Named Varieties (Listed Below) #2 #5

ANGEL FACE	Lavender	**AFA**	#2
ICEBERG	White	**ICB**	#2, #5
SHOWBIZ	Red	**SHO**	#2
SUNSPRITE	Yellow	**SUS**	#2

GRANDIFLORA ROSES

A cross of Floribunda and hybrid tea roses, combining large elegant blooms with repeating flower cycles.

Named Varieties (Listed Below) #2

ALL DRESSED UP™	Pink	**ADU**
FUN IN THE SUN™	Orange – Yellow	**FUN**
MISS MANNERS™	Pink	**MIM**

HYBRID TEA ROSES

In the landscape, hybrid teas are often used as single specimens, or as the featured plants in mixed rose beds. If "**GR**" appears after the rose name, it is a grandiflora.
Grandifloras produce clusters of flowers; hybrid teas are single flowers on long stems.

SHRUB, GROUND COVER AND MINIATURE ROSES

ADELAIDE HOODLESS ***Rosa x 'Adelaide Hoodless'***

This introduction from the Morden Research Station in Manitoba Canada is very hardy. Clusters of bright red flowers bloom from June to frost. The glossy foliage is resistant to blackspot and mildew.

Max. Elev: 8,000 ft. **AHO** (CA) #2
Mature Ht: 6' & Spd: 6'

AUSTRIAN COPPER ***Rosa foetida 'Bicolor'***

Single, brilliant orange-red flowers inside, yellow outside.

Max. Elev: 10,000 ft. **ACO** #5
Mature Ht: 6' & Spd: 6'

CUTHBERT GRANT ***Rosa x 'Cuthbert Grant'***

Developed in Manitoba, Canada, this recurrent hardy rose has dark red flowers, 4" across in clusters of three to six. Unusual name, huh? Cuthbert Grant, born in 1793, was a hero to the people of Manitoba for his efforts in helping settle that land peacefully. Late spring bloomer.

Max. Elev: 8,000 ft. **CGR** (CA) #2
Mature Ht: 3' & Spd: 3'

"As you walk down the fairway of life you must smell the roses, for you only get to play one round."

– Ben Hogan

EBB TIDE ***Rosa 'WEKSsmopur'***
Hush, hush. The deep purple petals of this old-fashioned looking rose will be calling your name. Super fragrant rose with these deep purple flowers. Put it in a landscape and you will leave people speechless. Blooms June to frost.
Max. Elev: 6,500 ft. **EBB** #2
Mature Ht: 4' & Spd: 3'

FLOWER CARPET®, CORAL ***Rosa x 'Noala'***
Bright, ruffled, orangish pink, single petals are reminiscent of a darker Nearly Wild. Foliage is dark green and disease-resistant. Blooms from early summer to frost.
Max. Elev: 6,500 ft. **FCC** (CA) #2
Mature Ht: 2' & Spd: 3'

FLOWER CARPET®, PINK ***Rosa x 'Noatraum'***
Beautiful, full, pink blossoms cover plant summer to fall. Dark green, disease-resistant foliage. Needs no special pruning.
Max. Elev: 7,000 ft. **FCP** (CA) #2
Mature Ht: 2' & Spd: 3'

FLOWER CARPET®, RED ***Rosa x 'Noare'***
This rose has a velvety red, single flower with a golden yellow center. It is easy care with bloom time from spring to frost. *"Don't sweep this one under the rug."*
Max. Elev: 7,000 ft. **FCR** (CA) #2
Mature Ht: 2' & Spd: 3'

FLOWER CARPET®, SCARLET ***Rosa 'NOA8310B'***
Vibrant clusters of double bright red flowers will bloom from spring to fall producing over 2000 blossoms during the season. Will take part shade (4-5 hours a day). Excellent rose!
Max. Elev: 6,500 ft. **RFS** (CA) #2
Mature Ht: 2-3' & Spd: 3'

FLOWER CARPET®, WHITE ***Rosa x 'Noaschnee'***
This low-maintenance rose is one of the earliest to bloom in spring and considered one of the most disease-resistant white roses available.
Max. Elev: 6,500 ft. **FCW** (CA) #2
Mature Ht: 2' & Spd: 3'

FLOWER CARPET®, YELLOW ***Rosa x 'Noalesa'***
What can we say....It's a Flower Carpet®....It's yellow.
Max. Elev: 7,000 ft. **FYE** (CA) #2
Mature Ht: 2' & Spd: 2'

GOURMET POPCORN ***Rosa 'Gourmet Popcorn'***
This miniature rose is covered with small, white flowers actually resembling popcorn—all summer! Very fragrant, very hardy. *You should pop one of these in your own yard.*
Max. Elev: 8,000 ft. **GPO** #2
Mature Ht: 2' & Spd: 2'

HANSA ***Rosa rugosa 'Hansa'***
Vibrant purple-red, double flowers have a sweet fragrance accented with clove. Large, red hips ripen after petals fall. This vigorous, hardy plant blooms freely from spring to fall.
Max. Elev: 9,000 ft. **HSR** (CA) #2
Mature Ht: 4' & Spd: 4'

KNOCK OUT®, ROSE ***Rosa 'Radrazz'*** **PP11836**
AARS Winner for 2000! As its name says: It's a real knockout! It's maintenance free and blooms cherry red from spring to frost. Drought-tolerant, insect and disease-resistant…Only needs 5+ hours of full sun a day! **Zone 4.**
Max. Elev: 7,000 ft. **KNO** (CA) #2
Mature Ht: 3' & Spd: 3' #5

KNOCK OUT®, DOUBLE ROSE ***Rosa 'Radtko'*** **PP16202**
The next generation delivers a 1-2 punch with a petal count of 18-24, twice the number of Knock Out®. Everything you love about "Knock Out" you'll love about "Double Knock Out", twice as much.
Max. Elev: 7,000 ft. **KND** (CA) #2
Mature Ht: 3' & Spd: 3' #5

KNOCK OUT®, DOUBLE PINK ROSE
Rosa 'Radtkopink' **PP18507**
Bright, double petaled, bubble-gum pink flowers are unfazed by the heat. It's everything you love about Knock Out® and Double Knock Out but now in pink.
Max. Elev: 7,000 ft. **DPK** (CA) #2
Mature Ht: 4' & Spd: 4' #5

KNOCK OUT®, PINK ROSE ***Rosa 'Radcon'*** **PP15070**
As a child of Knock Out®, Pink is hardy and maintenance free. Dark pink buds open to 3" single, medium pink blooms.
Max. Elev: 7,000 ft. **KNP** (CA) #2
Mature Ht: 3' & Spd: 3' #5

KNOCK OUT®, RAINBOW ROSE
Rosa x 'Radcor' **PP17346**
Rainbow has more flowers than other Knock Out® varieties. They are 2" single form coral-pink with a yellow center maturing to light coral with the scent of sweetbriar. The flowers are followed by orange hips.
Max. Elev: 7,000 ft. **KNR** (CA) #2
Mature Ht: 3' & Spd: 3' #5

KNOCK OUT®, SUNNY ROSE
Rosa 'Radsunny' **PP18562**
Hardiness, vigor, disease resistance is what we expect from the Knock Out® family. Sunny is all of this and more. The blossoms are buttery yellow that fade to light yellow. New growth is red with dark green leaves, accenting the display of flowers from spring to fall.
Max. Elev: 6,500 ft. **KNS** (CA) #2
Mature Ht: 4' & Spd: 4' #5

KNOCK OUT®, WHITE ROSE ***Rosa 'Radwhite'*** **PP20273**
Knock Out®, White is a great looking rounded shrub rose. The single pure white flowers cover this plant all summer. A vigorous grower with excellent disease resistance, the medium sized yet compact rose will knock you out with its fragrance.
Max. Elev: 7,000 ft. **KNW** (CA) #2
Mature Ht: 3-4' & Spd: 3-4' #5

LIVIN' EASY™ ***Rosa 'Harwelcome'***
Covered with clusters of 3-4", double blooms. Flowers of rich apricot-orange-red bloom June to October. Bright, glossy green foliage on rounded plant has mild, fruity fragrance.
Max. Elev: 6,000 ft. **LIV** #5
Mature Ht: 3-4' & Spd: 3-4'

MEIDILAND®, BONICA® ***Rosa 'Meidomonac'***
Masses of pink, 3" flower clusters in early summer, continuing 'til fall. Little maintenance. Good, broad hedge.
Max. Elev: 6,000 ft. **MEB** #5
Mature Ht: 3' & Spd: 4'

MEIDILAND®, FIRE ROSE ***Rosa 'Meipsidue'*** **PP11583**
Clusters of fire-engine red blooms give continuous color May-October. Mounding groundcover with green, glossy foliage can be used in small areas or enhanced with mass plantings. Beautiful on slopes. Highly disease-resistant.
Max. Elev: 6,000 ft. **MFI** #5
Mature Ht: 2' & Spd: 4'

MEIDILAND®, RED ***Rosa 'Meimodac'***
Single, red flowers with a bright white center bloom continuously from spring to winter followed by numerous orange-red hips. Ideal cover for foreground and slopes.
Max. Elev: 6,000 ft. **REM** (CA) #2
Mature Ht: 3' & Spd: 5'

MEIDILAND®, SCARLET ***Rosa 'Meikrotal'***
Scarlet flowers, very double, 1-1½" clusters. Abundant bloom in June. Maintains a mounding, groundcover habit.
Max. Elev: 6,000 ft. **MSC** (CA) #2
Mature Ht: 3' & Spd: 5'

MEIDILAND®, SEVILLANA® ***Rosa 'Meigekanu'***
Double red flowers in spring through fall contrast with dark green foliage. Strong, loose branching and upright habit.
Max. Elev: 6,000 ft. **MSE** #5
Mature Ht: 5' & Spd: 3'

MEIDILAND®, WHITE ***Rosa 'Meicoublan'***
White flowers up to 4" across, ever blooming profusely from June until frost. Vigorous, mounding groundcover.
Max. Elev: 6,000 ft. **MEW** (CA) #2
Mature Ht: 2' & Spd: 5' #5

MORDEN BLUSH ***Rosa x 'Morden Blush'***
Developed in Canada, this hardy rose has more flowers and the longest bloom time of all the Parkland roses. Flowers have classic Hybrid Tea form that varies in color from light pink to ivory white depending on the temperature. **Zone 3**.
Max. Elev: 8,000 ft. **MBL** (CA) #2
Mature Ht: 2½' & Spd: 2½'

MORDEN CENTENNIAL ***Rosa x 'Morden Centennial'***
4", rose-colored flowers in clusters, with a light scent. Excellent disease resistance. Orange hips in fall.
Max. Elev: 8,000 ft. **MCE** (CA) #2
Mature Ht: 4' & Spd: 4' #5

MORDEN SUNRISE ***Rosa x 'Morden Sunrise'***
3" wavy semi-double copper tone yellow flowers turn peach with time. Blooms from June to frost in clusters of 2-15. Followed by large rose hips. Extremely hardy, **Zone 3**.
Max. Elev: 9,000 ft. **MSU** (CA) #2
Mature Ht: 2' & Spd: 2' #5

NEARLY WILD ***Rosa x 'Nearly Wild'***
Large, floriferous, single, pink blossoms adorn this neat, compact plant. Fragrant blossoms have a slight apple scent, blooming spring through fall. Great background for perennials.
Max. Elev: 8,000 ft. **NWR** (CA) #2
Mature Ht: 3' & Spd: 3' #5

PERSIAN YELLOW ***Rosa foetida persiana***
Double, yellow flowers. Glossy, deep green foliage.
Max. Elev: 10,000 ft. **PYE** #5
Mature Ht: 6' & Spd: 6'

REDLEAF ***Rosa glauca (rubrifolia)***
2010 Plant Select® This shrub rose is highly valued for its purplish red foliage. The single, clear pink flowers in early spring and red hips last into winter.
Max. Elev: 8,500 ft. **RLR** (CA) #2
Mature Ht: 6' & Spd: 4'

RUGOSA ***Rosa rugosa***
Very hardy. Blooms all summer with deep rose pink, 3½" flowers. Fall brings a spectacular display of orange to scarlet leaves and large orange or red fruit. Very tolerant of salt.
Max. Elev: 10,000 ft. **RUG** (CA) #2
Mature Ht: 6' & Spd: 5' #5

SEA FOAM ***Rosa x 'Sea Foam'***
Double, creamy white, slightly fragrant flowers on long, trailing canes. Dark green, disease-resistant foliage. Free blooming.
Max. Elev: 6,000 ft. **SFO** #5
Mature Ht: 3' & Spd: 3'

THERESE BUGNET ***Rosa x foetida 'Therese Bugnet'***
Profuse clusters of dark red buds open to fragrant, lilac pink, double flowers. Hardy. *No bug nets here!!*
Max. Elev: 8,000 ft. **TBU** #5
Mature Ht: 5' & Spd: 5'

WINNIPEG PARKS ***Rosa x 'Winnipeg Parks'***
Low-growing, extremely hardy, disease resistant. This shrub rose will become your favorite: 2" double cherry-red blooms that recur June-September. New growth is red.
Max. Elev: 8,000 ft. **WPA** (CA) #2
Mature Ht: 2-3' & Spd: 4' #5

"Flowers always make people better, happier, and more helpful; they are sunshine, food, and medicine for the soul."

– Luther Burbank

WOODS ***Rosa woodsii***

Fast-growing native rose. Recurrent, single pink blooms on reddish stems. Suckers.

Max. Elev: 10,000 ft. **RWO** (CA) #2

Mature Ht: 4' & Spd: 4' #5

Rose hips are extremely rich in Vitamin C, containing more than any other fruit or vegetable, and they are used to make jams, teas, and syrups.

"If you truly love nature, you will find beauty everywhere."

– Vincent Van Gogh

DECIDUOUS SHRUBS (CA)

We are proud to offer plants from California and other warm weather states. As a finished product, they are BIGGER, bushier, more colorful and often flowering. They have a higher price because they cost more and have increased transportation costs. We give them an orange tag and (CA) note to indicate the difference between plants we've grown from bare root stock in the same size container. However, sometimes an item doesn't have a corresponding bare root size, we still give it a (CA) designation to show origination and keep consistency.

ALMOND, FLOWERING ***Prunus glandulosa 'Rosea'***

Double pink flower in early spring. Shiny green foliage.
Max. Elev: 7,500 ft. **FAL** 2-3' #5
Mature Ht: 6' & Spd: 5'

ALTHEA / ROSE-OF-SHARON ***Hibiscus syriacus***

Upright, bushy shrub starts blooming midsummer, persists into fall. Very hardy once established. Hedge or specimen.
Max. Elev: 7,500 ft 18-24" #5
Mature Ht: 10' & Spd: 5' #15

ALTHEA, FIJI™ ***Hibiscus syriacus 'Minspot'***

A First Editions® Selection

Fiji™ brings a little of the South Pacific to Colorado. Buds are medium pink and give way to showy semi-double flowers that fade slowly to light pink. A splash of deep red colors the center with small streaks reaching the petal tips.
Max. Elev: 7,500 ft. **AFI** 18-24" (CA) #3
Mature Ht: 6' & Spd: 5' #10

ALTHEA, LIL' KIM®
***Hibiscus syriacus 'Antong Two'* PP19547**

A Proven Winners® Color Choice® Selection

A true dwarf althea from South Korea, Lil' Kim® has pure white flowers with red eye centers. The single 3" flowers last longer than other Rose of Sharons. It prefers well-drained soils, attracts hummingbirds and butterflies yet resistant to deer. It fits into any garden location, deck border or demilitarized zone.
Max. Elev: 6,000 ft. **ALK** 10-12" (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

ALTHEA, LIL' KIM® RED
***Hibiscus syriacus 'SHIMRR38'* PP27195**

A Proven Winners® Color Choice® Selection

A dwarf hibiscus with single rosy pink-red blooms. This newest edition to the Lil' Kim® series has a compact habit and rich, single deep rosy-red flowers. The unique color looks good with many summer flowering perennials, and it's a good choice for container gardens. Attracts butterflies and hummingbirds.
Max. Elev: 6,000 ft. **AKR** (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

ALTHEA, Purple Pillar®
***Hibiscus syriacus 'Giandini Santiago'* PP25568**

A Proven Winners® Color Choice® Selection

Purple Pillar® is a totally unique purple-flowering Rose of Sharon. It naturally grows as a narrow column instead of a wide spreading plant. Getting 2-3' wide and 10-16' tall. Think of what you could do with that: screens, hedges, patio containers. Anywhere you need a little privacy and/or late summer color in a narrow space. It does best in full sun.
Max. Elev: 7,500 ft. **APP** (CA) #3
Mature Ht: 10' & Spd: 2' #10

APACHE PLUME ***Fallugia paradoxa***

2002 Plant Select® Native plant, noted for white, rose-like flowers in spring followed by fuzzy seed heads in summer.
Max. Elev: 9,000 ft. **APL** 15-18" #5
Mature Ht: 5' & Spd: 5'

AZALEA ***Rhododendron***

Azaleas are deciduous rhododendrons that bear very showy flowers on branches before the leaves come out. They are quite spectacular in bloom. The 'Lights' series features some of the hardiest azaleas on the market.
Max. Elev: 6,000 ft. #2
Mature Ht: 2-4' & Spd: 2-5'

Variety	Color	Item Code	Sizes
Rosy Lights	Dark Pink	**ARL**	#2
Mandarin Lights	Orange	**ALM**	#2

BARBERRY, ADMIRATION
Berberis thunbergii 'Admiration'
A show stopping shrub with orange-red new growth. Outer leaves mature to a deeper red edged in golden yellow while the inner leaves stay green. This low mounding, compact shrub does well in mass plantings and in most soils as long as they are well-drained. Best color in full sun. A barberry to admire…
Max. Elev: 7,000 ft. **BAD** (CA) #3
Mature Ht: 2' & Spd: 2'

BARBERRY, CRIMSON PYGMY
Berberis thunbergii 'Atropurpurea Nana'
New, bronze-red foliage matures to blood red when in full sun. Low-growing. Numerous small thorns make this a perfect plant for in front of your daughter's bedroom window.
Max. Elev: 8,500 ft. **CPB** 6-9" (CA) #1
Mature Ht: 2' & Spd: 3' 9-12" (CA) #3
12-15" (CA) #5

BARBERRY, GOLDEN ***Berberis thunbergii 'Aurea'***
Deciduous shrub with golden yellow new foliage. Good accent plant.
Max. Elev: 7,500 ft. **GBA** 12-15" (CA) #3
Mature Ht: 3' & Spd: 3'

BARBERRY, GOLDEN NUGGET
Berberis thunbergii 'Monlers'
Striking gold leaves with orange tips. Foliage will not burn in full sun. Outstanding border accent, orange fall color.
Max. Elev: 7,000 ft. **BGN** 9-12" (CA) #3
Mature Ht: 12" & Spd: 18"

BARBERRY, GOLDEN RUBY®
Berberis thunbergii 'Goruzam'
A handsome, hardy, compact shrub with colorful coral orange foliage that lasts until autumn, then turns a brilliant mix of bright orange to brick red, accented with gold margins. Excellent as an accent or planted in groupings in a low maintenance landscape.
Max. Elev: 6,500 ft. **GRB** (CA) #3
Mature Ht: 2' & Spd: 2'

BARBERRY, HELMOND PILLAR
Berberis thunbergii 'Helmond Pillar'
Do you have a little cubby hole that needs some color? Helmond Pillar makes an outstanding vertical accent with it's deep purple leaves that turn scarlet in fall. Like all barberrys, they're trouble free.
Max. Elev: 8,000 ft. **HPB** 2' (CA) #3
Mature Ht: 5' & Spd: 2' 3' (CA) #6

BARBERRY, KOBOLD ***Berberis thunbergii 'Kobold'***
Dwarf, green barberry with a growth habit similar to Crimson Pygmy. Good yellow-orange fall color.
Max. Elev: 7,500 ft. **BKO** 9-12" (CA) #3
Mature Ht: 1½' & Spd: 1½'

BARBERRY, Limoncello™
Berberis thunbergii 'BailErin'

A First Editions® Selection

This new barberry has stunning bright yellow foliage with dappled red margins that turn brilliant shades of orange, yellow and red in the fall. A tidy, rounded, low maintenance shrub will add a pop of color to the landscape. Likes some protection from hot afternoon sun.
Max. Elev: 6,500 ft. **BLI** 10-12" (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

BARBERRY, RED ***Berberis thunbergii 'Atropurpurea'***
Deep red foliage during growing season. Used as specimen or hedge. Sunny exposure necessary for foliage color.
Max. Elev: 7,500 ft. **RBA** 15-18" (CA) #3
Mature Ht: 4' & Spd: 5' 15-18" (CA) #5

BARBERRY, ROCKET GOLDEN
Berberis thunbergii 'Golden Rocket'
The new growth on this narrow upright barberry is radiant red which turns to vivid yellow, that will not scorch in the sun, then concludes with orange-red fall color.
Max. Elev: 6,500 ft. **BRG** (CA) #3
Mature Ht: 5' & Spd: 2'

BARBERRY, ROCKET ORANGE
Berberis thunbergii 'Orange Rocket'
Bright red new growth turning to orange followed by ruby red fall leaves.
Max. Elev: 6,500 ft. **ORB** (CA) #3
Mature Ht: 6' & Spd: 2'

BARBERRY, ROSY GLOW ***Berberis thunbergii 'Rosy Glow'***
New growth is a variegated pink, becoming rose red.
Max. Elev: 7,500 ft. **RGB** (CA) #3
Mature Ht: 4' & Spd: 4' 18-24" (CA) #5

BEAUTYBUSH ***Kolkwitzia amabilis***
Upright arching form with gray-brown bark on older stems exfoliates to give winter interest and appeal. Pale pink, bell-shaped flowers in early June, followed by brown, hairy seeds that remain in irregular clusters into the winter. Reddish fall color. Grows anywhere and prospers in dry, sandy, poor soil. Bank or shrub border plant.
Max. Elev: 9,500 ft. **BEA** 18-24" (CA) #3
Mature Ht: 8' & Spd: 5'

BUCKTHORN, COLUMNAR
Rhamnus frangula 'Columnaris'
A narrow, upright shrub with dark, glossy green foliage. Rapidly develops into narrow, tall hedges. Attracts honeybees in spring. Wonderful for hedges and screens.
Max. Elev: 8,500 ft. **CBU** 18" (CA) #3
Mature Ht: 10' & Spd: 3' 18-24" #5
24-30" (CA) #6
35" #7
42" #10

BUCKTHORN, Fine Line®
Rhamnus frangula 'Ron Williams' **PP14791**

A Proven Winners® Color Choice® Selection

Fine Line® is a columnar fernleaf Buckthorn that is non-invasive with few fruit and flowers. It's delicate texture and narrow form emits elegance. You must see to appreciate. It walks a "Fine Line" between fantastic and unbelievable.

Max. Elev: 8,000 ft. **FLI** 2' (CA) #3
Mature Ht: 8' & Spd: 3' 18" #5
2-3' (CA) #6
3' (CA) #7
4' #10
5' #15

BUFFALOBERRY, SILVER ***Shepherdia argentea***

Similar to Russian Olive with silver foliage. Red fruit can be used for jellies. *Native American Indians would have these berries when they ate buffalo, hence the name.*

Max. Elev: 9,500 ft. **BBE** 15" (CA) #3
Mature Ht: 8' & Spd: 6' 18-24" #5

BURNING BUSH / WINGED EUONYMUS
Euonymus alatus

Corky, winged branches with brilliant crimson fall color. Caution: *Can be hot to the touch!*

Max. Elev: 7,500 ft.
Mature Ht: 8' & Spd: 6' **BBU** 18-24" #5
2-3' #10

BURNING BUSH, DWARF ***Euonymus alatus 'Compacta'***

ONE OF OUR TOP SELLERS!!

Dwarf form of burning bush. Fine for hedges. These are not as hot to the touch as the above item!

Max. Elev: 7,500 ft. **DBB** 9-12" #2
Mature Ht: 5' & Spd: 4' 12-15" (CA) #3
15-18" #5
18" (CA) #6
18-24" #7
26" (CA) #10
30" (CA) #15

BURNING BUSH, NANA ***Euonymus nanus***

Slender, green leaves turn brilliant red in fall. Pink encapsulated fruits in summer and fall. Excellent groundcover shrub especially on slopes and dry sites.

Max. Elev: 10,000 ft. **BBN** 18" (CA) #3
Mature Ht: 2' & Spd: 3'

BUTTERFLY BUSH ***Buddleia davidii***

Vigorous grower, large flower spikes from July through September. Attractive to butterflies. Tops die back in northern areas, but will bloom on new wood each year.

Max. Elev: 7,500 ft. 18-24" (CA) #5
Mature Ht: 5' & Spd: 5'
Blue-**BBL** Pink-**BPI** Purple-**BPU**
Red-**BRE** White-**BWH**

BUTTERFLY BUSH, Lo & Behold® BLUE CHIP JR. ***Buddleia x 'Blue Chip Jr.'*** **PP26581**

A Proven Winners® Color Choice® Selection

Smaller but less brittle than its' Dad, Junior blooms a little earlier than the other buddleia. Bee, Butterfly, and Hummingbird attractor, this chip off the old block resists deer too.
Max. Elev: 6,500 ft. **BBJ** (CA) #2
Mature Ht: 18" & Spd: 18"

BUTTERFLY BUSH, DWARF ***Buddleia davidii var.***

Somewhat smaller compact habit. Same great fragrant, showy flower that attracts butterflies. *"Here butterfly, butterfly, butterfly!"*
Max. Elev: 6,000 ft. **BDW** 12-15" (CA) #2
Mature Ht: 4' & Spd: 4'

BUTTERFLY BUSH, Lo & Behold® PURPLE HAZE ***Buddleia x 'Purple Haze'*** **PP24514**

A Proven Winners® Color Choice® Selection

"Scuse me while I kiss this guy!" You may get the lyrics wrong but you won't go wrong planting 'Purple Haze'. Related to Lo' and Behold® 'Blue Chip', it has purple panicle flowers on stronger branches. The flowers radiate outward and downward like a pinwheel and bloom continuously mid summer to frost.
Max. Elev: 6,000 ft. **PHB** 8-12" (CA) #2
Mature Ht: 2-3' & Spd: 2-3'

BUTTERFLY BUSH, SILVER FOUNTAIN ***Buddleia alternifolia 'Argentea'***

1998 Plant Select® In early June colorful clusters of lilac flowers spiral like a candy cane down thin, pendulous branches. Leaves are finely textured, blue-gray.
Max. Elev: 8,000 ft. **BSF** 18-24" #5
Mature Ht: 8' & Spd: 7'

BUTTERFLY BUSH, TRI-COLOR ***Buddleia davidii 'Tri-Color'***

This butterfly bush has white, pink and purple flowers.
Max. Elev: 7,500 ft. **BTR** 18-24" (CA) #5
Mature Ht: 5' & Spd: 5'

CHERRY, NANKING ***Prunus tomentosa***

Showy, pink-white flowers and fine-flavored, red fruits. Very attractive, soft green foliage.
Max. Elev: 8,500+ ft. **NAC** 18-24" #5
Mature Ht: 10' & Spd: 10' 2-3' #10

CHOKEBERRY, BLACK ***Aronia melanocarpa***

White flowers in May followed by black fruits. Brilliant red-orange fall color. Glossy green leaves.
Max. Elev: 8,500 ft. **BLC** 18-24" #5
Mature Ht: 6' & Spd: 4'

"Life is short. Break the rules, forgive quickly, kiss slowly, love truly, laugh uncontrollably, and never forget anything that made you smile."

– Mark Twain

CHOKEBERRY, Low Scape Mound®
***Aronia melanocarpa 'UCONNAM165'* PP28789**

A Proven Winners® Color Choice® Selection

A mounding groundcover with masses of dainty, bright white blooms in mid-spring mature to edible dark purple fruit in summer. Dark green glossy foliage turns brilliant red in fall. Blooms on old wood; prune only after flowering when necessary. Tolerates hot and cold climates/wet or dry soils.
Max. Elev: 9,000 ft. **LSC** (CA) #3
Mature Ht: 2' & Spd: 2'

CHOKEBERRY, RED ***Aronia arbutifolia 'Brilliantissima'***
Better fall color than Burning Bush! Hard to believe, but true. White spring flowers followed by radiant, ¾", red berries among glossy green leaves. All this makes for an outstanding shrub for mass plantings or borders.
Max. Elev: 7,000 ft. **REC** 18-24" #5
Mature Ht: 7' & Spd: 6'

CHOKEBERRY, UPRIGHT RED ***Aronia arbutifolia 'Erecta'***
Tired of using Columnar Buckthorn in that narrow space? ... Try Upright Red Chokeberry instead. Brilliant red fall color. Profuse clusters of ¼" red berries. Does well in clay soil. Adaptable to wet and dry soils.
Max. Elev: 7,500 ft. **URC** 12-15" #5
Mature Ht: 7' & Spd: 4'

CHOKECHERRY, NATIVE ***Prunus virginiana***
Large, oval-rounded shrub. Green, summer foliage, with small, white flowers and fruit turning dark purple. Great fall color.
Max. Elev: 9,500 ft. **NCH** 18-24" #5
Mature Ht: 25' & Spd: 20'

CHOKECHERRY, SHUBERT ***Prunus virginiana 'Shubert'***
New leaves are green, but turn purple-red. White flowers in spring followed by red fruit. Birds just love them.
Max. Elev: 9,500 ft. **SHC** 18-24" #5
Mature Ht: 25' & Spd: 20'

CORALBERRY, HANCOCK
Symphoricarpos x chenault 'Hancock'
A dwarf coralberry of spreading habit with pink flowers. Excellent groundcover for bank plantings. Grows well in difficult sites.
Max. Elev: 7,500 ft. **HAN** 18-24" #5
Mature Ht: 3' & Spd: 6'

CORALBERRY, INDIAN CURRANT / RED SNOWBERRY
Symphoricarpos orbiculatus
Native shrub with a loose, open shape. Grayish green leaves with whitish pink flowers in June, followed by small clusters of purple-red fruit maturing in September and October.
Max. Elev: 8,500 ft. **ICU** 18-24" #5
Mature Ht: 4' & Spd: 6'

COTONEASTER, PEKING ***C. acutifolia***

Best in well-drained soil. Black berries preceded by pink blooms. Dark, shiny green leaves.

Max. Elev: 10,000 ft. **CAC** 9-12" #2
Mature Ht: 10' & Spd: 5' 15" (CA) #3
18-24" #5
30-36" #7
36-48" #10

CRANBERRY, AMERICAN / HIGHBUSH
Viburnum trilobum

Hardy shrub with big, rich green, lobed leaves. White flowers in late spring and deep red foliage in fall. Scarlet berries.

Max. Elev: 10,000+ ft. **AME** 18-24" #5
Mature Ht: 10' & Spd: 6' 30" #10

CRANBERRY, DWARF AMERICAN
Viburnum trilobum 'Compactum'

A compact form of the American Cranberry. Good summer foliage, excellent red fall color. Sparse flowers and fruit.

Max. Elev: 8,500 ft. **DAC** 12-15" (CA) #3
Mature Ht: 6' & Spd: 4' 15-18" #5

CRANBERRY, COMPACT EUROPEAN
Viburnum opulus 'Compactum'

White flowers in early spring followed by persistent, scarlet fruit. Outstanding foundation plant or hedge.

Max. Elev: 8,500 ft. **CEC** 15-18" #5
Mature Ht: 5' & Spd: 5'

CRANBERRY, DWARF EUROPEAN
Viburnum opulus 'Nanum'

Extremely dense, dwarf cranberry that rarely flowers. Ideal as a hedge or foundation plant.

Max. Elev: 8,500+ ft. **DEC** 12" (CA) #3
Mature Ht: 2' & Spd: 2' 15" #5

CRANBERRY, SPRING RED COMPACT
Viburnum trilobum 'Spring Red Compact'

Foliage comes out red in spring turning green as it matures. Pleasing fall color. Little or no fruit set. Upright habit. Sounds sensational.

Max. Elev: 8,500 ft. **CSR** 18-24" #5
Mature Ht: 5' & Spd: 4'

CURRANT, ALPINE ***Ribes alpinum***

Dense, bushy growth makes this shrub suitable for hedges. Small, greenish yellow flowers in early spring.

Max. Elev: 10,000+ ft. **ALP** (CA) #3
Mature Ht: 5' & Spd: 5' 18-24" #5

CURRANT, GREEN MOUND ***Ribes alpinum 'Green Mound'***

A dense, compact form of Alpine Currant that has darker green leaves. Does well in both sun and shade. Resistant to leaf spot.

Max. Elev: 10,000+ ft. **CGM** 15-18" (CA) #3
Mature Ht: 3' & Spd: 3' 15-18" #5

CURRANT, RED LAKE ***Ribes sativum 'Red Lake'***

Light red edible berries in long clusters. Prolific, hardy.

Max. Elev: 10,000+ ft. **RLA** 15-18" #5
Mature Ht: 4' & Spd: 3'

CURRANT, YELLOW FLOWERING / GOLDEN ***Ribes aureum***
Cinnamon-scented, yellow flowers in May. Green, lobed leaves turn scarlet in fall. Makes a nice accent or hedge.
Max. Elev: 10,000 ft. **YCU** 12-15" (CA) #3
Mature Ht: 6' & Spd: 6' 15-18" #5

DAPHNE, CAROL MACKIE ***D. x burkwoodi 'Carol Mackie'***
1997 Plant Select® Clusters of fragrant, light pink flowers in early spring followed by red berries. Rich green foliage with cream colored margins. Likes cool, well-drained, alkaline soil. Excessive moisture must be avoided. Shade tolerant.
Max. Elev: 7,000 ft. **DCM** 12-15" (CA) #2
Mature Ht: 3' & Spd: 4' 15-18" (CA) #5
21-24" (CA) #7

DAPHNE, ETERNAL FRAGRANCE
Daphne transatlantica 'Blafra'
This daphne is exquisite in fragrance and form. A compact ball of dark green leaves complement clusters of sweet scented pink flowers that bloom from early spring to late spring, then after a brief rest, re-blooms from summer to frost.
Max. Elev: 6,000 ft. **DEF** 12-15" (CA) #2
Mature Ht: 3' & Spd: 3' 15-18" (CA) #5
24-30" (CA) #7

DEUTZIA, SLENDER 'NIKKO' ***D. gracilis 'Nikko'***
Want to add some gracefulness to your landscape? Green leaves and abundant white flowers in late spring on slender branches arching to the ground make this small shrub graceful indeed.
Max. Elev: 6,000 ft. **DEU** 18-24" (CA) #3
Mature Ht: 3' & Spd: 4'

DOGWOOD, Arctic Fire®
Cornus stolonifera 'Farrow' **PP18523**
A Proven Winners® Color Choice® Selection
A compact selection of 'Baileyi' red stem dogwood. Dark red winter stems, a non-suckering habit and compact form make this a beautiful addition to any garden. White flowers attract butterflies.
Max. Elev: 8,000 ft. **AFD** 12-18" (CA) #3
Mature Ht: 4' & Spd: 4' 2-3' #10

DOGWOOD, ISANTI ***Cornus sericea 'Isanti'***
Slow, dense growing and mound-shaped. Fine-twigged with red bark. White flowers and abundant, white fruit.
Max. Elev: 7,500 ft. **IDO** 13-15" (CA) #3
Mature Ht: 6' & Spd: 4' 18" #5

DOGWOOD, IVORY HALO ***Cornus alba 'Bail Halo'***
ONE OF OUR TOP SELLERS!!
The competition has carried Ivory Halo for years for a reason. It's more compact, finer textured and fuller than Variegated Dogwood. The green and white leaves and red stems provide a nice contrast.
Max. Elev: 8,000 ft. **DIH** 18-24" (CA) #3
Mature Ht: 5-6' & Spd: 5-6' 15-20" #5
#10

DOGWOOD, KELSEY ***Cornus sericea 'Kelseyi'***
Low-growing with dark green foliage changing to red in fall. Small, fine branches grow to a pincushion-like mound.
Max. Elev: 7,500 ft. **KEL** (CA) #3
Mature Ht: 2' & Spd: 2'

DOGWOOD, RED TWIG ***Cornus sericea 'Baileyi'***
These hardy *red-dog twigwoods* are a big, multi-stemmed bush with year-round appeal. White flowers in summer, red foliage in fall and red stems in the winter make this plant exceptional for planting. **RTD** (CA) #3
Max. Elev: 9,500 ft. 18-24" #5
Mature Ht: 8' & Spd: 8' 2-3' #7
3-4' #10
4' B&B
5' B&B

DOGWOOD, VARIEGATED
Cornus alba 'Argenteo-marginata'
Small, yellow flowers appear before leaves, which are green and creamy white variegated. Berries into late summer.
Max. Elev: 8,000 ft. **VDO** 15-18" (CA) #3
Mature Ht: 8' & Spd: 5' 18-24" #5
2-3" #10

DOGWOOD, YELLOW TWIG ***Cornus sericea flaviramea***
Highly decorative. Yellow bark, white flowers and bluish white berries.
Max. Elev: 9,500 ft. **YTD** 15-18" (CA) #3
Mature Ht: 6' & Spd: 5' 18-24" #5
#10

ELDER, BLACK LACE® ***Sambucus nigra 'Eva'*** **PP15575**
A Proven Winners® Color Choice® Selection
Developed in Europe for over 10 years, this Zone 4 elder looks like a Japanese Maple. It has charcoal black serrated leaves that contrast with 6" soft pink flower clusters in early June. It will even take boggy soils.
Max. Elev: 7,500 ft. **EBL** (CA) #3
Mature Ht: 6' & Spd: 5' (CA) #6

ELDER, GOLDEN ***Sambucus canadensis 'Aurea'***
Hardy, rapid-growing with shapely, golden leaves. Tiny, white blooms early summer. Good fruit mid to late summer.
Max. Elev: 8,500 ft. **GEL** (CA) #3
Mature Ht: 10' & Spd: 6' 18-24" #5

FERNBUSH ***Chamaebatiara millefolium***
2006 Plant Select® Semi-evergreen, native shrub with aromatic, fern-like leaves. Large clusters of white, rose-shaped flowers in summer. Good drainage is necessary.
Max. Elev: 7,500 ft. **FER** (CA) #3
Mature Ht: 4' & Spd: 4' 12-15" #5

FILBERT, CONTORTED / HARRY LAUDER'S WALKINGSTICK ***Corylus avellana 'Contorta'***
The corkscrew-twisted branches and leaves make this a real conversation piece in the landscape.
Max. Elev: 5,500 ft. **CFI** 18-24" #7
Mature Ht: 10' & Spd: 8'

FORSYTHIA, KUMSON ***F. viridissima koreana 'Kumson'***
The leaves of this forsythia look like a mad scientist injected bleach into it turning the veins white, giving it a reptilian look that would have made Mary Shelley very proud. It still has bright yellow flowers in early spring, but this forsythia provides interest throughout the season.
Max. Elev: 6,500 ft. **FKU** 18" #5
Mature Ht: 5' & Spd: 5'

FORSYTHIA, MEADOWLARK ***Forsythia 'Meadowlark'***
Vigorous shrub with small, yellow blooms on upright branches in the early spring before leafing out.
Max. Elev: 7,500 ft. **FOR** 2-3' #5
Mature Ht: 8' & Spd: 8' 3-4' #7

FOTHERGILLA, DWARF ***Fothergilla 'Mt. Airy'***
Honey scented white bottlebrush-like flowers bloom profusely in spring. Leaves are reminiscent of witchhazel. They start out dark blue-green then turn to eye-catching yellow and orange-scarlet in fall. Mixes well with rhododendrons sharing the same soil conditions.
Max. Elev: 7,500 ft. **FOT** #5
Mature Ht: 5' & Spd: 4'

GOOSEBERRY, PIXWELL ***Ribes hirtellum pixwell***
Gander this…large, light green fruit on long stems–oooh! Excellent for pies and preserves. Vigorous, hardy.
Max. Elev: 10,000+ ft. **PIX** 18-24" #5
Mature Ht: 4' & Spd: 3'

HONEYSUCKLE, ARNOLD RED ***L. tatarica 'Arnold Red'***
Dark red blossom appears in May followed by large, bright red berries in early summer.
Max. Elev: 10,000+ ft. **ARH** 18-24" #5
Mature Ht: 8' & Spd: 6'

HONEYSUCKLE, EMERALD MOUND
Lonicera xylosteum compactum
Mound-shaped shrub with green foliage in early spring. Yellow-white flowers. Dark red berries in fall.
Max. Elev: 7,500 ft. **EMH** (CA) #3
Mature Ht: 3' & Spd: 2'

HONEYSUCKLE, KINTZLEY'S GHOST® VINE
Lonicera reticulata 'Kintzley's Ghost®'
2006 Plant Select® This vine honeysuckle has tubular yellow flowers followed by showy silver dollar, in size and color, bracts that cover the plant from June to frost giving it an eucalyptus-like look. Kintzley's Ghost is a unique honeysuckle for the person who likes unusual and interesting plants.
Max. Elev: 8,000 ft. **HKG** (CA) #3
Mature Ht: 10' & Spd: 4' #5

HONEYSUCKLE, KODIAK® BLACK
***Diervilla rivularis 'SMNDRSF'* PP27550**
A Proven Winners® Color Choice® Selection
Like Kodiak® Orange, this plant has many great qualities; good bloom, good color and tough but easy to grow. They rank among the few landscape plants able to grow in dry shade. However, the dark burgundy-black foliage sets it apart from the others and is most colorful in spring and late summer. Attracts bees, butterflies and hummingbirds but resistant to deer.
Max. Elev: 7,000 ft. **KOB** (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

HONEYSUCKLE, KODIAK® ORANGE
***Diervilla rivularis 'G2X88544'* PP27548**

A Proven Winners® Color Choice® Selection

Durable native plant thriving in sun or shade, and is drought tolerant. Pushing fall color to the limit with its green leaves turning glowing orange fall color. Bright yellow flowers in early summer add to its appeal. Though we call it a Honeysuckle, it's a Diervilla, not a Lonicera.
Max. Elev: 7,000 ft. **KOD** (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

HONEYSUCKLE, TINY TRUMPETS
Lonicera syringantha 'Wolfii'

Highly fragrant, pale violet, trumpet-like flowers surround new, red branches. Blue-green foliage.
Max. Elev: 7,500 ft. **HTT** 12" #5
Mature Ht: 4' & Spd: 5'

HONEYSUCKLE, TWINBERRY ***Lonicera involucrata***

In late spring pairs of yellow flowers give way to two jet black berries surrounded by a red hood.
Max. Elev: 11,000 ft. **HTW** (CA) #3
Mature Ht: 5' & Spd: 5'

HYDRANGEA, ANNABELLE ***H. arborescens 'Annabelle'***

ONE OF OUR TOP SELLERS!!

Improved selection of Hydrangea grandiflora. White rounded flower heads more erect than grandiflora.
Max. Elev: 7,500 ft. **ANH** 8" (CA) #1
Mature Ht: 4' & Spd: 4' 9-12" (CA) #2
15-18" (CA) #5

HYDRANGEA, CLIMBING ***H. anomala petiolaris***

Michael Dirr calls this *the best vine*. Has rich cinnamon-brown exfoliating stems and fragrant white flower clusters that reach 6"-10" around. Aerial rootlets cling to anything, but should have support. In Colorado it prefers the north or east side in rich, well-drained soil. Can climb 60'-80'.
Max. Elev: 6,000 ft. **HYC** (CA) Vine #1
(CA) Vine #3

HYDRANGEA, ENDLESS SUMMER® The Original
***H. macrophylla 'Bailmer'* PP15298**

ONE OF OUR TOP SELLERS!!

The first blue hydrangea that blooms on both new and old wood: It can die back to the ground and still have flowers! Blossoms grow to 8" and are clear pink in alkaline soil, blue in acidic soil. If deadheaded, it will bloom from June to frost.
Max. Elev: 7,500 ft. **ESH** 9-12" (CA) #2
Mature Ht: 4' & Spd: 4' 18-24" (CA) #5
24-28" (CA) #7

HYDRANGEA, FLOWERFULL® SMOOTH
***Hydrangea arborescens 'Bailful'* PP35,613**

A First Editions® Selection **New for Year 2026**

Smaller than Incrediball® or Annabelle but delivering up to 2-3x more blooms per season than other smooth hydrangeas. Sturdy stems keep their full coverage foliage standing tall through wind, rain and season-long growth.
Improved disease resistance, more blooms, low maintenance, it's the perfect choice for small and big landscapes alike.
Max. Elev: 9,000 ft. **FFH** (CA) #2
Mature Ht: 3-4' & Spd: 4-5' (CA) #5

HYDRANGEA, GRATEFUL RED™
Hydrangea macrophylla 'Grateful Red'
What a long strange trip it's been. The growers have changed the name of this plant three times. Formerly 'Eugene Hahn' and 'Cherry Bomb', this hydrangea is very rare and unique. With a 6" dark red flowers fading to pink in the season. Very dense lush green leaves, re-blooming on old and new canes. Zone 4. We'd just be grateful if they keep the same name.
Max. Elev: 7,000 ft. **HGR** (CA) #3
Mature Ht: 3' & Spd: 3'

HYDRANGEA, INCREDIBALL®
Hydrangea arborescens 'Abetwo' **PP20571**
A Proven Winners® Color Choice® Selection
An improved Annabelle with massive 12" blooms. Each flower is 4 times the size as one Annabelle bloom. A heavy blooomer from summer to fall on strong stocks that prevent flopping. They start out light green turning creamy white in summer; in fall they turn green again. Blooms on both old and new wood.
Max. Elev: 7,000 ft. **HIN** (CA) #2
Mature Ht: 4' & Spd: 4' (CA) #5

HYDRANGEA, INVINCIBELLE® SPIRIT II
H. arborescens 'NCHA2' **PP28316**
A Proven Winners® Color Choice® Selection
This is the first ever pink Annabelle Hydrangea. It is covered with true pink flowers up to 12 inches across. This hardy plant is zone 3 and comes back from winter dieback to bloom with stunning beauty.
Max. Elev: 7,500 ft. **HNV** (CA) #2
Mature Ht: 3' & Spd: 3'

HYDRANGEA, LATE PANICLE ***H. paniculata 'Tardiva'***
White, 6", conical flower clusters, aging to pink in late August.
Max. Elev: 8,000 ft. **HLP** 18-24" #5
Mature Ht: 8' & Spd: 8'

HYDRANGEA, LIMELIGHT
H. paniculata 'Limelight' **PP12874**
A Proven Winners® Color Choice® Selection
This stunning variety has an enormous display of 10-inch lime-green flower panicles in summer that transition to soft white, cream and pink in fall. Dry flowers are excellent for cutting and persist into winter. Versatile shrub for hedges, containers and available in tree form, too.
Max. Elev: 8,000 ft. **HLI** 18-24" (CA) #2
Mature Ht: 6' & Spd: 6' 18-24" (CA) #5
24-30" (CA) #10
TREE FORM **HTF** #5
#7
#10

HYDRANGEA, LITTLE LIME®
***H. paniculata 'Jane'* PP22330**

A Proven Winners® Color Choice® Selection

Freshly squeezed lime juice is the key ingredient for a good margarita and a Little Lime® hydrangea is the key ingredient for a great landscape. The dwarf form of 'Limelight' has the same great flowers, but is a third the size of the original. Blooming on new wood, the soft lime green flowers mature to pink and burgundy in the fall. Unlike other hydrangeas, soil pH does not affect bloom color.

Max. Elev: 8,000 ft. **HLL** 12-18" (CA) #2
Mature Ht: 3-5' & Spd: 3-5' 18-24" (CA) #5

HYDRANGEA, OAKLEAF ***H. quercifolia***

Outstanding hydrangea with deep-lobed, oak-like leaves surrounded by large, white blossoms. Spectacular shades of red, orange and purple in the fall. Needs winter protection.

Max. Elev: 6,000 ft. **OAH** 18-24" (CA) #5
Mature Ht: 5' & Spd: 4' 24-30" (CA) #7

HYDRANGEA, PEE GEE ***H. paniculata 'Grandiflora'***

Large, cone-shaped, double white flowers in summer turning pink and bronze in fall. *Not to be confused with Hydrangea 'Poo Goo'.*

Max. Elev: 7,600 ft. **PGH** 15-18" (CA) #3
Mature Ht: 8' & Spd: 5' 18-24" #5

HYDRANGEA, Pinky Winky®
***H. paniculata 'DVPPinky'* PP16166**

A Proven Winners® Color Choice® Selection

Despite the name, this hydrangea is quite amazing. It has 16" long flowers that start out white but turn a rich pink while the tips continue to push white florets. The stocks are strong, not allowing the large flowers to droop. Dark green foliage accents the blooms. Use as a specimen or as a jaw dropping flowering hedge.

Max. Elev: 8,000 ft. **PWH** (CA) #2
Mature Ht: 8' & Spd: 5' (CA) #5

HYDRANGEA, Quick Fire®
***Hydrangea paniculata 'Bulk'* PP16812**

A Proven Winners® Color Choice® Selection

8" conical white flowers turn to rich deep pink. First to bloom, a month earlier than other varieties. Earliest to turn pink. Sometimes it's good to be quick.

Max. Elev: 8,000 ft. **HQF** (CA) #2
Mature Ht: 6' & Spd: 6' 18-24" (CA) #5
TREE FORM 1" B&B

HYDRANGEA, VANILLA STRAWBERRY™
***H. paniculata 'Renhy'* PP20670**

A First Editions® Selection

The enormous flower panicles are a blend of vanilla and strawberry, held upright on red stems. They emerge creamy white in mid summer, change to pink and finally to strawberry red. New blooms give the plant a multicolored effect in late summer and early fall.

Max. Elev: 7,000 ft. **HVS** (CA) #2
Mature Ht: 6' & Spd: 4' (CA) #5
TREE FORM **HVT** (CA) #7

HYPERICUM, SUNBURST ***Hypericum fronoosum 'Sunburst'***
This form of hypericum also has blue - green foliage with awesome 2" yellow flowers but it tends to bloom longer into the season.
Max. Elev: 7,500 ft. **HYS** (CA) #3
Mature Ht: 2' & Spd: 3' (CA) #6

LEADPLANT ***Amorpha canescens***
Gray, fuzzy leaflets give a fern-like form. The flowers are long, violet spikes mid to late summer, but the main characteristic of this plant is that it lives in dry, icky clay.
Max. Elev: 7,500 ft. **LEA** (CA) #3
Mature Ht: 4' & Spd: 4' 18-24" #5

LEADPLANT, DWARF ***Amorpha nana***
Same as the leadplant we all know and love except in xeriscape situations, they only get 2' tall and 2' wide.
Max. Elev: 7,000 ft. **LED** 18" #5
Mature Ht: 3' & Spd: 3'

LILAC, BLOOMERANG®, DARK PURPLE
Syringa x 'SMSJBP7' **PP26549**
A Proven Winners® Color Choice® Selection
Like a boomerang, it blooms in spring then again throughout the summer. The fragrant purple flowers hang on until frost. Dark Purple has proven a better and hardier lilac than its predecessor, but still perfect for blokes and sheilas on a walkabout.
Max. Elev: 7,500 ft.
Mature Ht: 4' & Spd: 4' **LBD** (CA) #3
#5
(CA) #10
TREE FORM **LBT** #10

LILAC, CHINESE ***Syringa x chinensis***
Very hardy, fast grower. Many lavender flowers in April and May. Smaller leaves.
Max. Elev: 10,000+ ft. **ROL** 18-24" #5
Mature Ht: 10' & Spd: 6' 2'-3' #10

LILAC, COMMON PURPLE ***Syringa vulgaris***
Hardy, popular shrub. Delicate, fragrant, purple flowers in spring. Good screen or hedge.
Max. Elev: 10,000+ ft.
Mature Ht: 15' & Spd: 8' **CPL** 15-18" (CA) #3
18-24" #5
3' #10
3' B&B
4' B&B
5' B&B

LILAC, COMMON WHITE ***Syringa vulgaris alba***
Hardy, vigorous shrub. Single, white flowers in spring.
Max. Elev: 10,000 ft. **CWL** 15-18" #5
Mature Ht: 15' & Spd: 8' 3' #10

LILAC, DONALD WYMAN
Syringa x prestoniae 'Donald Wyman'
The large clusters of reddish purple flowers bloom in early June to avoid the late frosts that frequently occur in our area. Said to be the best of the Canadian Preston hybrids.
Max. Elev: 9,000 ft. **DWY** 15" (CA) #3
Mature Ht: 9' & Spd: 7' 18-24" #5
#10

LILAC, DWARF KOREAN ***Syringa meyeri 'Palibin'***

ONE OF OUR TOP SELLERS!!

Early bloomer with lilac to lavender flowers.
Max. Elev: 8,500 ft. **DKO** (CA) #3
Mature Ht: 5' & Spd: 5' 15-18" #5
#10

DKT ***TREE FORM*** #10

LILAC, FRENCH HYBRID ***Syringa vulgaris***

These French hybrids are strong, sturdy plants that have no problem with suckers from the understock. The varieties listed below will give a lifetime of satisfaction:
Max. Elev: 8,000 ft. (CA) #3
Mature Ht: 12' & Spd: 8' 18"-24" #5
#10

Variety	Color	Code	Sizes
Angel White	White (double)	**FRW**	#3, #5, #10
Charles Joly	Red (double)	**FRR**	#3, #5, #10
Katherine Havemeyer	Pink (double)	**FRP**	#3, #5, #10
Ludwig Spaeth	Purple (single)	**FPU**	#3, #5, #10
President Lincoln	Blue (double)	**FRB**	#3, #5, #10

LILAC, JAMES MACFARLANE
Syringa x prestoniae 'James MacFarlane'

True pink blooms are two weeks later than French lilacs. Extremely hardy and adaptable, withstanding xeric to wet conditions.
Max. Elev: 10,000 ft. **JML** (CA) #3
Mature Ht: 8' & Spd: 6' 18-24" #5

LILAC, MISS CANADA ***Syringa x prestoniae 'Miss Canada'***

Prolific bright rose-pink flowers bloom in mid-June, missing any chance of frost. This extremely hardy lilac has large leaves and is non-suckering. An excellent choice for any landscape.
Max. Elev: 10,000 ft. **LMC** (CA) #3
Mature Ht: 8' & Spd: 7' 18-24" #5
2-3' #10

LILAC, MISS KIM ***Syringa patula 'Miss Kim'***

ONE OF OUR TOP SELLERS!!

Dwarf, compact growth habit. Dark green foliage changes to burgundy in fall. Pale lilac flowers bloom later than other lilacs. Most fragrant of all lilacs.
Max. Elev: 8.500 ft. **MKL** (CA) #3
Mature Ht: 5' & Spd: 5' 15-18" #5
#10

LILAC, ROYALTY ***Syringa x prestoniae 'Royalty'***

Single, purple to violet flower. Blooms two weeks later than French lilac. *Canadian hybrid, "A!"*
Max. Elev: 10,000 ft. **RLY** 18-24" #5
Mature Ht: 8' & Spd: 4' 2-3' #10

LILAC, SENSATION ***Syringa vulgaris 'Sensation'***

Unique seems to be the word used most to describe this lilac. It has fragrant, single purple florets with a white margin. Truly unique, indeed.
Max. Elev: 8,000 ft. **SEL** 15-18" (CA) #3
Mature Ht: 10' & Spd: 10' 18-24" #5
2-3' #10

LILAC, TINKERBELLE®
Syringa 'Bailbelle' PP12294, (CPBR #1204)
Fairytale Series®. A Pink Dwarf Korean Lilac!!! Well, actually, it's a cross between a Dwarf Korean and a Littleleaf with the best qualities of both. It has the growth habit and bloom time of the Dwarf Korean, and the flower color and spicy fragrance of the Littleleaf.
Max. Elev: 8,500 ft. **LTI** 12-15" #5
Mature Ht: 5' & Spd: 5'

MAGNOLIA, ANN ***M. x 'Ann'***
Not just *an* Magnolia, select Ann Magnolia for its spectacular lavender cup-shaped flowers in spring before the leaves emerge and improved hardiness. Blooming mid-April to early May, Ann tends to avoid the hazard of late frosts. A small, reasonably compact shrub, effective as a solitary specimen in the garden. Ann grow to 8 to 10 feet tall and 10 feet wide as an open broad, rounded shrub.
Max. Elev: 6,000 ft. **MHA** #10
Mature Ht: 8' & Spd: 10'

MAGNOLIA, BETTY ***M. x 'Betty'***
The large tulip-shaped flowers with a dozen petals are deep purple-red on the outside, white inside. They bloom in May before the leaves emerge. New leaves are copper-red, turning deep green later.
Max. Elev: 7,000 ft. **MBE** #7
Mature Ht: 10' & Spd: 8' #10

MAGNOLIA, GALAXY
Back for Year 2026
Magnolia x 'Galaxy'
Bred by the National Arboretum, this hardy single trunk tree with prolific red to purple chalice-shaped candy-scented blooms in late spring, several weeks later than most magnolias. It has an upright, well-branched habit with attractive large, deep green glossy foliage. Adaptable to many soil conditions, pollution tolerant, but prefers protection from strong winds.
Max. Elev: 6,000 ft. **MGA** #15
Mature Ht: 30' & Spd: 15'

MAGNOLIA, ROYAL STAR ***M. stellata 'Royal Star'***
Fragrant, star-shaped white flowers appear in spring before leaves. Blooms two weeks later than other species varieties.
Max. Elev: 6,000 ft. **MRS** 3-4' #5
Mature Ht: 10' & Spd: 12' #7
#10
5' #25

MAHOGANY, CURL LEAF MOUNTAIN
Cercocarpus ledifolius
Native shrub. Dark evergreen leaves are small and curled. Late summer seeds have long, curly tails.
Max. Elev: 8,000 ft. **MMC** 15-18" #5
Mature Ht: 10' & Spd: 6'

MAHOGANY, LITTLELEAF MOUNTAIN
Cercocarpus intricatus
2009 Plant Select® This dwarf, semi-evergreen xeric shrub with thin leaves will live in the unfriendliest conditions. A very slow grower.
Max. Elev: 8,500 ft. **MML** #5
Mature Ht: 4' & Spd: 4'

MAHOGANY, MOUNTAIN ***Cercocarpus montanus***

Small, wedge-shaped, dark green leaves grow in a dense branching pattern on this shrub or small tree. Beautiful russet fall color, displaying plumed tails on the seed heads.

Max. Elev: 9,500 ft. **MMA** 15-18" #5
Mature Ht: 10' & Spd: 6'

MAPLE, GINNALA, FLAME ***Acer ginnala 'Flame'***

An improved hot variety of our versatile Ginnala Maple with more uniform branching habit and consistent brilliant orange-red to deep red fall color.

Max. Elev: 9,500 ft. **GMS** (Flameless) (CA) #3
Mature Ht: 20' & Spd: 20' **GFC** 18-24" #5
2-3' #7
5-6' Clump #15
TREE FORM **GFT** 1" #15

MAPLE, GINNALA DWARF ***Acer ginnala 'Compacta'***

Dense and compact in habit. Leaves turn a brilliant scarlet in the fall. Very hardy.

Max. Elev: 8,000 ft. **DGM** 10-12" (CA) #3
Mature Ht: 8' & Spd: 8' 15-18" #5

MOCKORANGE, BLIZZARD
Philadelphus lewisii 'Blizzard'

A very hardy variety of Mockorange from Alberta, Canada with single, white, fragrant blossoms in June-July. The clusters of flowers produce a lovely orange-pineapple scent from this medium sized upright to vase shaped shrub. Yellow fall color. This is one blizzard we'd like see in June!

Max. Elev: 7,500 ft. **BLM** (CA) #3
Mature Ht: 5' & Spd: 3' #5

MOCKORANGE, BUCKLEY'S QUILL
Philadelphus x 'Buckley's Quill'

Semi-dwarf, upright shrub with narrow, pointed petals similar to a white mum. This Canadian hybrid is fragrant, free-flowering, and disease-free.

Max. Elev: 7,000 ft. **MBQ** 18-24" #5
Mature Ht: 5' & Spd: 4'

MOCKORANGE, CHEYENNE
Philadelphus lewisii 'Cheyenne'

2001 Plant Select® Rediscovered at the Wyoming research station, this hardy Mockorange originally was named after the famous explorer Meriwether Lewis of the Lewis and Clark Expedition. It has very fragrant, 2", pure white blossoms in June.

Max. Elev: 8,000 ft. **MLC** #5
Mature Ht: 7' & Spd: 6'

MOCKORANGE, Illuminati Tower®
Philadelphus coronarius 'SMNPVG'

A Proven Winners® Color Choice® Selection

It's the plant world's best-kept conspiracy. A compact, narrow upright fragrant white flowering shrub. Makes a perfect small hedge for tight spaces or as a specimen in the garden. Wonderful orange blossom scent in late spring and summer; very attractive to butterflies. It won't take over your landscape, much less the world.

Max. Elev: 7,500 ft. **MIT** (CA) #3
Mature Ht: 3-4' & Spd: 1-2'

MOCKORANGE, LITTLELEAF ***Philadelphus microphyllus***
With its small leaves and star-shaped flowers, fine textured best describes this plant. In June the 1", cross-shaped, white flowers present quite a remarkable display. Their fragrance has been described as pineapple-like.
Max. Elev: 7,000 ft. **MLL** 18-24" #5
Mature Ht: 4' & Spd: 4'

MOCKORANGE, MINNESOTA SNOWFLAKE
Philadelphus virginalis 'Minnesota Snowflake'
Very double, sweet-scented, white flowers. A well-branched shrub retaining its foliage better than most mockoranges.
Max. Elev: 7,500 ft. **MSM** 18-24" #5
Mature Ht: 8' & Spd: 6'

MOCKORANGE, DWARF MINNESOTA SNOWFLAKE
Philadelphus virginalis 'Minnesota Dwarf Snowflake'
Dwarf variety of Minnesota Snowflake. Prolific double white blooms in early summer, very fragrant.
Max. Elev: 7,500 ft. **DMS** 15-18" #5
Mature Ht: 3' & Spd: 3'

MOCKORANGE, SNOWBELLE ***Philadelphus 'Snowbelle'***
Great substitute for Dwarf Minnesota Snowflake. Same great fragrance. Same great blooms.
Max. Elev: 7,500 ft. **MSN** (CA) #3
Mature Ht: 3' & Spd: 3'

MORMON TEA ***Ephedra equisetina***
Ephedra kind of looks like a scotch broom with a bad-hair day, or like a scotch broom that stuck a root in a light socket. Get the picture? Not too good looking, but it can take dry, harsh conditions that most plants can't.
Max. Elev: 9,000 ft. **MOR** 15-18" #5
Mature Ht: 3' & Spd: 3' 18-24" (CA) #6

NINEBARK, Amber Jubilee™
P. opulifolius 'Jefam' **PP23177**

A First Editions® Selection

A cross between 'Darts Gold' and 'Diablo' the leaves display different hues of orange, yellow and gold before finally turning red and purple in fall. With delicate white blooms in spring, it has year round color appeal. Developed in Canada and named in honor of the late Queen Elizabeth's Diamond Jubilee.
Max. Elev: 8,000 ft. **NAJ** 15-18" (CA) #3
Mature Ht: 6' & Spd: 4' #10

NINEBARK, CENTER GLOW ***P. opulifolius 'Center Glow'***
For landscapers looking for shrubs that provide exciting year-long highlights to anyone's yard, Center Glow's new leaves emerge golden yellow and mature to a rosy red-burgundy color. The overall red appearance with yellow overtones gives the plant its' namesake. Creamy white blooms give way to bright red seed heads in the fall. Once the leaves are gone, they expose the exfoliating bark giving you a wonderful winter look.
Max. Elev: 8,000 ft. **NCG** 15-18" (CA) #3
Mature Ht: 8' & Spd: 8'

NINEBARK, DART'S GOLD
Physocarpus opulifolius 'Darts Gold'
Compact form of Golden Ninebark with brilliant yellow foliage. Excellent for border planting.
Max. Elev: 8,000 ft. **GND** 15-18" (CA) #3
Mature Ht: 4' & Spd: 4' 18-24" #5

NINEBARK, DIABOLO ***Physocarpus opulifolius 'Monlo'***
Developed in Germany, it has ***dark red leaves***; red as Prunus Cistena. Same cinnamon-colored, exfoliating bark and cream-colored flowers as the species. Pretty cool, huh! Needs full sun to maintain red color.
Max. Elev: 8,000 ft. **NDI** (CA) #3
Mature Ht: 9' & Spd: 5' 18-24" #5
2-3' #10

NINEBARK, DWARF ***Physocarpus opulifolius 'Nanus'***
Attractive, white flowers from spring to early summer, and red fall color. Does well in shade. Makes a great hedge.
Max. Elev: 8,000 ft. **DNI** (CA) #3
Mature Ht: 5' & Spd: 5' 15-18" #5

NINEBARK, LEMON CANDY™
P. opulifolius 'Podaras 3' **PP22362**
Yellow-green colored leaves last from spring to fall with white flowers in the spring. Matures at 3 to 4 feet tall and wide. Compact and round shape, easy to grow with little maintenance and can be pruned at any time. Excellent use for mixed borders and small hedges. Drought and heat tolerant.
Max. Elev: 8,000 ft. **NLC** 12-15" (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

NINEBARK, Little Devil™
Physocarpus opulifolius 'Donna May' **PP22634**
A First Editions® Selection
Even the Pope recommends this well-behaved, low maintenance and compact ninebark. The dark burgundy foliage is a great contrast to the small white-pink blooms in June. Small lobed leaves turn purple in fall. It is possessed by tan peeling bark that adds winter interest. This little devil does best in full sun.
Max. Elev: 8,000 ft. **NLD** (CA) #3
Mature Ht: 4' & Spd: 4' (CA) #10

NINEBARK, MOUNTAIN ***Physocarpus monogynus***
This rugged, compact native has clusters of small, white flowers with a slight tint of rose that emerge in late May-June. The foliage is a medium green that changes to shades of orange to red in fall. Useful as mass plantings or hedges.
Max. Elev: 10,000 ft. **NMO** (CA) #3
Mature Ht: 3' & Spd: 4' 15-18" #5

NINEBARK, NATIVE ***Physocarpus opulifolius***
Native plant and originator of the new cultivars on the market. It's a solid, hardy shrub used for tough locations. Tolerates drought, erosion, clay and dry soil. Clusters of showy but small white-pink spring blooms, with exfoliating bark which peels in strips to reveal several layers of reddish to light brown inner bark adding winter interest. Attracts butterflies.
Max. Elev: 8,500 ft. **NIN** 15-18" #5
Mature Ht: 5-8' & Spd: 4-6'

NINEBARK, Summer Wine® ***P. opulifolius 'Seward'*** **PP14821**

A Proven Winners® Color Choice® Selection

A dwarf 'Diablo' ninebark! A cross pollination between 'Nana' and 'Diablo' created a denser smaller shrub. Enjoy Summer Wine® in the cool evening air with a friend and cheese plate.

Max. Elev: 9,000 ft. **NSW** (CA)#3
Mature Ht: 4' & Spd: 4' 3' #10

OAK, GAMBEL ***Quercus gambelii***

Native, scrub oak, or shrub oak, whatever it takes! Beautiful fall color. Just plant and go!

Max. Elev: 9,000 ft. **GOA** #3
Mature Ht: 15' & Spd: 12' 15-18" #5
4-5' #15

PEASHRUB, GLOBE ***Caragana frutex globosa***

Small, slow-growing, rounded shrub gets yellow sweet pea-like flowers in late May. Soft green foliage gives this extremely hardy shrub a boxwood-like look. Excellent as a formal hedge or small specimen. Very drought tolerant.

Max. Elev: 9,000 ft. **PEG** 9" (CA) #2
Mature Ht: 3' & Spd: 4'

PEASHRUB, PYGMY ***Caragana pygmaea***

Very hardy, tolerant of dry, alkaline soils, this fine-textured Caragana with yellow flowers in late spring makes an excellent foundation plant or low hedge.

Max. Elev: 8,000 ft. **PPY** 9-12" (CA) #2
Mature Ht: 3' & Spd: 4'

PEASHRUB, SIBERIAN ***Caragana arborescens***

Bright yellow, pea-like flowers in mid-May. Bright green foliage. Good for screens and windbreaks. Adaptable.

Max. Elev: 10,000+ ft. **CRG** (CA) #3
Mature Ht: 8' & Spd: 5' 18-24" #5

PLUM, AMERICAN ***Prunus americana***

Native plum with attractive, white flowers and edible fruits. Very hardy, yellow fall color.

Max. Elev: 9,000 ft. **AMP** 18-24" #5
Mature Ht: 15' & Spd: 10' 2-3' #10

POTENTILLA, ABBOTSWOOD ***P. fruticosa 'Abbotswood'***

Large, pure white flowers. Blue-green leaves, with dense spreading habit.

Max. Elev: 7,500 ft. **ABP** 12-15" (CA) #3
Mature Ht: 3' & Spd: 3' 15-18" #5

POTENTILLA, DAKOTA SUNSPOT ***P. fruticosa 'Fargo'***

We do not need another potentilla, we need a better potentilla. This one ***IS*** better. Deep gold flowers cover, I mean-cover, this plant. It has more flowers, blooms earlier and longer than Gold Drop. Do not look directly at a Sunspot, you'll go blind, use a piece of paper with a hole.

Max. Elev: 9,000 ft. **PDS** (CA) #3
Mature Ht: 3' & Spd: 3' 12-15" #5

POTENTILLA, GOLD DROP ***P. fruticosa 'Gold Drop'***
Graceful, low shrub with deep gold flowers all summer.
Max. Elev: 10,000+ ft. **GDP** (CA) #3
Mature Ht: 3' & Spd: 3' 15-18" #5

POTENTILLA, GOLD STAR ***P. fruticosa 'Gold Star'***
I don't know why I didn't carry this potentilla before. Well, yes I do; I didn't want another yellow potentilla. This one is special, it will probably be our biggest seller, with its dwarf habit and large, 2", golden yellow flowers.
Max. Elev: 8,000 ft. **PGS** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3' 15-18" #5

POTENTILLA, GOLDFINGER ***P. fruticosa 'Goldfinger'***
Heavy bloomer. Large, gold flowers with dark green leaves.
Max. Elev: 7,500 ft. **GFP** (CA) #3
Mature Ht: 3' & Spd: 4' 18-24" #5

POTENTILLA, JACKMAN ***P. fruticosa 'Jackmanii'***
Deep green foliage on a neat shrub. Deep yellow flowers that bloom from midsummer to fall.
Max. Elev: 10,000+ ft. **JAC** (CA) #3
Mature Ht: 4' & Spd: 3' 18-24" #5

POTENTILLA, KATHERINE DYKES ***P. fruticosa 'Katherine Dykes'***
Low-spreading growth habit. Flower is soft yellow, leaves are gray-green.
Max. Elev: 10,000+ ft. **KDP** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3'

POTENTILLA, MC KAY'S WHITE ***P. fruticosa 'McKay's White'***
Mound-shaped plant. Long blooming period in summer produces white flowers.
Max. Elev: 7,500 ft. **MCK** (CA) #3
Mature Ht: 2' & Spd: 3' 15-18" #5

POTENTILLA, ORANGE WHISPER
New for Year 2026 ***Potentilla fruticosa 'Orange Whisper'***
A new orange-flowering potentilla to replace Tangerine. A mounding naturally dense shrub with orange flowers from June until frost. Fine-textured light green foliage. Tough and adaptable shrub. Orange color deepens in partial shade and cooler temperatures. Avoid loud talking or shouting in its presence.
Max. Elev: 10,000 ft. **POW** 12-15" (CA) #3
Mature Ht: 2-3' & Spd: 2-3'

POTENTILLA, PINK BEAUTY ***P. fruticosa 'Pink Beauty'***
This pink potentilla has double petals and holds its color better than all the other pink potentillas. East exposure is recommended to help retain its pink cast.
Max. Elev: 9,000 ft. **PPB** 12-15" (CA) #3
Mature Ht: 3' & Spd: 3' 15-18" #5

POTENTILLA, RED ROBIN ***P. fruticosa 'Red Robin'***

For a long time now, I've been looking for a red potentilla that doesn't fade to yellow in our intense sunshine. Well, this one still doesn't stay red, but changes to orange instead; which is still pretty cool.

Max. Elev: 8,500 ft. **RRP** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3'

POTENTILLA, TANGERINE ***P. fruticosa 'Tangerine'***

Wide spreading bush, excellent foliage. Yellow flowers with orange highlights deepens in partial shade or cool weather.

Max. Elev: 8,500 ft. **TAP** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3'

POTENTILLA, YELLOW GEM ***P. fruticosa 'Yellow Gem'***

This potentilla is unique for several reasons. Its low, spreading growth habit is well suited for rock gardens. Young branches are red, contrasting nicely with the gray-green leaves and the five-lobed, canary yellow, ruffled flowers. Blooms from May to frost.

Max. Elev: 9,000 ft. **PYG** 12-15" (CA) #3
Mature Ht: 2' & Spd: 4'

PRIVET, CHEYENNE ***Ligustrum vulgare 'Cheyenne'***

Excellent for a medium hedge. Small, dark green leaves hang on late in autumn. White fragrant flowers in summer followed by bird-loving dark fruits when left unsheared.

Max. Elev: 8,000 ft. **CHP** 18-24" (CA) #3
Mature Ht: 10' & Spd: 6' #5
(CA) #6
3-4' #7
4-5' #10
3' B&B
4' B&B
5' B&B

PRIVET, LODENSE ***Ligustrum vulgare 'Lodense'***

ONE OF OUR TOP SELLERS!!

Very compact, deep green, small leaves. Good hedge plant.

Max. Elev: 7,500 ft. **LOD** 12-15" (CA) #3
Mature Ht: 3' & Spd: 3' 12-15" #5
18-24" (CA) #6

PRIVET, NEW MEXICO ***Forestiera neomexicana***

While not a true privet, this fast-growing, dense shrub is good for hedges and screens. Bright green leaves are willow-like. Tiny, yellow flowers bloom in early spring.

Max. Elev: 7,500 ft. **NMP** 15-18" #5
Mature Ht: 8' & Spd: 6'

PRIVET, Straight Talk® ***Ligustrum vulgare 'Swift'***

A First Editions® Selection

Dr. Phil is going to get real with you on this; he's going to give it to you straight. This privet was found by Harry Swift and Mike Jeronimus of Green Acres Nursery and is a great privacy shrub for narrow tight spaces. In addition to being cold hardy and drought tolerant once established, it's easy to grow in a wide range of soils and tolerates urban conditions. Attracts pollinators.

Max. Elev: 7,500 ft. **STT** 12" (CA) #3
Mature Ht: 12' & Spd: 2' (CA) #6
(CA) #10

PRUNUS CISTENA / PURPLE LEAF SAND CHERRY
Prunus x cistena

Upright shrub with purple-red foliage. Very hardy and colorful. Fruitless. Small, pinkish white flowers in spring.

Max. Elev: 8,000 ft. **CIS** (CA) #3
Mature Ht: 8' & Spd: 6' 18-24" #5
2-3' #7
3-4' #10
TREE FORM **CIT** #7
#10

QUINCE, PINK FLOWERING
Chaenomeles japonica 'Cameo'

Double, apricot pink blossoms appear before leaves emerge. This low, spreading shrub is one of the first to flower in spring. Great for a hedge.

Max. Elev: 8,000 ft. **FQP** 15-18" #5
Mature Ht: 3' & Spd: 5'

QUINCE, RED FLOWERING ***Chaenomeles japonica***

Early bloomer, followed by glossy green foliage. Attractive as specimen or hedge.

Max. Elev: 7,500 ft. **FQU** 15-18" #5
Mature Ht: 6' & Spd: 4'

RABBITBRUSH ***Ericameria nauseosus***

Hardy, native plant. Thin, silver leaves with yellow flowers blooming in autumn. *If you "Energize" this shrub, it will keep growing and growing and growing and…*

Max. Elev: 9,500 ft. **RAB** 9" #1
Mature Ht: 4' & Spd: 4' (CA) #3
15-18" #5

RABBITBRUSH, DWARF
Ericameria nauseosus van nauseosus

This is a truely dwarf Rabbitbrush.

Max. Elev: 9,500 ft. **RDW** 6" #1
Mature Ht: 2' & Spd: 3' (CA) #3
15-18" #5

SAGE, RUSSIAN ***Perovskia artiplicifolia***

ONE OF OUR TOP SELLERS!!

Lavender-blue flower in long spikes late summer. Good border plant. Gray-green foliage with sage fragrance. Bees do collude with these Russians to elect the best blooms.

SERVICEBERRY, STANDING OVATION™
A First Editions® Selection ***Amelanchier alnifolia 'Obelisk'***
A rare and unique serviceberry for constricted locations. Hardy, upright, columnar compact and covered in white spring blossoms followed by small purple-blue edible berries. A wonderful screen or accent plant, the excellent yellow, orange fall color will make you jump up and clap.

Max. Elev: 8,500 ft.	**SSO**		(CA) #3
Mature Ht: 15' & Spd: 4'			#10
			#15
		4'	B&B

SMOKE TREE, GOLDEN ***Cotinus coggygria 'Ancot'***

This shrub is just like good old purple smoke tree but is bright gold instead. You know how some plants that are yellow look chlorotic even though they're not? This one doesn't, it is a vibrant yellow. In fall, the leaves change to a colorful rainbow of coral, orange and red. The plumes are a smokey pink from late spring to early summer.

Max. Elev: 8,000 ft. **GST** 15-24" (CA) #2
Mature Ht: 15' & Spd: 8'

SMOKE TREE, PURPLE ***Cotinus coggygria***

Rich, dark purple leaves last throughout the season on this large, multi-stemmed shrub. Small, pinkish white flowers on airy clusters give it a 'smoky' effect, but it still complies with EPA emmision standards.

Max. Elev: 7,500 ft. **PST** 15-18" (CA) #3
Mature Ht: 15' & Spd: 8' 18-24" #5
30-36' #10

SMOKEBUSH, Velveteeny™ ***Cotinus coggygria 'Cotsidh5'***

A compact dwarf form of our favorite Purple Smokebush with the same dramatic royal purple foliage but half its mature size. Familiar showy sprays of small pink blooms mid-summer resembling smoke followed by a rich burgundy to pink fall color. Perfect for containers and smaller garden beds. Ironically, resistant to Velveteen rabbits.

Max. Elev: 7,500 ft. **VST** 10-12" (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

SMOKEBUSH, Winecraft Black® ***Cotinus coggygria 'NCC01'***

A Proven Winners® Color Choice® Selection

The three bears said that the Velvetenny™ is too small and the Purple Smoketree is too big but the Winecraft Black® is just right! A medium sized rounded dark purple shrub with attractive reddish-purple panicles of smoky plumes in early summer thru fall. Deer and rabbit resistant but watch for friendly bears.

Max. Elev: 7,500 ft. **PWI** (CA) #3
Mature Ht: 4-6' & Spd: 4-6'

SNOWBALL ***Viburnum opulus 'Roseum'***

Well known shrub with upright, spreading branches. White flowers in round clusters in April-May.

Max. Elev: 10,000+ ft. **SNO** 18-24" #5
Mature Ht: 10' & Spd: 8' 3' #10

SNOWBERRY ***Symphoricarpos albus***

Good, green foliage, pink flowers in June. Large, white berries persist into fall and winter. Wonderful shrub for dry shade.

Max. Elev: 7,500+ ft. **SNB** (CA) #3
Mature Ht: 6' & Spd: 4' 18-24" #5

SNOWBERRY, CANDY™ CORALBERRY
Symphoricarpos x doorenbosii 'Kolmcan' **PP20931**

A First Editions® Selection

For gardeners who are on the lookout for shrubs that provide winter interest, Snowberries rate high on the list. Plump, candy-pink berries ripen in early fall, as the last of summer's small pink flowers swell into pearls. As the leaves fall, each arching stem is adorned with decorative berries which remain on slender branches through winter.

Max. Elev: 7,000 ft. **SNC** 15-18" (CA) #3
Mature Ht: 2' & Spd: 2'

SNOWBERRY, Pinky Promise®
Symphoricarpos doorenbosii 'Kolmpica' USPPAF,CPBRAF

After spring garden bloomers finish their show, Pinky Promise® takes center stage with a flashy display of gumball pink berries that cover the rich mint-green foliage. The promise of such an appeal is worth the wait! Hardy, compact and perfect for decorative patio containers, hedges, walkways and garden beds. Attracts bees, butterflies and hummingbirds.

Max. Elev: 9,000 ft. **PPS** 18-24" (CA) #3
Mature Ht: 3' & Spd: 3'

SNOWBERRY, WESTERN ***Symphoricarpos occidentalis***

Light green leaves with pink flowers followed by persistent white berries. One of the best things about this plant is that it likes *dry shade!*

Max. Elev: 7,500 ft. **WSN** 18-24" (CA) #3
Mature Ht: 3' & Spd: 5'

SPIREA, ANTHONY WATERER—Red
S. japonica 'Anthony Waterer'

Magenta flowers in early summer. Useful as a small hedge with good fall color. At 8,500 ft. it may freeze to the ground.

Max. Elev: 7,500 ft. **AWS** 15" (CA) #3
Mature Ht: 3' & Spd: 3' 15" #5

SPIREA, ASH-LEAF / URAL FALSE SPIREA—White
Sorbaria sorbifolia

Attractive, fern-like foliage. Large plumes of creamy white flowers in June. Not suitable for small planting areas as it spreads rapidly.

Max. Elev: 8,000+ ft. **ALS** 15-18" (CA) #3
Mature Ht: 6' & Spd: 6' 18-24" #5

SPIREA, ASH-LEAF 'Sem' ***Sorbaria sorbifolia 'Sem'***

A wonderful and exciting dwarf form of Sorbaria for hedges or accent color. Pinkish red fern-like foliage takes on a light green color in full summer sun. Branch tips sprout abundant creamy white flowers. Followed by bronze-red hued colors in fall. Attracts beneficial insects and other pollinators to the garden.

Max. Elev: 8,000 ft. **SEM** 15" (CA) #3
Mature Ht: 3-4' & Spd: 3-4'

SPIREA, BLUE MIST—Blue ***Caryopteris x clandonensis***

ONE OF OUR TOP SELLERS!!

Small, upright plant covered with light blue, fringed flowers from August until frost.

Max. Elev: 7,500 ft. **BMS** 9-12" (CA) #1
Mature Ht: 3' & Spd: 3' 18-24" #5
18-24" (CA) #6

SPIREA, DAPHNE—Pink ***S. japonica var. alpina***
Small, blue-green leaves on slender branches tipped with an array of soft pink flowers all summer. Excellent in rock gardens or as a groundcover.
Max. Elev: 7,500 ft. **DSP** 15-18" #5
Mature Ht: 2' & Spd: 2'

SPIREA, DARK KNIGHT—Dark Blue
Caryopteris x clandonensis 'Dark Knight'
Similar to Blue Mist Spirea, but with slightly darker green leaves and deep blue flowers on a more compact plant. *Very hard to see on a moonless night.*
Max. Elev: 7,500 ft. **DKS** 9-12" (CA) #1
Mature Ht: 3' & Spd: 3' 18-24" #5
18-24" (CA) #6

SPIREA, FAIRY QUEEN—White ***S. trilobata 'Fairy Queen'***
One of the finest white spireas. Three-lobed leaves are small, dark blue-green. Branches are slender and compact; flowers are white and profuse in late May/early June. An elegant spirea for any occasion.
Max. Elev: 7,500 ft. **SFQ** 15-18" (CA) #3
Mature Ht: 3' & Spd: 3'

SPIREA, FRITSCHIANA—White ***S. fritschiana***
Low, mounding spirea with large, bright white flowers and dark green foliage. In fact, it freely produces one of the largest flower clusters of all the spireas. Outstanding fall color.
Max. Elev: 8,000 ft. **SFR** 18-24" #5
Mature Ht: 2' & Spd: 4'

SPIREA, FROBEL—Pink ***S. japonica 'Frobelii'***
Hardy, vigorous plants producing flat-headed clusters of pink flowers in June. Young foliage has purplish tips.
Max. Elev: 8,500 ft. **FRO** 18-24" #5
Mature Ht: 4' & Spd: 4'

SPIREA, GOLDFLAME—Pink ***S. japonica 'Goldflame'***
Leaves are golden in spring, turning green in summer, and a copper-orange in fall. Light crimson summer flowers.
Max. Elev: 8,500 ft. **GFS** 12-15" (CA) #3
Mature Ht: 3' & Spd: 2' 15-18" #5

SPIREA, GOLDMOUND—Pink ***S. x 'Goldmound'***
A bushy plant with creamy yellow leaves all season. Pink flowers in June-July. Outstanding, small, colorful, foliage plant for accent or contrast in the foundation planting or shrub border.
Max. Elev: 7,500 ft. **GOS** (CA) #3
Mature Ht: 2' & Spd: 2' 15-18" #5

SPIREA, JAPANESE—White ***S. albiflora***
Dark green leaves contrast nicely with pure white blossoms in June. Referred to as a white-flowering 'Anthony Waterer'. This compact shrub makes a great choice for a foundation plant or a perennial garden.
Max. Elev: 8,000 ft. **SJW** 12-15" #5
Mature Ht: 2' & Spd: 2'

SPIREA, LIMEMOUND—Pink ***S. x bumalda 'Limemound'***
ONE OF OUR TOP SELLERS!!

This variety of Spirea forms a dense, mounded outline of lime yellow foliage in spring. Pink flowers in early summer. Outstanding orange-red fall color.

Max. Elev: 7,500 ft. **LMS** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3' 15-18" #5
(CA) #6

SPIREA, LITTLE PRINCESS—Pink ***S. japonica 'Little Princess'***

This small, dense shrub has small leaves on short, wiry stems. Pink flowers in summer, excellent groundcover or dwarf, specimen shrub. Fall color is dark red.

Max. Elev: 7,500 ft. **LPS** (CA) #3
Mature Ht: 2' & Spd: 3' 12-15" #5

SPIREA, MAGIC CARPET—Pink ***S. japonica 'Magic Carpet'***

New growth is a striking red that changes to bronze. Dark pink flowers follow in June. Fall brings forth deep russet tones. May to November, Magic Carpet is an eye-catching spirea that we had to carry, and that you will want to plant.

Max. Elev: 8,000 ft. **SMC** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3' 15-18" #5

SPIREA, NEON FLASH—Red ***S. japonica 'Neon Flash'***

Bright red flowers bloom from late spring to fall. New growth is purple turning to green. Reddish fall color. Excellent sub for Anthony Waterer.

Max. Elev: 7,500 ft. **NFS** (CA) #3
Mature Ht: 3' & Spd: 3' 15-18" #5

SPIREA, ROCK—White ***Holodiscus dumosus***

Small, deeply-veined leaves and fragrant, pinkish white flowers create 7" plumes that rest on slender, arching branches. This is not a spirea at all but a rugged, xeric plant that can live in the toughest environment.

Max. Elev: 10,000 ft. **ROK** 12-15" (CA) #3
Mature Ht: 4' & Spd: 4' #5

SPIREA, SHIROBANA—Pink, Rose & White ***S. japonica 'Shirobana'***

Dwarf, low spreading variety with bright green leaves. Blooms in June and July with pink, rose and white flowers on the same plant. Good color for any landscape.

Max. Elev: 7,500 ft. **SHS** 15" (CA) #3
Mature Ht: 2' & Spd: 3'

SPIREA, SNOWMOUND—White ***S. nipponica 'Snowmound'***

Good, low-growing shrub with dark green foliage and masses of pure white flowers in spring.

Max. Elev: 8,000 ft. **SMS** (CA) #3
Mature Ht: 4' & Spd: 3' 18-24" #5
2-3' #10

SPIREA, TOR BIRCHLEAF-WHITE ***Spiraea betulifolia 'Tor'***

'Tor' is a compact mound of dark, gray-green birch-like leaves. Tiny white flowers cover the plant in late spring and removal of faded flowers will encourage additional blooms. Autumn brings quality shades of orange, red and purple. Works well as a specimen or groups, low hedges for paths and walkways.

Max. Elev: 7,500 ft. **TOR** 12-15" (CA) #3
Mature Ht: 2-3' & Spd: 2-3' 15" #5

SPIREA, VANHOUTTE—White ***S. x vanhouttei***
Sometimes called bridal-wreath spirea. Blooms profusely with pure white flowers. *An owl named 'Van' actually gives a 'Hoot' about this plant.*
Max. Elev: 8,500 ft. **VAN** 15-18" (CA) #3
Mature Ht: 6' & Spd: 6' 18-24" #5

SUMAC, AUTUMN AMBER ***Rhus trilobata 'Autumn Amber'***
This creeping three leaf sumac is lower growing than the ever popular Gro-Low. It makes an outstanding groundcover, and has yellow to orange-red fall color. Alkaline tolerant and drought resistance. Rip out those old spreading junipers and plant Autumn Amber.
Max. Elev: 7,500 ft. **SAA** (CA) #3
Mature Ht: 18" & Spd: 6-8' #5

SUMAC, FRAGRANT ***Rhus aromatica***
Aromatic shrub with small, yellow flowers in May, followed by small red berries. Brilliant autumn foliage.
Max. Elev: 7,500 ft. **FRA** 18-24" #5
Mature Ht: 6' & Spd: 5'

SUMAC, GRO-LOW FRAGRANT ***Rhus aromatica 'Grow-Low'***
Low growing, rapid spreading form of Fragrant Sumac. Red, 'hairy' fruit follows yellow flowers. Scarlet-orange fall color.
Max. Elev: 7,500 ft. **GLS** (CA) #3
Mature Ht: 3' & Spd: 8' 12-15" #5

SUMAC, ROCKY MOUNTAIN ***Rhus glabra 'Cismontana'***
Native form of smooth Sumac that is smaller and more drought resistant. Spectacular red fall color.
Max. Elev: 10,000 ft. **SRM** 6-9" (CA) #1
Mature Ht: 6' & Spd: 6'

SUMAC, SMOOTH ***Rhus glabra***
Want your Sumac smooth? Get a Norelco 110! Does well in poor soil. Bright red leaves in autumn.
Max. Elev: 7,500 ft. **SMO** 18-24" #5
Mature Ht: 10' & Spd: 8'

SUMAC, STAGHORN ***Rhus typhina***
Grows well in poor soil. Branches covered with dense, velvet hair with red fall foliage. Best in groups.
Max. Elev: 7,500 ft. **STS** (CA) #3
Mature Ht: 10' & Spd: 8' 18-24" #5

SUMAC, STAGHORN, CUTLEAF ***Rhus typhina 'Laciniata'***
Similar to other sumac, but has fine, deeply divided leaflets.
Max. Elev: 7,500 ft. **CSU** 18-24" #5
Mature Ht: 8' & Spd: 6' 2-3' #10

SUMAC, THREE LEAF ***Rhus trilobata***
This shrub is more commonly seen 3-4' tall and wide. Leaves are divided into 3 leaflets and turn rich red-orange in the fall. Tart, red berries are used to make a lemon-flavored drink. Attractive to birds. Tolerant of poor soil.
Max. Elev: 9,000 ft. **TLS** 15-18" (CA) #3
Mature Ht: 6' & Spd: 6' 18-24" #5

SUMAC, TIGER EYES® ***Rhus typhina 'Bailtiger'*** **PP16185**

A First Editions® Selection

A lacy cutleaf staghorn sumac that has golden leaves that starts chartreuse with both colors contrasting beautifully with rosy-pink stems. The fall color is unrivaled with intense yellows, oranges and scarlets. Hunt some down on your next safari to the nursery.

Max. Elev: 7,500 ft. **TES** (CA) #3
Mature Ht: 6' & Spd: 6' #5

SWEETSPIRE, LITTLE HENRY®
Itea virginica 'Sprich' **PP10988**

A Proven Winners® Color Choice® Selection

Burning bush is just a puff of smoke compared to the crimson fall color of Little Henry®. In early summer shoots of fragrant, white flowers will draw you over to appreciate. A big value in the landscape. Prefers moist, well-drained soils.

Max. Elev: 6,000 ft. **SLH** 12-15" (CA) #3
Mature Ht: 2' & Spd: 3'

VIBURNUM, ALLEGHANY ***V. x rhytidophylloides 'Alleghany'***
1997 Plant Select® Holds its broad, leathery leaves long into the fall on stiff, ascending branches. Red berries turning black at maturity follow clusters of creamy white flowers in June.

Max. Elev: 7,000 ft. **VAL** 15-18" #5
Mature Ht: 10' & Spd: 10' 18-24" (CA) #6
(CA) #10

VIBURNUM, ARROWWOOD ***V. dentatum***
Large, upright, fairly dense shrub. White flowers in June, followed by blue-black berries. Orange/red/purple fall color.

Max. Elev: 7,500 ft. **ARR** 18-24" #5
Mature Ht: 11' & Spd: 9' 2-3' #10

VIBURNUM, AUTUMN JAZZ ***V. dentatum 'Ralph Senior'***
A *Viburnum dentatum* selected for its graceful vase shape, white flowers, blue-black berries and fall color. Jazz up your next job site with this plant.

Max. Elev: 7,500 ft. **VAJ** (CA) #3
Mature Ht: 11' & Spd: 9' 15-18" #5
2-3' #10

VIBURNUM, Blue Muffin® ***V. dentatum 'Christom'***

A Proven Winners® Color Choice® Selection

In spring this compact Arrowwood Viburnum is blanketed with white flowers. Even more impressive are the intensely blue berries that follow. Makes a great hedge or accent.

Max. Elev: 7,500 ft. **VBM** (CA) #3
Mature Ht: 6' & Spd: 6' 18-24" #5
2-3' #10
3' B&B

VIBURNUM, BURKWOOD ***V. x burkwoodi***
Very fragrant, white flowers. Evergreen, if protected.

Max. Elev: 7,500 ft. **VBU** 18-24" (CA) #5
Mature Ht: 6' & Spd: 8' 24-36" #7

VIBURNUM, FRAGRANT / JUDD ***V. x juddii***
Rounded shrub with awesome fragrant, light pink blossoms appearing late April to early May. Dense, dark green foliage turns burgundy in the fall.
Max. Elev: 6,000 ft. **VJU** 15-18" (CA) #5
Mature Ht: 8' & Spd: 8' #7
2' B&B

VIBURNUM, KOREANSPICE ***V. carlesii***
Intense fragrance emitted by pinkish red buds open to round clusters of white flowers. Foliage is soft gray-green turning bronze-red in fall. Dense, round growth habit. This shrub surrounds the rose garden at the White House.
Max. Elev: 7,000 ft. **VKS** 15-18" (CA) #5
Mature Ht: 6' & Spd: 6' 24" #7
#10

VIBURNUM, MINI MAN™ ***V. burejaeticum 'P017S'***
2016 Plant Select® Perfect for smaller gardens, around patio spaces or even as seasonal container plants. Mini Man™ has a nice round shape, is deer resistant and cold hardy with pretty, creamy-white flower clusters. Thanks to Plant Select, Scott Skogerbee and Cheyenne Horticultural Field Station, Mini Man™ has a storied past but not a Napoleon complex.
Max. Elev: 9,000 ft. **VMM** (CA) #3
Mature Ht: 4-6' & Spd: 4-6'

VIBURNUM, MOHICAN ***V. lantana 'Mohican'***
Fantastic shrub with dense, dark green foliage resistant to bacterial leaf spot. Creamy white flowers envelop the plant in late April or early May. Orange-red fruit in early July lasts a month before turning black. Leathery foliage turns Purplish-red tones in fall.
Max. Elev: 7,500 ft. **VMO** 18-24" #5
Mature Ht: 7-8' & Spd: 6-8' 18-24" (CA) #6
#10
3' B&B

VIBURNUM, NANNYBERRY ***V. lentago***
Tall, thin shrub or tree. Shiny green leaves. Single, white flower in May, followed by black fruit.
Max. Elev: 7,500 ft. **VLE** 15" (CA) #3
Mature Ht: 15' & Spd: 10' 18-24" #5
#10
4' B&B

VIBURNUM, Spice Baby™
Viburum carlesii 'SMVCB' **PP25872**
A Proven Winners® Color Choice® Selection
So tell me what you want, what you really, really want. ♪♫ I wanna, I wanna compact form of Koreanspice Viburnum. Spice Baby™ delivers the goods; white fragrant spring blooms, deer resistance and strong growth in a petite package. The other Spice Girls not included. To produce berries, plant near a different V. carlesii cultivar.
Max. Elev: 7,500 ft. **VKB** 15-18" (CA) #3
Mature Ht: 4-5' & Spd: 4-5'

WEIGELA, MIDNIGHT WINE® ***W. florida 'Elvera'*** **PP12217**
A Proven Winners® Color Choice® Selection
This is an offspring of Wine & Roses® that gets only 18-24" tall! And I thought Wine & Roses® was going to be wildly popular. Look out!
Max. Elev: 7,000 ft. **WMI** 12-15" (CA) #2
Mature Ht: 2' & Spd: 2' 15-18" (CA) #5

WEIGELA, MINUET ***W. florida 'Minuet'***

The outer edge of the petal is ruby red. The inside is lilac-purple with a yellow throat. The foliage has a purple tinge. It is very compact.

Max. Elev: 7,000 ft. **WEM** 12-15" (CA) #2
Mature Ht: 3' & Spd: 5'

WEIGELA, MY MONET® ***Weigela florida 'Verwig'*** **PP16824**

A Proven Winners® Color Choice® Selection

Hardiest and best dwarf variegated weigela. New leaves have pink highlights giving way to green with cream margins. In spring, large purple-pink flowers blanket the stems. This plant will make a lasting 'impression' on you.

Max. Elev: 7,000 ft. **WMM** 9" (CA)#2
Mature Ht: 15" & Spd: 15"

WEIGELA, RED PRINCE ***W. florida 'Red Prince'***

Medium-sized, upright shrub with branches arched as shrub matures. Flowers hold their red color and do not fade.

Max. Elev: 7,000 ft. **WRP** 15-18" (CA) #2
Mature Ht: 6' & Spd: 5' 18-24" (CA) #5

WEIGELA, SPILLED WINE®
Weigela florida 'Bokraspiwi' **PP23781**

A Proven Winners® Color Choice® Selection

With dark, black-purple wavy foliage, and hot pink-magenta flowers this weigela is similar to but smaller than Wine & Roses®. Like knocking over a wine glass on a countertop, Spilled Wine® spills beautifully over into a landscape. Perfect for edging beds or walkways and under windows.

Max. Elev: 7,500 ft. **WSW** #2
Mature Ht: 2' & Spd: 3'

WEIGELA, TUXEDO™ ***Weigela x 'Velda'***

Pure white, tubular summer blooms contrast dark purple-green foliage with near black, lightly serrated edges and green underside. Compact mounding habit. Dressed well enough to go anywhere in town, but prefers a moist, well-drained soil. Excellent contrast plant and drought tolerant once established. Attracts butterflies and extra dry martinis.

Max. Elev: 7,000 ft. **TUX** (CA) #3
Mature Ht: 3' & Spd: 3-4'

WEIGELA, WINE & ROSES®
W. florida 'Alexandra' **PP10772**

A Proven Winners® Color Choice® Selection

This small wonderful shrub will leave you feeling drunk. Vivid, rosy pink flowers surrounded by dark glossy burgundy leaves. The foliage contrast beautifully with the summertime re-blooming flowers, making a visually high impact in any garden. Attracts hummingbirds, Wine & Roses brings nature to your backyard while resisting foraging deer.

Max. Elev: 7,000 ft. **WWR** 15-18" (CA) #2
Mature Ht: 4' & Spd: 4' (CA) #5

WILLOW, DWARF ARCTIC BLUE ***Salix purpurea 'Nana'***

Hardy, low growing willow suited for borders and hedges. Silvery gray leaves and purple twigs in winter.

Max. Elev: 10,000 ft. **ART** (CA) #3
Mature Ht: 6' & Spd: 6' 15-18" #5

WILLOW, COYOTE / SAND BAR ***Salix exigua***
Native willow found along stream banks and meadows throughout the region. Suckering habit forms large thickets. Good reclamation plant.
Max. Elev: 7,500 ft. **WCY** (CA) #3
Mature Ht: 10' & Spd: 6'

WILLOW, CREEPING ***Salix repens***
A groundcover willow! Walking by this plant, you'd think it might be a Kinnikinnick. Its small, oval dark green leaves with silver undersides will look great by your next water feature.
Max. Elev: 9,000 ft. **WCR** 12-15"Spd. (CA) #2
Mature Ht: 8" & Spd: 7'

WILLOW, PUSSY ***Salix discolor***
Large shrub with slender, upright branches covered with soft, silky gray catkins in spring prior to leafing out.
Max. Elev: 9,000 ft. **PUS** 18-24" #5
Mature Ht: 15' & Spd: 10'

WOADWAXEN, LYDIA ***Genista 'Lydia'***
Do you have hot dry conditions and poor soils? Then Lydia woadwaxen is for you. When in bloom, it's nothing short of fantastic. Bright yellow flowers cover the entire plant in late May. Lydia, dear Lydia, you are a bright spot in a harsh world.
Max. Elev: 8,000 ft. **WLY** (CA) #6
Mature Ht: 2' & Spd: 2'

"In spite of the cost of living, it's still very popular."

SPREADING JUNIPERS

ALPINE CARPET ***Juniperus communis 'Mondap'***
This is an extremely hardy selection of common juniper with deep blue soft textured foliage. This plant is great for mass plantings or as a ground cover.
Max. Elev: 8,000 ft. **ACJ** #2
Mature Ht: 8" & Spd: 4' #5

ANDORRA / YOUNGSTOWN
Juniperus horizontalis 'Youngstown'
Low-spreading evergreen. Feathery foliage, light green in summer, turning plum in fall and winter. Vigorous.
Max. Elev: 8,000 ft. **AND** #5
Mature Ht: 18" & Spd: 6'

ARMSTRONG ***Juniperus chinensis 'Armstrongii'***
Light green, finely-textured foliage on slightly arching branches. Symmetrical branching habit. One of the best evergreens for hedges or globes.
Max. Elev: 7,500 ft. **ARM** #5
Mature Ht: 4' & Spd: 4'

BAR HARBOR ***Juniperus horizontalis 'Bar Harbor'***
Matted branches grow close to ground. Foliage is soft gray-blue in summer and silvery plum in winter.
Max. Elev: 8,000 ft. **BAR** #5
Mature Ht: 8" & Spd: 6'

BLUE CHIP ***Juniperus horizontalis 'Blue Chip'***
Silver-blue juniper with fine foliage. Has low mounding, spreading habit. Excellent groundcover.
Max. Elev: 7,500 ft. **BCH** #5
Mature Ht: 10" & Spd: 6'

BLUE STAR ***Juniperus squamata 'Blue Star'***
Compact habit with a mounding growth pattern. Silvery blue foliage adds sparkle to the landscape. Prefers afternoon shade.
Max. Elev: 7,000 ft. **BST** #2
Mature Ht: 3' & Spd: 5'

BROADMOOR ***Juniperus sabina 'Broadmoor'***
A neat, low spreader. Very dense, mounding form with graceful, soft, bright green foliage.
Max. Elev: 9,500 ft. **BRO** #5
Mature Ht: 12" & Spd: 5'

BUFFALO ***Juniperus sabina 'Buffalo'***
While commonly found on top of "Buffalo Bill's" grave, these junipers have soft, feathery branches creating a unique, wide-spreading form. Very hardy. Foliage is bright green. One of the best for high elevations.
Max. Elev: 9,500 ft. **BUF** #5
Mature Ht: 12" & Spd: 6'

CALGARY CARPET ***Juniperus sabina 'Monna'***
For years we've been saying Sierra Spreader and Calgary Carpet are exactly the same. Well…we put them next to each other, and they are different. Many things in common, but definitely different. We're carrying them both now.
Max. Elev: 8,000 ft. **CCJ** #2
Mature Ht: 9" & Spd: 10' #5

GREEN MOUND ***Juniperus procumbens 'Green Mound'***
Ground-hugging spreader, cushion-like form and dense, bluish green foliage.
Max. Elev: 7,500 ft. **GMD** #5
Mature Ht: 12" & Spd: 8'

HUGHES ***Juniperus horizontalis 'Hughes'***
Low-growing, silvery blue, spreading, compact juniper that retains its summer color better than Andorra.
Max. Elev: 6,500 ft. **HUG** #5
Mature Ht: 18" & Spd: 6'

ICEE BLUE™ ***Juniperus horizontalis 'Monber'***
A very compact finely textured juniper with purple tinged tips on silver-blue foliage. Tends to stay dense in the center as it matures. Cascades nicely.
Max. Elev: 6,000 ft. **ICE** #2
Mature Ht: 4" & Spd: 8'

OLD GOLD / GOLD COAST™ ***Juniperus x media 'Old Gold'***
Graceful, compact Armstrong with golden foliage.
Max. Elev: 7,000 ft. **OLD** #5
Mature Ht: 3' & Spd: 4'

SCANDIA ***Juniperus sabina 'Scandia'***
Feathery, bright green foliage. Wide-spreading form. Good for areas where a low, dense-growing plant is desired.
Max. Elev: 7,500 ft. **SCA** #5
Mature Ht: 18" & Spd: 6'

SEA GREEN / MINT JULEP™ ***Juniperus x media 'Sea Green'***
Light green foliage, compact with arching branches. Somewhat vase-shaped.
Max. Elev: 7,500 ft. **SEA** #5
Mature Ht: 8' & Spd: 6'

TAMMY ***Juniperus sabina 'Tamariscifolia'***
Slow, low-spreading growth. Ascending branches create the effect of a feathery mound. Light green or blue-green all year.
Max. Elev: 8,500+ ft. **TAM** #5
Mature Ht: 3' & Spd: 6'

WILTONI / BLUE RUG ***Juniperus horizontalis 'Wiltonii'***
Very good blue rug juniper. Forms a thick mat of blue foliage. Good as a groundcover or for bank plantings.
Max. Elev: 9,000 ft. **WIL** #5
Mature Ht: 6" & Spd: 6'

UPRIGHT JUNIPERS

BLUE ARROW ***Juniperus scopulorum 'Blue Arrow'***

A perfect sub for Skyrocket upright. Bright blue foliage on a tight, narrow, upright form. Great selection for narrow areas that require screening.

Max. Elev: 8,000 ft. **BAU** 3' #5
Mature Ht: 15' & Spd: 2' 4' #7
5' #10
8' (24" Box) #25

BLUE POINT ***Juniperus chinensis 'Blue Point'***

Keeps its natural broad, pyramidal shape without shearing. Reaches a height of about half of most other uprights.

Max. Elev: 8,000 ft. **BPO** 3' #5
Mature Ht: 12' & Spd: 6' 5' #10
8' (24" Box) #25

EMERALD FEATHER™
Juniperus virginiana 'J.N. Select Green'

The perfect size upright juniper to create a hardy evergreen screen; tall enough for privacy but still easy to maintain. Nice for framing the corners of homes/structures or as an evergreen specimen in any landscape. Bright green soft foliage with blue berries and moderate to fast growth only adds to its' attractive nature.

Max. Elev: 9,000 ft. **EFE** 3' #5
Mature Ht: 10-12' & Spd: 5' 5' #15

HETZI COLUMNAR
Juniperus chinensis 'Hetzi Columnaris'

We're going retro! Back in style from the 1980's, this attractive pyramidal upright has bright green foliage and radical ornamental berries. Wickedly hardy. Makes a great living fence.

Max. Elev: 8,000 ft. **HCO** 3' #5
Mature Ht: 20' & Spd: 5' 4' #7
5' #10

MEDORA ***Juniperus scopulorum 'Medora'***

Excellent blue-green color. Narrow, pyramidal upright holds its shape well without pruning. Slow grower, but tolerates heat, cold, and drought very well.

Max. Elev: 7,500 ft. **MEJ** 3' #5
Mature Ht: 10' & Spd: 5' 4' #7
5' #10

MOONGLOW ***Juniperus scopulorum 'Moonglow'***

During a full moon, look out! The sparkling blue-gray foliage almost seems to glow. These uprights do best *in full moonlight.*

Max. Elev: 8,000 ft. **MOO** 3' #5
Mature Ht: 20' & Spd: 5' 5' #10

SKYROCKET ***Juniperus virginiana 'Skyrocket'***

Very narrow, columnar habit with attractive silvery blue foliage. Fast-growing and requires little maintenance.

Max. Elev: 8,000 ft. **SKR** 3' #5
Mature Ht: 20' & Spd: 5' 4' #7
5' #10
8' (24" Box) #25

SPARTAN & SPEARMINT
Juniperus chinensis 'Spartan' & 'Spearmint'

ONE OF OUR TOP SELLERS!!

Tall, pyramidal with brilliant, rich green foliage. Rapid grower.

Max. Elev: 8,000 ft. **SPA/SPE** 3' #5
Mature Ht: 15' & Spd: 5' 4' #7
5' #10
8' (24" Box) #25

TAYLOR ***Juniperus virginiana 'Taylor'***
Discovered in Taylor, Nebraska as a chance seedling, this elegant upright has soft silvery blue-green foliage and dense upright narrow habit. Makes a great privacy screen for narrow yards or dramatic vertical element in the landscape.
Max. Elev: 7,500 ft. **TAY** 3' #5
Mature Ht: 30' & Spd: 3' 4' #7
6' #15
8' (24" Box) #25

WICHITA BLUE ***Juniperus scopulorum 'Wichita Blue'***
Wide, pyramidal evergreen. Foliage is a bright silver-blue. May be sheared for a tall hedge.
Max. Elev: 7,500 ft. **WBL** 3' #5
Mature Ht: 20' & Spd: 5' 4' #7
5' #10
8' (24" Box) #25

WOODWARD ***Juniperus scopulorum 'Woodward'***
2015 Plant Select® Plant in full sun areas where space is limited. Low water selection from the Cheyenne Experimental Station.
Max. Elev: 8,000 ft. **WOW** 3' #5
Mature Ht: 20' & Spd: 3' #10

BROADLEAF EVERGREENS

BAMBOO, BLACK ***Fargesia nitida***

Best grown in a location out of the midday sun and heat. Good for an upright hedge between houses. Canes turn an attractive purple in part sun.

Max. Elev: 7,500 ft. **BAB** #5
Mature Ht: 15' & Spd: 5'

BAMBOO, SUNSET GLOW ***Fargesia rufa***

It is fair to say that this is the best clumping bamboo. Very cold hardy down to -20^{o} F. It is drought tolerant, heat tolerant and non-invasive. Orange-red sheaths add to contrast green stems. Does well in containers and planted in gardens. Favorite food of Giant Pandas. Not Panda resistant.

Max. Elev: 6,000 ft. **BSU** #2
Mature Ht: 8' & Spd: 6' #5

BAMBOO, YELLOW GROOVE ***Phyllostachys aureosulcata***

An evergreen, running-type bamboo hardy for our climate. Slender young stems have a pronounced yellow groove and soft green leaves. "It's groovy, baby!"

Max. Elev: 6,000 ft. **BYG** #5
Mature Ht: 15' & Spd: 8'+

BOXWOOD, Baby Gem™
Buxus microphylla japonica 'Gregem' **PP21159**

A vigorous, extremely dense little leaf boxwood with small, black green foliage that holds its' nice evergreen color well into winter. Tolerates drier soils once well established. Performance tested at the CSU trial garden with very good hardiness ratings. *Plant this baby in your nursery and watch it grow up…*

Max. Elev: 6,000 ft. (if in the shade) **BBG** #2
Mature Ht: 4' & Spd: 4' #3
#5

BOXWOOD, CHICAGOLAND GREEN™ ***Buxus x 'Glencoe'***

Here is a boxwood chosen for its cold tolerance and slow compact growth; hardy to -32˚F. Good foundation plant. Like all boxwoods, protection from winter winds and sun helps reduce desiccation and die back.

Max. Elev: 7,000 ft. **BOC** #2
Mature Ht: 4-5' & Spd: 3-4' #5

BOXWOOD, GREEN BEAUTY
Buxus microphylla japonica 'Green Beauty'

Vigorous evergreen with stiff branches holding up better under snowy conditions. Good for hedges.

Max. Elev: 6,000 ft. **BGB** #2
Mature Ht: 4' & Spd: 4' #5

BOXWOOD, GREEN MOUNTAIN ***Buxus 'Green Mountain'***

ONE OF OUR TOP SELLERS!!

Faster growing, pyramidal form of boxwood; more conical if left unsheared. One of the more sun tolerant boxwoods and excellent for containers.

Max. Elev: 6,000 ft. **BGM** #2
Mature Ht: 5' & Spd: 3' #5
#7

BOXWOOD, GREEN VELVET ***Buxus 'Green Velvet'***

ONE OF OUR TOP SELLERS!!

From Canada and truly a **Zone 4**. Rounded, full-bodied shrub with dark green foliage. Holds color through winter.

Max. Elev: 6,500 ft. **BGV** #2
Mature Ht: 2' & Spd: 2' #3
#5
#7

BOXWOOD, JULIA JANE ***Buxus japonica 'Julia Jane'***

Hardy, **Zone 5** boxwood named for the late Colorado landscape architect, Jane Silverstein Ries. Excellent tolerance of harsh winter conditions, vigorous, upright, rather square habit. Lime green new growth in spring matures to dark green.

Max. Elev: 6,000 ft. **BWJ** #2
Mature Ht: 4' & Spd: 2' #5
#7

BOXWOOD, KOREAN
Buxus microphylla var. korean 'Emerald Jewel'

Back for Year 2026

Looking for a small rounded boxwood? This is the ticket! A slow-growing compact boxwood that prefers protection from the winter winds and hot sun.

Max. Elev: 6,000 ft. **BWK** #3
Mature Ht: 2' & Spd: 2'

BOXWOOD, TOPIARY **SEE PAGE 98**

BOXWOOD, WINTER GEM
Buxus microphylla 'Winter Gem'

ONE OF OUR TOP SELLERS!!

Best used on north sides, protected from winter winds. Little-leaf, slow-growing, loose, upright spreading habit with glossy, bright green, oval foliage.

Max. Elev: 6,000 ft. **BWG** #2
Mature Ht: 4' & Spd: 4' #5

BOXWOOD, WINTERGREEN
Buxus microphylla 'Wintergreen'

Fast-growing, compact evergreen very similar to Japanese boxwood. Small, bright green foliage and superior hardiness make this an excellent selection. Takes shearing well.

Max. Elev: 6,000 ft. **BWI** #2
Mature Ht: 4' & Spd: 4' #5

BROOM, SPANISH GOLD ***Cytisus purgan 'Spanish Gold'***

2000 Plant Select® From the mountains of Spain, this broom is a true **Zone 4**. It tolerates an extensive range of soils and water conditions.

Max. Elev: 8,000 ft. **BSG** #5
Mature Ht: 4' & Spd: 6'

COTONEASTER, CORAL BEAUTY ***C. dammeri 'Coral Beauty'***

Low-spreading form with prostrate branching. Brilliant orange-red berries follow small, whitish flowers in the fall.

Max. Elev: 7,500 ft. **CCB** #2
Mature Ht: 2' & Spd: 6' #5

COTONEASTER, CRANBERRY ***C. apiculatus***
A medium size, deciduous shrub with shiny green foliage. Spring flowers are pinkish white. Cranberry-sized red berries follow and persist through winter.
Max. Elev: 8,500 ft. **CAP** #2
Mature Ht: 3' & Spd: 6' #5

COTONEASTER, GROUND ***C. horizontalis perpusillus***
Extremely low spreader with small, dark green leaves and white flowers in spring. Brilliant red berries, along with orange-red leaf color, appear in autumn. Very hardy.
Max. Elev: 7,500 ft. **CHG** #5
Mature Ht: 3' & Spd: 7'

COTONEASTER, ROCK ***C. horizontalis***
Densely-branched, low-spreading shrub. Small, round leaves, pinkish flowers in spring, bright red berries in fall.
Max. Elev: 7,500 ft. **CHO** #5
Mature Ht: 2' & Spd: 4'

COTONEASTER, SHRUB ***C. divaricatus***
A hardy, spreading shrub with dark green foliage turning red in fall. Pink blooms in spring.
Max. Elev: 7,500 ft. **CDI** #5
Mature Ht: 6' & Spd: 4'

COTONEASTER, TOM THUMB ***C. apiculatus 'Tom Thumb'***
Thumbs up for this shrub! Take your ordinary Cranberry Cotoneaster, squish it and shape it into a mound. Bingo! You now have a Tom Thumb. Red fall color.
Max. Elev: 8,500 ft. **CTT** #2
Mature Ht: 1' & Spd: 3'

EUONYMUS, CANADALE GOLD ***E. fortunei 'Canadale Gold'***
Large green leaves with golden yellow margins cover this sturdy compact plant.
Max. Elev: 6,000 ft. **ECG** #2
Mature Ht: 3' & Spd: 4' #5

EUONYMUS, CHOLLIPO ***E. japonica 'Chollipo'***
Feeling hungry?—A Chollipo with green chili please! Named for the Chollipo Arboretum in Korea, this hardy, upright, broadleaf evergreen matures to a height of 12' with a spread of 3'. It has deep green leaves with a creamy white margin changing to a golden variegation in winter.
Max. Elev: 6,000 ft. **ECH** #5
Mature Ht: 12' & Spd: 3' **ECE** Espalier #5
Espalier #10

EUONYMUS, EMERALD GAIETY ***E. fortunei 'Emerald Gaiety'***
Small, erect evergreen. Dense branching with white margin on rich green, rounded leaves.
Max. Elev: 6,000 ft. **EME** #2
Mature Ht: 3' & Spd: 5' #5

"A beautiful plant is like having a good friend around the house."

– Beth Ditto

EUONYMUS, EMERALD 'N GOLD
E. fortunei 'Emerald 'n Gold'
Low, mounding, evergreen shrub. Tightly branched emerald green foliage with bright gold edges.
Max. Elev: 6,000 ft. **EEG** #2
Mature Ht: 2' & Spd: 4' #5

EUONYMUS, Gold Splash®
Evonymus fortunei 'Roemertwo'
A Proven Winners® Color Choice® Selection
Cheerful soft green and yellow variegation of big, round evergreen leaves give a splash of color to any landscape. Tolerant of most soils except extremely wet conditions. Excellent hardiness and year-round color.
Max. Elev: 6,000 ft. **EGO** #3
Mature Ht: 2' & Spd: 2'

EUONYMUS, IVORY JADE
Evonymus fortunei 'Ivory Jade'
Excellent low border, hedge or accent plant. Evergreen branches are highlighted by rich green leaves with creamy white margins that are tinged with pink when cold weather sets in.
Max. Elev: 7,500 ft. **EIJ** #2
Mature Ht: 3' & Spd: 6' #5

EUONYMUS, MANHATTAN ***E. kiautschovica 'Manhattan'***
Dark, glossy foliage holds its color in winter very well.
Max. Elev: 6,500 ft. **EMA** #5
Mature Ht: 5' & Spd: 6' **EUE** Espalier #5
Espalier #10

EUONYMUS, MOONSHADOW ***E. fortunei 'Moonshadow'***
Wavy, light yellow leaves with thin, green margins. Excellent for borders or a low hedge.
Max. Elev: 6,500 ft. **EMO** #2
Mature Ht: 2' & Spd: 2'

HOLLY, BERRI MAGIC KIDS™ ***Ilex x meserveae***
Blue Prince/Blue Princess in the same container make a pollinator unnecessary to produce berries.
Max. Elev: 7,000 ft. **BMH** #2
Mature Ht: 6-8' & Spd: 3-6' #5

HOLLY, BOY / GIRL ***Ilex x meserveae***
Blue Boy and Blue Girl in the same container make a pollinator unnecessary to produce berries.
Max. Elev: 6,000 ft. **HBG** #5
Mature Ht: 6-8' & Spd: 6-8'

HOLLY, Castle Spire®
Ilex x meserveae 'Hachfee' **PP14310**
A Proven Winners® Color Choice® Selection
An exceptional compact, narrow pyramidal blue holly with dark glossy leaves and bright red berries. Great for borders, screens, hedges, or as specimen in the landscape. Prefers acidic soils and moderate water; a good layer of mulch in the winter would be a good idea. Needs a male pollinator or Berri Magic for reliable berries.
Max. Elev: 6,000 ft. **HCS** #5
Mature Ht: 8-10' & Spd: 3-4'

HOLLY, LITTLE RASCAL ***Ilex x 'Mondo'***

Extremely hardy cutting grown selection from Monrovia. Keep from afternoon sun. This shrub holds it's leaves year round in a nice full compact form.

Max. Elev: 6,000 ft. **LRH** #3
Mature Ht: 2' & Spd: 3' #3

HOLLY, SHAMROCK INKBERRY
Ilex glabra 'Shamrock'

This is the evergreen, low maintenance border plant you've been looking for! A compact, dense rounded female holly with dark green glossy foliage. No berries without a male to pollinate.

Max. Elev: 7,500 ft. **SCI** #3
Mature Ht: 3-4' & Spd: 3-4' #3

MAHONIA AQUIFOLIUM / OREGON GRAPE HOLLY
M. aquifolium

Evergreen shrub with deep, glossy green, holly-like foliage on erect branches. Clusters of incredibly fragrant, yellow flowers in late spring followed by bright blue, grape-like berries.

Max. Elev: 7,500 ft. (if in shade)
Mature Ht: 6' & Spd: 6' **MAQ** #2 #5

MAHONIA AQUIFOLIUM COMPACTA / OREGON GRAPE HOLLY, COMPACT ***M. aquifolium 'Compacta'***

Deep green, glossy foliage. Turns maroon in winter.

Max. Elev: 6,800 ft. **MCO** #2
Mature Ht: 3' & Spd: 5' #5

MANZANITA, CHIEFTAIN
Arctostaphylos x coloradensis 'Chieftain'

2013 Plant Select® Same characteristics as Colorado Manzanita except bigger. Even bigger than panchito, twice as big. A lush green xeric shrub with excellent exfoliating bark.

Max. Elev: 8,000 ft. **CHI** #1
Mature Ht: 3-4' & Spd: 10' #3

MANZANITA, COLORADO/MOCK BEARBERRY
Arctostaphylos x coloradensis

ONE OF OUR TOP SELLERS!!

2005 Plant Select® *A xeric plant with a lush green appearance*. Bright green oval leaves surround cinnamon-red to purple exfoliating branches. Shell-pink flowers in late spring followed by red fruit. Performs better in well-drained soil.

Max. Elev: 7,500 ft. **MAN** #1
Mature Ht: 8" & Spd: 4' #3

MANZANITA, PANCHITO™ ***Arctostaphylos 'Panchito'***

ONE OF OUR TOP SELLERS!!

2006 Plant Select® Same characteristics as Colorado Manzanita, except it grows taller, and is more reminiscent of the California manzanitas.

Max. Elev: 8,000 ft. **MPA** #1
Mature Ht: 2' & Spd: 4' #3

PRIVET, GOLDEN VICARY ***Ligustrum x vicaryi***

Golden yellow foliage when planted in full sun. Evergreen, if protected.

Max. Elev: 7,500 ft. **GVI** #5

Mature Ht: 8' & Spd: 8'

PYRACANTHA, YUKON BELLE® ***P. angustifolia 'Monon'***

An upright spreader with abundant white blooms in spring followed by orange berries. Hardiest variety of Pyracantha.

Max. Elev: 7,000 ft. **PYB** #5

Mature Ht: 6' & Spd: 6'

RHODODENDRON ***Rhododendron***

These varieties are hardy to -25° F. They prefer acidic soil and northern or eastern locations. Excellent flower color for shady areas. "Please keep us protected from hot dry winds."

Max. Elev: 6,000 ft. #2

Mature Ht: 3-5' & Spd: 3-5' #5

Variety	Flower	Item Code	Sizes
Cunningham's	White	**RCW**	#5
English Roseum	Lilac-Rose	**RER**	#5
Nova Zembla	Red	**RNZ**	#2, #5
PJM	Lavender	**PJM**	#2, #5

Roseum Elegans	Lilac-Purple	**RRO**	#2, #5

YUCCA, BLUE SENTRY ***Y. flaccida 'Blue Sentry'***

Resembling Bright Edge Yucca, well except for the leaf color, it is blue green with no margins. Oh, and it gets 3' tall and wide so it's a bit bigger as well. Creamy white bell-shaped blooms on tall spikes in summer.

Max. Elev: 6,500 ft. **YBS** #5

Mature Ht: 3' & Spd: 3'

YUCCA, BRIGHT EDGE ***Y. flaccida 'Bright Edge'***

Stiff, sword-shaped, green leaves with yellow margins adorn this low, evergreen shrub. Maintains gold color all summer. Tall, creamy white flower spike in midsummer.

Max. Elev: 7,500 ft. **YBE** #1

Mature Ht: 1-2' & Spd: 3' #2

#5

YUCCA, COLOR GUARD ***Y. filamentosa 'Color Guard'***

Bright yellow variegated sword shaped foliage with tall flower spikes of creamy white blossoms in May-June. Excellent structural and color accent in Colorado gardens and containers. Little maintenance required.

Max. Elev: 7,500 ft. **YCG** #2

Mature Ht: 3' & Spd: 3' #5

YUCCA FILAMENTOSA / ADAM'S NEEDLE ***Y. filamentosa***

Evergreen with spiny leaves that form large clusters. Flower is white to cream color on tall spikes in midsummer.

Max. Elev: 6,500 ft. **YFI** #5

Mature Ht: 3' & Spd: 3'

YUCCA, GLAUCA ***Yucca glauca***

Our native yucca with stiff, evergreen leaves radiating out from a central rosette. Tall spikes of ivory white flowers in late spring; excellent pollinator plant. Easy to grow and very long-lived. Drought tolerant and deer resistant.

Max. Elev: 8,500 ft. **YGL** #5
Mature Ht: 16-20" & Spd: 24-36"

YUCCA, GOLDEN SWORD
Yucca filamentosa 'Golden Sword'

A mounding rosette of sword-shaped leaves with delicate green margins and a rich yellow interior. Tall spikes of white flowers add to this ideal accent plant.

Max. Elev: 6,000 ft. **YGS** #2
Mature Ht: 3' & Spd: 3' #5

YUCCA, RED ***Hesperaloe parviflora***

2010 Plant Select® Moderate grower with rose-coral flower stalks 4 to 5' tall. Effective for rock gardens, landscape accent, or in containers. Flowers attract hummingbirds. Likes good drainage.

Max. Elev: 6,000 ft. **YRE** #1
Mature Ht: 2-3' & Spd: 3-4' #3
#5

"I want to grow my own food but I can't find Bacon Seeds."

CONIFERS / EVERGREENS

In the ongoing search for the best plants, some sizes and prices may vary throughout the season.

NOTE: ADDITIONAL SIZES AND PRICES ARE ON PAGE **174**

ARBORVITAE, 'DANICA' ***Thuja occidentalis 'Danica'***

Versatile, dwarf globe-shaped evergreen with flattened sprays of emerald-green. Excellent for borders, foundation planting, specimen or low hedges. Zones 4-7.

Max. Elev: 7,500 ft.	**ARD**	8-12"	#2
Mature Ht: 2' & Spd: 2'			#5

ARBORVITAE, DEGROOT'S SPIRE
Thuja occidentalis 'Degroot's Spire'

Tall and narrow evergreen with rich green foliage taking on a purple cast in winter. Slow grower that tolerates shearing for a more tailored column. Reliable for matched pairs or lined up as a screen hedge.

Max. Elev: 9,000 ft.	**ADS**	3'	#5
Mature Ht: 10' & Spd: 3'		4'	#10

ARBORVITAE, EMERALD ***Thuja occidentalis 'Emerald'***

Narrow pyramidal with dense branching. Holds emerald green color throughout winter. Excellent hedge or screen.

Max. Elev: 5,500 ft.	**AEM**	3-4'	#5
Mature Ht: 15' & Spd: 4'		4-5'	#7
		6-7'	#10

ARBORVITAE, GOLDEN ***Thuja orientalis 'Aurea Nana'***

Dense, oval-shaped upright. Soft green needles tipped in bright gold. Good accent plant.

Max. Elev: 5,500 ft.	**AGO**	15-18"	#5
Mature Ht: 4' & Spd: 4'			

ARBORVITAE, GREEN GIANT ***Thuja x plicata 'Green Giant'***

Fine evergreen for screening and specimen use. Uniformly conical performing well in a variety of settings. Durable tree, strong rooted and virtually disease free. Fast-grower that responds well to shearing. Single leader is less susceptable to snow damage than other arborvitaes.

Max. Elev: 6,000 ft.	**AGG**	3-4'	#7
Mature Ht: 25' & Spd: 10'		5-6'	#10
		6-7'	#20

ARBORVITAE, HETZ MIDGET
Thuja occidentalis 'Hetz Midget'

This natural-forming globe evergreen is excellent for patio containers or formal gardens. Dark green, scale-like foliage.

Max. Elev: 5,500 ft.	**AHM**	8-12"	#2
Mature Ht: 3' & Spd: 3'		12-15"	#5

ARBORVITAE, LITTLE GIANT
Thuja occidentalis 'Little Giant'

Slow grower, globe-shaped with rich green foliage.

Max. Elev: 5,500 ft.	**ALG**		#2
Mature Ht: 6' & Spd: 6'			#5

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

ARBORVITAE, NORTH POLE®
Thuja occidentalis 'Art Boe' **PP22174**

A Proven Winners® Color Choice® Selection

Its name promotes its hardiness; this narrow form of arborvitae holds its dark green color all winter and is highly resistant to winter burn. Narrower than 'Emerald Green' and the one Santa Claus elects to decorate at Christmas time.
Max. Elev: 9,000 ft. **ANP** #5
Mature Ht: 10-15' & Spd: 4-5' #10

ARBORVITAE, TIGHT SQUEEZE

New for Year 2026

Thuja plicata 'Green Sport'

A new upright, neatly conical soft evergreen selection for hedges and privacy screens for limited spaces. Prefers moist and well-drained soils with partial sun exposure.
Max. Elev: 6,000 ft. **ATS** #10
Mature Ht: 12' & Spd: 5'

CEDAR, BLUE ATLAS ***Cedrus atlantica 'Glauca'***

An exceptionally blue pyramidal conifer with strong fine ascending branches, short tufts of blue-gray needles and a semi-open appearance. Gorgeous addition to conifer gardens and in large containers. Fun to decorate for the holidays; makes a unique living Christmas tree.
Max. Elev: 6,000 ft. **BAC** #15
Mature Ht: 40' & Spd: 30'

CEDAR, BLUE ATLAS WEEPING
Cedrus atlantica 'Glauca Pendula'

An elegant weeping form of Blue Atlas Cedar with steel blue, thick, short needles on pendulous branches draping off a stout grey trunk. Best if planted out of hot full sun exposure and winter winds. Can be staked/trained into any very interesting shape.
Max. Elev: 6,000 ft. **WCE** (Hook) #15
Mature Ht: 15' & Spd: 10' **WCS** (Serpentine) #15

CYPRESS, ARIZONA ***Cupressus arizonica 'Blue Ice'***

This drought tolerant evergreen has intense blue foliage on mahogany-red branches; exfoliating bark, upright habit and very pleasant scent. Introduced from New Zealand, it prefers hot dry conditions, lots of sun and very well drained soil. A striking, vertical blue conifer in xeric gardens.
Max. Elev: 6,000 ft. **ACB** #20
Mature Ht: 20' & Spd: 10'

CYPRESS, ARIZONA 'CRYSTAL FROST™'
Hesperocyparis arizonica 'Fandango'

2024 Plant Select®

This southwestern native conifer tree is resilient to extreme conditions: heat tolerant, drought tolerant and cold hardy to -20° F in Colorado. An elegant upright pyramidal habit with stunning blue foliage that prefers sandy, gravelly, well-drained loamy soils.
Max. Elev: 6,200 ft. **ACE** #10
Mature Ht: 25' & Spd: 15'

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

FIR, CONCOLOR / WHITE FIR ***Abies concolor***

"Fir sure dudes!" Pyramidal evergreen with soft, blue-green needles. Grows best when protected.

Max. Elev: 10,000 ft. **CCF** *6' B&B
Mature Ht: 50' & Spd: 20-25' *8' B&B
*10' B&B

FIR, DOUGLAS

New for Year 2026 ***Pseudotsuga menziesii***

A broadly pyramidal evergreen tree that likes partial to full sun, moderate water and well-drained soils. Soft green needles. Thrives at higher elevations but grows very well down to 6,000 ft.

Max. Elev: 8,000 ft. **DFI** *8' B&B
Mature Ht: 50-60' & Spd: 20-25'

PINE, AUSTRIAN ***Pinus nigra***

ONE OF OUR TOP SELLERS!!

Darkest green pine. Heavy, long needles, 2 per bundle. Vigorous, dense grower. Will tolerate heat and cold. Withstands over watering, transplanting, and planting in newly sodded areas much better than Ponderosa Pine.

Max. Elev: 7,500 ft. **AUS** 5-6' #20
Mature Ht: 50' & Spd: 20' *6' B&B
*8' B&B
*10' B&B

PINE, AUSTRIAN 'BAMBINO'

New for Year 2026 ***Pinus nigra 'Gaelle Bregeon'***

A specialty conifer with compact, tight, dense green needles. Great for small gardens, conifers beds and a wonderful companion to Japanese maples.

Max. Elev: 7,000 ft. **PBA** #3
Mature Ht: 3' & Spd: 2-3'

PINE, AUSTRIAN, FRANK ***Pinus nigra 'Frank'***

Here we have another dense, as in mass not stupid, columnar pine for that tight upright look, maturing at 10 feet and only two feet wide. A great alternative to upright junipers. As with any columnar pine, tying up branches in the winter is recommended to prevent snow load damage.

Max. Elev: 7,500 ft. **PFR** 4' #15
Mature Ht: 10' & Spd: 2' 5-6' #20

PINE, AUSTRIAN 'HORNIBROOKIANA'

New for Year 2026 ***Pinus nigra 'Hornibrookiana'***

This slow-growing, compact rounded pine with long dark green needles is an excellent choice for conifer gardens and landscapes in need of a hardy evergreen.

Max. Elev: 7,000 ft. **HOR** #10
Mature Ht: 3' & Spd: 2-3'

PINE, AUSTRIAN, 'OREGON GREEN'

Pinus nigra 'Oregon Green'

A new cultivar of Austrian pine, this is a real show stopper! It matures slowly and likes drier conditions once established. Oregon Green holds it's stiff green needles longer and birds love to nest on it's open branches.

Max. Elev: 7,500 ft. **OGA** #15
Mature Ht: 20' & Spd: 15' #20

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

PINE, BOSNIAN ***Pinus heldreichii var. leucodermis***

This tree is slow growing (3-6" a year). The needles are stiff, dark green bristles that hold on for 5-6 years. Salt tolerant. Extensively used in Europe.

Max. Elev: 8,000 ft. **BOP** 3-4' #15
Mature Ht: 30' & Spd: 15' 4-5' #20
*6' B&B

PINE, BOSNIAN 'COMPACT GEM'
Pinus heldreichii 'Compact Gem'

An excellent slow-growing Bosnian with dark, black green needles and super compact narrow habit. It's no precious stone, but it will sparkle in any garden.

Max. Elev: 7,500 ft. **BCG** 3-4' #15
Mature Ht: 10' & Spd: 5' 4-5 #20

PINE, BOSNIAN, 'EMERALD ARROW'
Pinus heldreichii 'Emerald Arrow'

A compact narrower form of Bosnian pine with dark green needles and silver bark. This low maintenance conifer is salt tolerant and disease resistant.

Max. Elev: 7,500 ft. **BEM** 4-5' #20
Mature Ht: 25' & Spd: 12' *6' B&B

PINE, BOSNIAN, 'IRISH BELL'
Pinus heldreichii 'Irish Bell'

This very compact conifer grows as wide as tall resembling a bell shape. Dark green stiff needles on silvery white branches make this pine a very attractive specimen. Known to be salt tolerant and disease resistant. Hardy.

Max. Elev: 7,500 ft. **BIB** #15
Mature Ht: 10' & Spd: 9'

PINE, BOSNIAN, 'MINT TRUFFLE'
Pinus heldreichii 'Mint Truffle'

This new Bosnian cultivar has tightly held 'minty' green needles on inward curved branches giving the plant a neat teardrop shape. Deer resistant and salt tolerant.

Max. Elev: 7,500 ft. **BMT** 3-4' #15
Mature Ht: 15' & Spd: 6' 4-5' #20

PINE, FOXTAIL / BRISTLECONE - Nursery Grown
Pinus aristata

Hardy, very drought-tolerant native pine. Holds its needles longer than most pines. White speckles on the needles are a secreted resin. These are nursery grown specimens.

Max. Elev: 10,000+ ft. **FNG** *6' B&B
Mature Ht: 30' & Spd: 15'

PINE, FOXTAIL, JOE'S BESS
Pinus longaeva 'Joe's Bess'

This dazzling variety of Great Basin Bristlecone Pine (the world's oldest known living trees) has a compact, uniform conical habit that rarely needs pruning. Dense bundles of bluish-green needles on ascending branches hide the stems and buds until new growth emerges in late spring. Conifer plantsmen Joe Reis named this outstanding little evergreen to honor his wife Bess.

Max. Elev: 7,500 ft. **FJB** #15
Mature Ht: 6-8' & Spd: 4'

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

PINE, FOXTAIL / SHERWOOD COMPACT
Pinus aristata 'Sherwood Compact'
One of the smallest dwarf pines. Slow-growing, 1-3" a year, in a pyramidal form. White resin on the needles create an additional interest. Great choice for rock gardens, water features, or locations needing a conversation piece.
Max. Elev: 9,000+ ft. **FSC** #10
Mature Ht: 10' & Spd: 4'

PINE, HILLSIDE CREEPER
Pinus sylvestris 'Hillside Creeper'
Boo! A 'scary' Scotch pine with undulating, prostrate branching and long, green needles turning light green to yellow in winter. Great in rock gardens, water features, and haunted landscapes.
Max. Elev: 6,500 ft. **PHC** 18-24"spd #3
Mature Ht: 3' & Spd: 8' 24-30"spd #6
36-42"spd #15

PINE, JACK 'UNCLE FOGY' ***Pinus banksiana 'Uncle Fogy'***
A pendulous, undulating form of Jack Pine with heavily resinous buds. Forms a bizarrely attractive plant roughly as wide as tall. Nice as an accent plant or used in the natural garden as a foundation plant.
Max. Elev: 7,500 ft. **UFP** #3
Mature Ht: 15' & Spd: 15' #6
#15

PINE, LACEBARK ***Pinus bungeana***
A handsome, upright conifer with dark green long needles that develops exfoliating patches of olive green, white, light purple and silvery brown smooth bark with age. Absolutely stunning mature specimens at DBG in their Birds and Bees pollinator garden. The mature size is highly dependent on its slow growth rate and cultural conditions, but this evergreen tree is so worth it.
Max. Elev: 6,000 ft. **LAC** #15
Mature Ht: 30' & Spd: 20'

PINE, MUGO ***Pinus mugo pumilo***
Mushroom-shaped, bright green pine. Hardy and rugged. Height and spread vary with cultural practices.
Max. Elev: 9,000 ft. **MUG** 9-12"spd #2
12-18"spd #5
18-24"spd #10

PINE, MUGO, BIG TUNA ***Pinus mugo 'Big Tuna'***
This is a hardy selection with a uniquely dense, compact, upright habit. Outside Iseli Nursery's Oregon sales office is one of the originals; 10' high, 9' spread and probably 25 years old. In Colorado I'm guessing two thirds of that.
Max. Elev: 7,500 ft. **MBT** 15-18" #3
Mature Ht: 6' & Spd: 5' 15-24" #6
24-30" #10

PINE, MUGO, FASTIGIATE ***Pinus mugo 'Fastigiata'***
The stiff upright branches on this narrowly conical pine are held closely to the trunk so it resists snow damage. Rich dark green needles and slow growth habit.
Max. Elev: 7,500 ft. **MFA** #15
Mature Ht: 10' & Spd: 3'

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

PINE, MUGO, LA CABANA ***Pinus mugo 'La Cabana'***

This super hardy mugo pine has thick green needles and fat resinous buds on a sturdy broad pyramidal form. Makes a great low windbreak or privacy hedge. An excellent stout foundation plant or evergreen specimen for smaller yards.

Max. Elev: 8,000 ft **MCA** #15
Mature Ht: 15' & Spd: 12' #20

PINE, MUGO, MOPS ***Pinus mugo 'Mops'***

Formal, densely-rounded form of Mugo Pine. Tight green needles makes this a nice selection. Color can go from light green to yellowish in the winter.

Max. Elev: 7,500 ft **MMO** 9-12"spd #3
Mature Ht: 5' & Spd: 6' 12-15"spd #6
18-24"spd #10

PINE, MUGO, PALOUSE ***Pinus mugo palouse***

A more natural looking dwarf mugo with long green needles that hold their color well into winter. Its name refers to the beautiful fertile hills and short grass prairie region of eastern Washington called "The Palouse".

Max. Elev: 8,000 ft. **PMP** #3
Mature Ht: 3-4' & Spd: 3-4' #6

PINE, MUGO, PESTO® ***Pinus mugo 'Pesto'® 'INDom2'***

A new addition to the TRUDwarf® collection, this very dwarf conifer has a unique and pleasing prostrate spreading habit with vibrant green short needles and contrasting dark purple-black buds. Easy to maintain with little to no pruning required. Just add warm al dente pasta and garlic bread…

Max. Elev: 8,000 ft **MPE** #3
Mature Ht: 10" & Spd: 18" #6
#10

PINE, MUGO, SLOWMOUND ***Pinus mugo 'Slowmound'***

ONE OF OUR TOP SELLERS!!

True Dwarf. Dense, mushroom-shaped, dark green pine. Very hardy. Again, this mugo stays dwarf!

Max. Elev: 7,500 ft **MSL** 9-12"spd #3
Mature Ht: 3' & Spd: 4' 12-15"spd #6
18-24"spd #10

PINE, MUGO, TANNENBAUM ***Pinus mugo 'Tannenbaum'***

"Tough as nails" dwarf conifer with compact, pyramidal form. Excellent choice for a "living Christmas tree", hence its name. *"Oh Tannenbaum..."*

Max. Elev: 7,500 ft. **MTA** 3-4' #15
Mature Ht: 15' & Spd: 6' 4-5' #20

PINE, MUGO, VALLEY CUSHION ***Pinus mugo 'Valley Cushion'***

Light green short needles on a tight globe shaped conifer. This is an excellent plant for rock gardens or bonsai. Growth rate is only 2" a year; in twenty years it will be two feet tall and three feet wide and hardy to -50º to -40º F. Ideal for garden railroads.

Max. Elev: 8,500 ft. **MVC** #3
Mature Ht: 2-3' & Spd: 3' #6
#10

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

PINE, MUGO, WHITE BUD ***Pinus mugo 'White Bud'***
True Dwarf. Low, mounding habit and dark green color make this a perfect dwarf conifer for many situations. No need for candle pruning to maintain its small stature. The name comes from its waxy winter bud coating that practically glows against the dark green winter foliage.
Max. Elev: 9,000 ft. **MWB** 14"spd #3
Mature Ht: 3' & Spd: 4' 18"spd #6

PINE, MUGO, WINTER SUN ***Pinus mugo 'Wintersonne'***
This extremely hardy, compact upright mugo is magical. Medium green needles in summer turn a vibrant electric yellow when temperatures cool in autumn. Holds its beautiful golden cast through winter before returning to its rich green color in spring. Quite the eye catcher!
Max. Elev: 10,000 ft. **MWS** #3
Mature Ht: 6' & Spd: 4' #6

PINE, PIÑON—Collected ***Pinus edulis***
Native pine, very compact, slow grower. Dark green and smells reallllllllllllll goooooood!
Max. Elev: 7,500 ft. **PIN** *6' B&B
Mature Ht: 25' & Spd: 15' *8' B&B

PINE, PIÑON, SINGLELEAF ***Pinus monophylla***
While this piñon resembles our native Colorado piñon, it has bluer needles and as the name implies, they are in singles. The cones emerge green 3" long and 2" across maturing to brown. A very tough xeric tree once established. One of our oldest native trees and the Nevada State Tree.
Max. Elev: 6,000 ft. **PSL** 3' #5
Mature Ht: 8-15' & Spd: 4-8' 4' #10

PINE, PONDEROSA—Collected ***Pinus ponderosa***
Bark is dark red or dark brown. Branches not crowded. Branchlets are stout, thick.
Max. Elev: 9,000 ft. **PON** *6' B&B
Mature Ht: 40' & Spd: 25' *8' B&B
*10' B&B
*12' B&B

PINE, SCOTCH, DWARF ***Pinus sylvestris 'Glauca Nana'***
Attractive dwarf variety with rich, blue-green needles. Dense, horizontal branching. Slow grower. Rounded habit.
Max. Elev: 8,000 ft. **DSC** 15"spd #3
Mature Ht: 3' & Spd: 3' 15-18"spd #6

PINE, SOUTHWESTERN WHITE ***Pinus strobiformis***
Back for Year 2026
This attractive evergreen has bundles of 5 blue-green needles that contrast with the silvery-gray bark of the trunk. Develops large, ornamental cones. Soft-textured pine makes a beautiful specimen or tough privacy screen.
Max. Elev: 9,000 ft. **SWP** *6' B&B
Mature Ht: 40-50' & Spd: 20-30'

PINE, TANYOSHO ***Pinus densiflora 'Umbraculifera'***
Top-grafted to allow branches to form an umbrella-like head. Bright green needles.
Max. Elev: 7,500 ft. **TAN** 18-24"spd #5
Mature Ht: 10' & Spd: 18'

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

PINE, THUNDERHEAD

New for Year 2026

Pinus thunbergii 'Thunderhead'

An elegant mounding conifer with glossy green needles and contrasting white new growth candles makes this conifer a must have.

Max. Elev: 7,000 ft. **THP** #15
Mature Ht: 6' & Spd: 8'

PINE, VANDERWOLF'S PYRAMID / LIMBER

Pinus flexilis 'Vanderwolf's Pyramid'

This Limber Pine has distinctive, soft, bluish green needles. Densely branched, pyramidal form. Great specimen.

Max. Elev: 6,000 ft. **PVP** 4-5' #15
Mature Ht: 20' & Spd: 10' 5-6' #20
*6' B&B
*8' B&B

SPRUCE, ALBERTA, DWARF ***Picea glauca 'Conica'***

ONE OF OUR TOP SELLERS!!

A very dense, dwarf, cone-shaped spruce. Dark green. Needs some protection from full sun and hot winds.

Max. Elev: 9,000 ft. **ALB** 12-15" #1
Mature Ht: 6' & Spd: 6' 15-18" #2
24-30" #3
30-36" #5
40-48" #7

SPRUCE, BABY BLUE ***Picea pungens 'Baby Blue'***

Lose your eyes when asking for this stunning silvery-blue pyramidal growing spruce. It is semi dwarf growing to 25-30' tall and 10-15' across, a great choice accent plant or for smaller yards. Prefers a sunny location to show off its true color. Extremely cold hardy. A seedling selection of Colorado Blue Spruce.

Max. Elev: 9,000 ft. **SBA** #15
Mature Ht: 25-30' & Spd: 10-15' #20
*6' B&B

SPRUCE, BABY BLUE EYES ***Picea pungens 'Baby Blue Eyes'***

Upright, semi-dwarf of sky gray color. More blue in light shade. A grafted selection of Colorado Blue Spruce.

Max. Elev: 8,000 ft. **SBB** 4' #15
Mature Ht: 20-25' & Spd: 8-12' 5' #20
*6' B&B
*8' B&B

SPRUCE, BAKERI ***Picea pungens 'Bakeri'***

Deep blue, pyramidal form. Adaptable to various soils and conditions. More drought tolerant than most spruce.

Max. Elev: 8,000 ft. **BSP** 4' #15
Mature Ht: 30' & Spd: 10' 5-6' #20
*6' B&B
*8' B&B

SPRUCE, BIRD'S NEST ***Picea abies 'Nidiformis'***

A dense, spreading, nest-like mound of grayish green foliage. Great accent plant.

Max. Elev: 6,000 ft. **NES** 8-12"spd #2
Mature Ht: 3' & Spd: 6' 12"spd #5

"There is nothing wrong with having a tree as a friend."

– Bob Ross

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

SPRUCE, BIRD'S NEST, ELEGANS
Picea abies 'Elegans'

Rounded, low, dome-shaped. After 15 years of growth this variety reached 3' tall and 6½' wide.

Max. Elev: 6,000 ft.	**SNE**	12"spd	#3
Mature Ht: 3' & Spd: 8'			

SPRUCE, BLACK HILLS ***Picea glauca 'Densata'***

From the darkest depths of Mordor came a spruce so fair. This Black Hills Spruce will brighten any landscape. Pyramidal evergreen with dense, bright green needles that mature to a stately blue-green color. Very hardy and slow-growing.

Max. Elev: 10,000 ft.	**SBH**	5'	#20
Mature Ht: 50' & Spd: 25'			

SPRUCE, BLUE PROSTRATA
Picea pungens glauca prostrata

A beautiful blue, spreading form of spruce that grows upward and out from the ground.

Max. Elev: 8,000 ft.	**CBP**		#3
Mature Ht: 1' & Spd: 8'		18-24"spd.	#6

SPRUCE, COLORADO ***Picea pungens***

ONE OF OUR TOP SELLERS!! **Our Colorado State Tree!**

The most popular of all evergreens, with its more regular, sometimes perfect, conical shape. Green, blue or silver.
Larger B&B Spruce now available up to 20 ft.!

Max. Elev: 9,500 ft.	**CBS**	*6'	B&B
Mature Ht: 60' & Spd: 25'		*8'	B&B
		*10'	B&B
		*12'	B&B
		*14'	B&B
		*20'	B&B

SPRUCE, COLORADO BONNY BLUE
Picea pungens 'Bonny Blue'

This is a pyramidal spruce with elegant silvery-blue needles and large upright stout branching, making it a great choice for specimen or screening purposes.
Perfect for containers!

Max. Elev: 9,000 ft.	**SBO**	4'	#15
Mature Ht: 40' & Spd: 25'		5'	#20

SPRUCE, COLORADO 'HERMANN NAUE'
Picea pungens 'Hermann Naue'

A dwarf evergreen with a dense flattened globose form. Foliage is grey-blue with numerous red cones emerging in spring turning to a light brown. Prefers full sun and moist well-drained soil.

Max. Elev: 9,000 ft.	**SHN**		#6
Mature Ht: 4' & Spd: 4'			

SPRUCE, FASTIGIATE BLUE ***Picea pungens 'Fastigiata'***

This very narrow upright has a striking blue color.

Max. Elev: 8,000 ft.	**FSP**	3-4'	#15
Mature Ht: 25' & Spd: 6'		4-5'	#20
		*6'	B&B
		*8'	B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

SPRUCE, FAT ALBERT ***Picea pungens glauca 'Fat Albert'***

Dense branching creates a full, pyramidal form. Rich blue coloring to the needles, with ascending branch tips(Grafted).

Max. Elev: 8,000 ft. **FAT** 3-4' #15
Mature Ht: 40' & Spd: 25' 4-5' #20
(Can grow 1' a year) *6' B&B
*8' B&B

SPRUCE, GLOBE ***Picea pungens 'Globosa'***

ONE OF OUR TOP SELLERS!!

Compact, rounded dwarf spruce of good blue color. Slow-grower, densely branched. *World renowned!!*

Max. Elev: 8,000 ft. **GSP** 15-18"spd #3
Mature Ht: 6' & Spd: 8' 18-24"spd #6
24-30"spd #10

SPRUCE, HEXENBESEN JASPER
Picea englemanii 'Hexenbesen Jasper'

A miniature globose spruce related to our native Engleman spruce with softer silvery blue-green needles. Mr. Jasper thrives in cooler, high elevations making it a great addition to alpine gardens and north/east facing conifer gardens.

Max. Elev: 9,000 ft. **PHJ** #3
Mature Ht: 3' & Spd: 3' #6
#10

SPRUCE, MOONSTONE®
Picea pungens 'Moonstone'® ('INHWB U.S. PP34321)

An exclusive improvement of the popular globe blue spruce, this gem of a dwarf conifer maintains a consistent, rounded form of vivid blue foliage. Promised to dazzle and shine in any large or small landscape.

Max. Elev: 9,000 ft. **MOS** #3
Mature Ht: 2' & Spd: 3' #6
#10

SPRUCE, MONTY®
Picea pungens Monty® ('INMoHoop' PP34,883)

A wonderful cross of Montgomery and Hoopsi spruce, this new classic conical dwarf spruce is versatile specimen with the bluest foliage. Strong central leader, thin long needles and compact habit. It's the full Monty!

Max. Elev: 9,000 ft. **MON** #6
Mature Ht: 8' & Spd: 6' #10

SPRUCE, MRS. CESARINI ***Picea pungens 'Mrs. Cesarini'***

This slow growing cultivar of dwarf spruce has very attractive grey-green foliage that emerges bright green, prefers morning sun. Deer will leave this nice lady alone as well; add her to your conifer garden today.

Max. Elev: 10,000 ft. **MCS** #3
Mature Ht: 4-5' & Spd: 4-5' #6

SPRUCE, NORTH STAR ***Picea glauca 'North Star'***

A green compact pyramidal spruce hardy to higher elevations and partial sun locations. Its moderate growth rate and mature size of 15 feet make it a great conifer for Colorado mountains.

Max. Elev: 9,000 ft. **SNS** #6
Mature Ht: 15' & Spd: 7' 42-48" #10

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

SPRUCE, NORWAY, DWARF ***Picea abies 'Pumila'***

Attractive, blue-green needles on dense branches adorn this globe-shaped evergreen. Slow growing.

Max. Elev: 6,000 ft.	**DNO**	12"spd	#2
Mature Ht: 4' & Spd: 6'		15"spd	#5

SPRUCE, NORWAY, FASTIGIATE

ONE OF OUR TOP SELLERS!! ***Picea abies 'Cupressina'***

A beautiful, narrow, fast-growing spruce with short, dark green needles. Known to withstand heavy snow loads better than most fastigiate spruce. Best to protect from hot afternoon sun and damaging winds. *"Ah! A nice tree–don'tchaknow?"*

Max. Elev: 6,500 ft.	**FNS**	4-5'	#15
Mature Ht: 25' & Spd: 4'		5-6'	#20
		*6'	B&B
		*8'	B&B

SPRUCE, NORWAY, LITTLE GEM

Picea abies 'Little Gem'

This slow growing dense flat-topped evergreen with short rich green needles sparkles in the landscape. As with my Norwegian cousins, I prefer not to be in Colorado's hot afternoon sun. Perfect for shady spots.

Max. Elev: 8,000 ft.	**NLG**	#3
Mature Ht: 2' & Spd: 2'		

SPRUCE, NORWAY, 'PUSCH' ***Picea abies 'Pusch'***

Bright red cones emerge from this unique slow-growing dwarf conifer in spring. Originated as a witch's broom of an Acrocona spruce in the former East Germany, 'Pusch' takes on a more upright broad shape with age and its' cones turn a distinguished brown as well. Thrives in partial sun and well-drained, moist soils.

Max. Elev: 9,000 ft.	**SNP**	#6
Mature Ht: 2' & Spd: 2'		

SPRUCE, NORWAY, SHERWOOD COMPACT

Picea abies 'Sherwood Compact'

A narrow, pyramidal spruce with upward branching and light-to-medium green, short needles. This is a lovely, formal, slow-growing evergreen to enhance any forest; *perhaps Robin Hood will visit...*

Max. Elev: 7,500 ft.	**SCN**	#6
Mature Ht: 12' & Spd: 8'		#10

SPRUCE, NORWAY, WEEPING ***Picea abies 'Pendula'***

Dark green needles, weeping branches make this a great choice for cascading over rocks and walls. Very hardy.

Max. Elev: 8,000 ft.	**WNS**	#6
Mature Ht: 8' & Spd: 10'		#10

SPRUCE, R.H. MONTGOMERY

Picea pungens 'R.H. Montgomery'

Dwarf, slow-growing, pyramidal spruce. Outstanding silvery blue foliage.

Max. Elev: 8,000 ft	**RHM**	15-18"spd	#3
Mature Ht: 8-10' & Spd: 6-8'		18-24"spd	#6
		24"spd	#10

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

SPRUCE, SESTER DWARF ***Picea pungens 'Sester Dwarf'***

Uncle Sester says... This dwarf Colorado spruce has outstanding blue color, slow growth rate and a conical compact form making it a great conifer for any landscape. Originally found as a seedling by Gordon Sester of Sester Farms in Oregon.

Max. Elev: 9,000 ft. **SSD** 24-30" #6
Mature Ht: 12' & Spd: 6' 30-36" #10

SPRUCE, 'ST. MARY'S BROOM' ***Picea glauca 'St. Mary's Broom'***

The most dwarf globe blue spruce out there!! Perfect for small yards, rock gardens or containers.

Max. Elev: 9,000 ft. **SMB** #3
Mature Ht: 2' & Spd: 3'

SPRUCE, WALDBRUNN ***Picea pungens 'Waldbrunn'***

New for Year 2026

Slow-growing, spreading bluish-green conifer starts out rounded but matures to a more pyramidal form. Its' small, sturdy stature makes a big statement in any landscape, rock garden or natural water feature. Please let us know how this curious conifer grows for you!

Max. Elev: 10,000 ft. **SPW** #10
Mature Ht: 5-6' & Spd: 8'

SPRUCE, WHITE 'BIG BERTA' ***Picea glauca 'Big Berta'***

While this white spruce may resemble the Dwarf Alberta Spruce, the needles are longer and it is a broader faster growing and slightly more open form. Give Big Berta a try…she won't disappoint you.

Max. Elev: 9,000 ft. **BBS** #6
Mature Ht: 12-15' & Spd: 6-8' #10

SPRUCE, WHITE WEEPING ***Picea glauca 'Pendula'***

2012 Plant Select® A formal narrow weeping white spruce with soft grey-green needles. Its pendulous strongly held branches shed snow easily in winter. An excellent tall evergreen for smaller yards.

Max. Elev: 9,000 ft. **WWS** #6
Mature Ht: 25' & Spd: 4' #10
#20

YEW, DARK GREEN SPREADER ***Taxus x media 'Dark Green Spreader'***

A densely-branched yew with very dark green foliage that grows slower and is more compact than the densiformis variety. An excellent choice for foundation planting and protected areas.

Max. Elev: 6,000 ft.
Mature Ht: 4' & Spd: 6' **YDG** 24" #5

YEW, DENSE SPREADING ***Taxus x media 'Densiformis'***

Densely branched, dark green shrub. Slow-growing, rounded form makes an excellent hedge or foundation plant. Shears well. Requires well-drained soil.

Max. Elev: 6,000 ft. **YEW** 15" #2
Mature Ht: 4' & Spd: 8' 24" #5
36" #10

* FOR FURTHER SIZES & PRICES - SEE PAGES 174

YEW, DENSE TAUTON ***Taxus x media 'Tautonii'***

Similar to the 'Densiformis', except with a nice yellow cast to the outer portion of the plant. It is said to be more resistant to winter burn and tolerates summer heat better.
Max. Elev: 7,000 ft.
Mature Ht: 4' & Spd: 6' **YET** #5

YEW, EMERALD SPREADER™ ***Taxus cuspidata 'Monloo'***

Disease-resistant, slow-growing groundcover offering excellent, compact shape and form. Dark green foliage with bright red berries and unique, horizontal branching.
Max. Elev: 6,000 ft. **YES** 12"spd #2

FRUIT TREES

NOTE: ADDITIONAL SIZES AND PRICES ARE ON PAGES **168-173**

Pollination of Fruit Trees

Apples—Overall, apple trees need another variety to be productive. That variety needs to be blooming at the same time and be within a ¼ mile (the distance a bee can fly) of the apple tree. Generally speaking, in the Denver Metro area there are enough of both apple and crabapple trees that pollination is not usually a problem. But, if you want to be safe, plant two varieties within 100' of each other.

Apricot—Use two varieties, or in most cases, Nanking Cherry will do the job.

Sweet Cherries—Use two varieties, sour cherries will work as a pollinator.

Sour Cherries—Self-fertile.

Peaches—Self-fertile.

Pears—Most need another variety for better yield. Ornamental Pears work as well.

Plums—Most need two varieties. American plum or Western sand cherry will pollinate as well.

APPLE, '3 in 1' – ESPALIER ***Malus sp.***

Trained on a 4' x 4' trellis, each branch is a different apple variety: Red Delicious, Fuji and Gala.

Max. Elev: 7,000 ft. **AES** 1" #10

APPLE, HONEYCRISP™ (Semi-Dwarf) ***Malus 'Honeycrisp'***

This apple's name says it all; it is honey sweet with a touch of crispness. If you're worried about it's cold hardiness, Honeycrisp™ Apple is the Minnesota state fruit and is even promoted in Nova Scotia!

Max. Elev: 8,000 ft. **AHC** 4-6' #5
Mature Ht: 15' & Spd: 12' ¾" #7
1" #15
*2" B&B

APPLE, RED DELICIOUS (Semi-Dwarf) ***Malus x 'Delicious'***

Red, waxy skin. Firm, crisp and juicy fruit. Keeps well.

Max. Elev: 8,500 ft. **RED** 1" #15
Mature Ht: 15' & Spd: 12'

APRICOT, CHINESE ***Prunus armeniaca 'Chinese'***

Cold-and-frost-hardy to withstand the late frosts we get in this area. Fruit is medium in size and sweet. Self-fertile.

Max. Elev: 6,000 ft. **ACH** ¾" #7
Mature Ht: 15' & Spd: 10' 1" #15

CHERRY, BALI ***Prunus 'Bali'***

From Edmonton, Alberta, this tree is hardy! The buds are hardy to -43° F and the tree can survive down to -54°F. The 1" bright red fruits are semi-sweet. Self-fertile. A good, edible cherry for our mountain landscapes and great for the Denver area, too.

Max. Elev: 9,000 ft. **CBA** 1" #15
Mature Ht: 10' & Spd: 8' *2" B&B

CHERRY, BING ***Prunus avium 'Bing'***

Large, red fruit with rich, firm flesh. Excellent for eating, canning and preserves. Ripens late summer. Hardy, deciduous tree. This sweet cherry needs a pollinator.

Max. Elev: 7,500 ft. **BIN** 6' #7
Mature Ht: 15' & Spd: 12' 1" #15

CHERRY, COMPACT STELLA ***Prunus avium sp***

The large, dark red, heart-shaped fruit is sweet and juicy. Stella is self-fertile and is a good pollinator for other varieties. Ripens in mid-July, bears at a young age.

Max. Elev: 6,500 ft. **CCS** 1" #15
Mature Ht: 10' & Spd: 8'

CHERRY, LAPINS ***Prunus avium 'Lapins'***

Large fruit, so large one cherry is a mouthful. Sweet, juicy, deep purple cherries that make great snacks. Self-fertile which is unusual for a sweet cherry.

Max. Elev: 6,500 ft. **LAP** 1" #15
Mature Ht: 15' & Spd: 10'

CHERRY, MONTMORENCY
Prunus cerasus 'Montmorency'

Hardy tree that bears young. Fruit is dark red with yellow flesh. Late June or early July. Sour pie cherry, good for canning. Self-pollinating, and a good pollinator.

Max. Elev: 7,500 ft. **MCH** #5
Mature Ht: 15' & Spd: 10' 6' #7
1" #15
*2" B&B

PEACH, ELBERTA ***Prunus persica 'Elberta'***

Large, yellow blushed with red freestone, just like the ones you see in the grocery stores. **Zone 5**.

Max. Elev: 6,500 ft. **ELB** 6' #7
Mature Ht: 15' & Spd: 12' 1" #15
Limited Quantity! 2" B&B

PEACH, REDHAVEN ***Prunus persica 'Redhaven'***

One of the best peaches for the Front Range. Large, red-blush yellow skin with sweet yellow flesh. Freestone. Ready to eat mid-August.

Max. Elev: 6,500 ft. **PRH** 6' #7
Mature Ht: 15' & Spd: 12' 1¼" #15

PEACH, RELIANCE ***Prunus persica 'Reliance'***

Even after a -20° F. freeze, Reliance still will bear peaches. It is the hardiest yellow-fleshed, freestone peach. If you want a consistent crop of peaches, rely on Reliance!

Max. Elev: 7,500 ft. **REP** #7
Mature Ht: 15' & Spd: 12' 1" #15
Limited Quantity! 2" B&B

PEAR, '4 in 1', – ESPALIER ***Pyrus sp.***

Trained on a 5' x 5' trellis, each branch is a different pear variety: Comice, Red Anjou, Bartlett, and Red Bartlett.

Max. Elev: 6,000 ft. **P4E15** 1" #15

PEAR, BARTLETT ***Pyrus x 'Bartlett'***
Very juicy, large fruit with blush. Bears fruit at a young age. Crop ripens in September.
Max. Elev: 7,500 ft. **BPE** 6' #7
Mature Ht: 15' & Spd: 10' 1" #15

PEAR, SUMMERCRISP ***Pyrus x 'Summercrisp'***
Introduced by the Univ. of Minnesota, this improved Bartlett is hardier than Bartlett by one zone and fireblight free. The fruit is large, sweet and crisp, similar to an Asian Pear. Harvest in August, stores up to two months.
Max. Elev: 8,000 ft.
Mature Ht: 15' & Spd: 15' **SCP** 1" #15
Limited Quantity! *2" B&B

PLUM, MOUNT ROYAL ***Prunus 'Mount Royal'***
Striking blue fruit follows fragrant white flowers on this plum tree. Ripens around mid-August, just in time for throwing at school kids or making jams & preserves. Self fertile.
Max. Elev: 7,500 ft.
Mature Ht: 15' & Spd: 10' **PMR** 1" #15
Limited Quantity! *2" B&B

PLUM, STANLEY ***Prunus domestica 'Stanley'***
Large, prune type, good for home gardens. Dark blue fruit, yellow flesh that is tender, firm and sweet. Freestone. Mid-season. Good pollinator. Self-fertile.
Max. Elev: 8,500 ft. **STP** 1" #15
Mature Ht: 15' & Spd: 12'

PLUM, SUPERIOR ***Prunus 'Superior'***
Large, dark red fruit with sweet, yellow flesh that's delicious right off the tree. Bears fruit the first year.
Max. Elev: 7,500 ft. **PSU** 1¼" #15
Mature Ht: 15' & Spd: 10'

"For best production, fruit trees need adequate spacing for good air circulation. Colorado is often subject to late spring frosts which can damage the blossoms. The northeast corner of a home is the slowest to warm up in spring. A tree sited here will come out of dormancy later in the season giving it the best chance of setting fruit."

– Arapahoe County Extension

WHY TREE DIVERSITY IS IMPORTANT

It is common to have a row of trees in a landscape that are all the same variety and the same size. This creates the possibility of several problems. In Colorado trees don't grow identically, some might get less or more water, some might be in better soil, etc. If just one of these trees dies it is nearly impossible to find an identical replacement. A monoculture of trees increases the vulnerability to severe weather events; an early or late drastic freeze, an insect or disease killing or injuring some if not all the plantings.

In the 1800's Chestnut trees were the dominate tree in the Northeast when blight hit and devastated the population. When was the last time you had Chestnuts roasted over an open fire like the Christmas carol? In the 1960's Dutch Elm Disease hit and currently Emerald Ash Borer is present in the Denver metro area.

We are fortunate in Denver to have many varieties of trees to choose from. By using trees from different families (varieties) you will reduce the risk while at the same time increase the interest in the landscape with different textures, fall colors, bloom times, and leaf color. The more diverse our urban forests, the more resilient they will be to devastating pests, diseases and severe weather.

"PLANTING TIP: Two cups of dry dog food in the backfill of a tree gives it much stronger bark!"

– Stan Brown

DECIDUOUS TREES

NOTE: ADDITIONAL SIZES AND PRICES ARE ON PAGES **168-173**

ALTHEA / ROSE-OF-SHARON ***Hibiscus syriacus***

Dwarf ornamental tree with small maple-like leaves. Unique in that it blooms from mid-summer through early fall when most trees just have leaves. Blooms are either a double "peony" style or a single "petunia" style.

Max. Elev: 7,500 ft ***TREE FORM*** 1" #15
Mature Ht: 10' & Spd: 5'

CHOKECHERRY, SUCKER PUNCH®
Prunus 'P0025' PP25,767

2019 Plant Select® A beautiful, red-leafed Chokecherry that does not sucker from our wonderful friends at Ft Collins Wholesale Nursery. Sucker free thus 'Sucker Punch®'! Vigorous, very hardy, rounded habit with green leaves that mature to red in late spring followed by sweet-scented panicles of bright white flowers. Dark purple fruits are treasured by songbirds in late summer and make delicious jams and jellies.
Max. Elev: 7,500 ft. **SUC** *2" B&B
Mature Ht: 25' & Spd: 20'

COTTONWOOD, COTTONLESS / EASTERN
Populus deltoides 'Siouxland'

Rapid grower. Provides quick shade. Seedless.
Max. Elev: 8,500 ft. **COT** 1" #15
Mature Ht: 100' & Spd: 35' 2" B&B

COTTONWOOD, LANCELEAF ***Populus x acuminata***

Slender, native tree with oval head. Medium-sized, drooping leaves. Rapid grower. These trees normally do not sucker nearly as bad as the Narrowleaf.
Max. Elev: 8,500 ft. **LAN** 1¼" #15
Mature Ht: 50' & Spd: 30' 2" B&B

COTTONWOOD, NARROWLEAF ***Populus angustifolia***

A vertical-growing native with willowlike foliage. In some plantings, these trees can sucker profusely.
Max. Elev: 9,400 ft. **NAR** 1¼" #15
Mature Ht: 75' & Spd: 40' 2" B&B

CRAB, BRANDYWINE—Pink ***Malus 'Brandywine'***

Resembles Klehm's Bechtel, but has better symmetry and more vigor. Leaves have a slight tint of purple and turn deep purple in fall. Double, deep rose-pink blossoms. May have walnut-sized fruit. More resistant to fireblight and leaf blight.
Max. Elev: 6,500 ft. **BRA** *2" B&B
Mature Ht: 25' & Spd: 20'

CRAB, CORALBURST® ***Malus coralcole***

Plant this pretty little crabapple in any landscape for an explosion of rose-pink semi-double flowers in mid spring on a very dense, compact tree. Persistent bronze fruit.
Max. Elev: 6,500 ft. **CBC** #15
Mature Ht: 12' & Spd: 12' *2" B&B

CRAB, COURAGEOUS™ ***Malus x 'Durlawrence'***

A First Editions® Selection

New for Year 2026

Everyone is searching for a pink version of sterile Spring Snow; this is the closest we've found yet. Officially listed as sparse fruiting, we're optimistically cautious. Gather your courage, try it and be a part of the experiment in the quest to find a fruitless pink-flowering crab. Please report back to us. Limited Quantity!
Max. Elev: 9,000 ft. **CCO** 1¼" #15
Mature Ht: 20' & Spd: 15'

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

CRAB, Gladiator™ ***Malus x adstringens 'Durleo'*** **PP20167**

A First Editions® Selection

An upright, beautiful bright pink flowering Crabapple for narrow spaces where privacy is needed. Wonderful ornamental for streetscapes and gardens as it can be planted under utility lines. Glossy bronze-purple foliage turns a rich dark purple in fall and small reddish-purple fruits persist into winter. Attracts butterflies. "Are you not entertained?"

Max. Elev: 9,500 ft. **GLA** *2" B&B
Mature Ht: 20' & Spd: 9'

CRAB, Lollipop® ***Malus 'Lollizam'***

A Proven Winners® Color Choice® Selection

This apple on a stick is a perfect patio tree, 8' tall 8' wide, red buds opening to fragrant white flowers followed by 3/8" golden-amber fruit.

Max. Elev: 7,000 ft. **LOL** #15
Mature Ht: 8' & Spd: 8' 1¾" B&B

CRAB, PERFECT PURPLE ***Malus 'Perfect Purple'***

Dark purple foliage highlights this perfect small ornamental tree. Attractive pink blooms are followed by small persistent fruit. Fuller, thicker and more vigorous than Thunderchild crab.

Max. Elev: 7,000 ft. **PPC** 1¼" #15

HAWTHORN, TOBA ***Crataegus x mordenensis 'Toba'***

Very hardy. Flowers are large, double white, fading to pink; very fragrant. Fruit is bright red, ½" in diameter, persisting into winter. Thornless and disease resistant.

Max. Elev: 8,500 ft. **TOH** 1¼" #15
Mature Ht: 15' & Spd: 12' 2" B&B

HAWTHORN, WASHINGTON ***Crataegus phaenopyrum***

Long lasting, white flowers with bright scarlet fruit and glossy green foliage. Great red fall color. Thorny, dense, upright habit.

Max. Elev: 7,500 ft. **WAS** 1¼" #15
Mature Ht: 20' & Spd: 15' *2" B&B
WHC *8' Clump B&B

HAWTHORN, WINTER KING
Crataegus viridis 'Winter King'

This small tree has few thorns and shiny green leaves turning purple to scarlet in the fall. The ½" white flowers are in clusters 2" across. Small, bright red fruit stays through the winter. Bark is a silver-gray color that exfoliates with age.

Max. Elev: 7,000 ft. **WKH** *2" B&B
Mature Ht: 30' & Spd: 20' **WKC** *8" Clump B&B

HORNBEAM, FRANS FONTAINE
Carpinus betulus 'Frans Fontaine'

A fastigiate form of European Hornbeam that keeps its upright nature even in old age. The dark green foliage turns yellow in fall. Disease and pest resistant and tolerant of difficult conditions. Stays narrower than Pyramidal Hornbeam.

Max. Elev: 6,000 ft. **HFF** 1½" #15
Mature Ht: 30' & Spd: 15' *2" B&B

HORNBEAM, PYRAMIDAL EUROPEAN
Carpinus betulus 'Fastigiata'

This dense, compact tree starts narrow when young, becoming more oval-shaped, with dark green foliage that turns yellow in the fall.

Max. Elev: 6,000 ft. **PHO** 1½" #15
Mature Ht: 35' & Spd: 25' *2" B&B

HORSECHESTNUT, FT McNAIR

New for Year 2026

Aesculus x carnea 'Ft. McNair'

This selection originated at Fort McNair in Washington D.C. and sports upright panicles of dark pink flowers that attract pollinators, especially hummingbirds. This dense rounded tree has dark green leaves and a handsome structure. Yellow fall color. Produces less fruit than other horsechestnuts.

Max. Elev: 6,000 ft. **HFM** 2" B&B
Mature Ht: 35' & Spd: 30'

KENTUCKY COFFEETREE, Espresso™
Gymnocladus dioicus 'Espresso-JFS'

A "seedless" variety of coffeetree with better branching habit and huge double-compound leaves lends a tropical feel to the landscape. Provides great shade with good heat, cold and drought tolerance. This hardy tree will provide the jolt you need in your next design.

Max. Elev: 7,500 ft. **EKC** 1¼" #15
Mature Ht: 50' & Spd: 35' *2" B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

LILAC, JAPANESE TREE ***Syringa reticulata***

Large, creamy white flowers lasting after other lilacs have finished blooming.

Max. Elev: 8,500 ft. **LTR** 1" #15
Mature Ht: 15' & Spd: 12' *2" B&B
LTC Clump #15
*6' Clump B&B

LINDEN, AMERICAN SENTRY™ ***Tilia americana 'McKSentry'***

An upright narrow pyramidal form of American linden with very uniform branching and a distinctive silvery grey smooth bark. Fragrant flowers in spring and pretty yellow fall color. Vigorous grower. This Linden is the most resistant to Japanese Beetle damage.

Max. Elev: 7,500 ft. **LAS** 2" B&B
Mature Ht: 40' & Spd: 30'

LINDEN, GREENSPIRE ***Tilia cordata 'Greenspire'***

ONE OF OUR TOP SELLERS!!

Straight trunk. Grows into a narrow, oval form with spicy, fragrant flowers and small, dark green leaves. "A favorite food of those pesky Japanese beetles - they love them as much as we do!"

Max. Elev: 7,000+ ft. **GLI** 1¼" #15
Mature Ht: 40' & Spd: 30' *2" B&B

LINDEN, REDMOND ***Tilia americana 'Redmond'***

Vigorous, pyramidal growth habit with attractive foliage. Branches are a reddish color in winter.

Max. Elev: 7,500 ft. **RLI** *2" B&B
Mature Ht: 40' & Spd: 25'

LOCUST, IMPERIAL
Gleditsia triacanthos inermis 'Imperial'

Thornless locust with bright green, fern-like foliage and dense branching. Symmetrical, rounded crown and straight trunk.

Max. Elev: 7,500 ft. **IMP** 1¼" #15
Mature Ht: 35' & Spd: 25' *2" B&B

LOCUST, SHADEMASTER
Gleditsia triacanthos inermis 'Shademaster'

ONE OF OUR TOP SELLERS!!

Rapid grower that transplants easily. Drought-and-disease-resistant. Thornless, podless, upright branches.

Max. Elev: 7,500 ft. **SHA** 1¼" #15
Mature Ht: 50' & Spd: 35' *2" B&B

LOCUST, SKYLINE ***Gleditsia triacanthos inermis 'Skyline'***

Pyramidal form with strong, sturdy trunk. Branches are uniformly spaced. Thornless and podless.

Max. Elev: 7,500 ft. **SKY** *2" B&B
Mature Ht: 50' & Spd: 30'

LOCUST, SUNBURST
Gleditsia triacanthos inermis 'Sunburst'

Golden foliage on 8-10 inches of branch tips contrasts with the rich green balance of the tree. Thornless and podless.

Max. Elev: 6,500 ft. **SUN** *2" B&B
Mature Ht: 30' & Spd: 25'

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

LONDON PLANETREE, EXCLAMATION™
Platanus x acerifolia 'Morton Circle'
Explanation of the Exclamation! A distinctive refined pyramidal upright shade tree heralded for its' beautiful silvery white, rich brown mottled bark, disease resistance and coppery bronze autumn fall color. Resistant to frost cracking, anthracnose, powdery mildew and hungry deer.
Max. Elev: 6,000 ft. **ELP** *2" B&B
Mature Ht: 55' & Spd: 35'

MAGNOLIA, BUTTERFLIES ***Magnolia x 'Butterflies'***
In early spring, large 4-5" delicate lemon-yellow tulip-like flowers appear like butterflies perched on delicate branches. Flowers have a light lemon oil fragrance. An upright, pyramidal ornamental tree best grown in organically rich, well-drained soil and appreciates protection from high winds.
Max. Elev: 7,000 ft. **MBU** *2" B&B
Mature Ht: 20' & Spd: 15'

MAPLE, Armstrong Gold®
Acer rubrum 'JFS-KW78' **PP25301**
An improved tightly columnar tree with bright golden to orange fall color. Dense green foliage and compact habit make it ideal for street plantings and screening purposes. Fast growing.
Max. Elev: 6,500 ft. **AGM** *2" B&B
Mature Ht: 40' & Spd: 12'

MAPLE, AUTUMN BLAZE® ***Acer x freemanii 'Jeffersred'***
ONE OF OUR TOP SELLERS!!
Fast-growing cross between Silver Maple and Red Maple. Green foliage turns orange-red in fall. Broad, oval head, branching better than Silver Maple. Great substitute for Red Sunset or October Glory. If planted in heavy clay soil or if it drinks water high in alkalinity, they can become yellowish with chlorosis as they mature. The City of Denver prohibits the planting of Autumn Blaze Maple in it's right of ways.
Max. Elev: 6,500 ft. **ABM** 1¼" #15
Mature Ht: 50' & Spd: 40' *2" B&B
*2½" B&B

MAPLE, CRIMSON SENTRY
Acer platanoides 'Crimson Sentry'
An elegant, narrow, pyramidal form of Crimson King maple. These maples maintain their rich purple foliage throughout the summer and turn maroon to reddish brown in the autumn. Produces dense shade for a compact tree.
Max. Elev: 6,500 ft. **CSM** 1¼" #15
Mature Ht: 25' & Spd: 15'

MAPLE, Crimson Sunset®
Acer truncatum x A. plat. 'JFS-KW202' **PP21838**
The tree wizards crossed a 'Crimson King' with the super tough Shantung Maple (Acer truncatum) to produce a more compact, upright elegant tree with deep purple foliage that is more scorch resistant than its' parent. It retains its' rich glossy color in hot, dry conditions and turns reddish bronze in the fall. The perfect picnic tree for a warm summer evening and enjoy the beauty of a crimson sunset.
Max. Elev: 7,500 ft. **CRM** 1¼" #15
Mature Ht: 35' & Spd: 25' *2" B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

MAPLE, GINNALA 'FLAME' ***Acer ginnala 'Flame'***

An improved hot variety of our popular Ginnala Maple. A very versatile single stem or multi-stemmed small tree with a more uniform spreading branching habit and consistent fall color of brilliant orange-red to deep red. An excellent selection for small spaces and planting under utility lines.

Max. Elev: 10,000 ft. **GFT** ***TREE FORM*** 1" #15
Mature Ht: 20' & Spd: 20' *2" B&B
GFC Clump #15
*6' Clump B&B

MAPLE, HOT WINGS® ***Acer tataricum 'Garann'***

2007 Plant Select® Hot Wings will not burn your mouth, okay. It got it's name from the bright red samaras that cover the maple in summertime. From a distance it looks like the tree is in bloom. The fall color is yellow to orange-red. Tolerant of alkaline soils. Our friend Scott Skogerbee at Fort Collins Wholesale Nursery shared with us that this tree originated in the Crimean region of Ukraine; and was brought to the Cheyenne Experimental Station where is was discovered by Gary Epstein.

Max. Elev: 8,000 ft. **HWT** 1" #15
Mature Ht: 25' & Spd: 20' *2" B&B
HWM 5-6' Clump #15
*6' Clump B&B

MAPLE, JAPANESE ***Acer palmatum***

ONE OF OUR TOP SELLERS!!

Japanese maples are available in a variety of forms; the upright varieties with large palmate leaves are Bloodgood and Emperor One. The dissectum varieties are dwarf weeping forms and include: Crimson Queen, Garnet, Red Dragon, Tamukeyama and Viridis. Cultural practices and planting location will influence mature sizes.

Varieties	Ht & Spd	Description	Code
'Bloodgood'	20' x 15'	Holds beautiful red color all season	**MJA**
'Emperor One'	25' x 25'	Upright. Deep purple red leaves	**MJE**
'Crimson Queen'	10' x 12'	Finely cut deep red leaves	**MCQ**
'Red Dragon'	8' x 10'	Good for Bonsai and containers	**MRD**
'Ryusen Weeping'	6' x 6'	Pendulous branches with green palmate leaves.	**MJW**
'Tamukeyama'	8' x 6'	Strong cascading branches; finely cut deep red leaves	**MJT**
'Viridis'	12' x 15'	Green leaves turn orange red in fall	**MJV**

Max. Elev: 5,500 ft. #5 #7 #10 #15 #20

MAPLE, Mesa Glow® ***Acer grandidentatum 'JFS-NuMex3'***

A selection from New Mexico State University, this nice upright tree for our intermountain West landscapes has the most phenomenal orange-red fall color of all Bigtooth Maples. Disease resistant.

Max. Elev: 7,500 ft. **MGM** 1" #15
Mature Ht: 25' & Spd: 15' *2" B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

MAPLE, NORWAY, EMERALD QUEEN™ ***Acer platanoides 'Emerald Queen'***

This straight-growing tree has dark green leaves in summer that turn bright yellow in fall. This, as well as all "hard" maples, can sunscald and frost crack, though less if the trunk is wrapped the first three winters.

Max. Elev: 7,900 ft. **EQM** *2" B&B
Mature Ht: 50' & Spd: 40'

MAPLE, Redpointe® ***Acer rubrum 'Frank Jr.'*** **PP16769**

ONE OF OUR TOP SELLERS!!

Stan believes they have finally cooked up a better tree than Red Sunset Maple. It has a very dominant central straight leader and stronger branch angles with a pleasing pyramidal mature shape. Outstanding brilliant red fall color.

Max. Elev: 6,000 ft. **RPM** 1" #15
Mature Ht: 45' & Spd: 30' *2" B&B

MAPLE, Rocky Mountain Glow® ***Acer grandidentatum 'Schmidt'***

An outstanding tree form variety of Big Tooth Maple that will shine in any landscape. A Rocky Mountain relative of the sugar maple, this small tree has dark green foliage that turns intense yellow to brilliant orange-red in autumn. Extreme cold tolerance and grows well in our alkaline soils.

Max. Elev: 7,500 ft. **RMG** 1" #15
Mature Ht: 25' & Spd: 15' *2" B&B

MAPLE, ROYAL RED / CRIMSON KING ***Acer platanoides***

Throughout the growing season these maples maintain rich, purple foliage. Vigorous, dense shade producer.

Max. Elev: 6,500 ft. **RRM/CKM** 1¼" #15
Mature Ht: 35' & Spd: 25' **RRM/CKM** *2" B&B

MAPLE, SENSATION ***Acer negundo 'Sensation'***

This is a seedless male clone found growing near an abandoned Idaho prepper's homestead; and valued for its improved branching structure, more controlled growth habit, and sensational brilliant orange-red fall color. Very tolerant of temperature extremes, drought conditions and alkaline soils.

Max. Elev: 6,000 ft. **SMA** *2" B&B
Mature Ht: 30' & Spd: 25'

MAPLE, SHANTUNG ***Acer truncatum***

This very hardy, adaptable, rounded shade tree is excellent for street plantings, smaller properties and under utility lines. Makes a great specimen tree in large gardens as well. Its' glossy dark green leaves emerge reddish-purple in spring that turn dramatic shades of brilliant yellow with some orange and red hues. Tolerates heat, drought conditions, alkaline and clay soils.

Max. Elev: 6,000 ft. **SHM** *2" B&B
Mature Ht: 20' & Spd: 15'

MAPLE, STATE STREET® ***Acer miyabei 'Morton'***

A very neat, upright oval growth habit and dark green lobed leaves adorn this stately shade tree. It has bright yellow fall color and corky thick bark that resists sun scald. Very cold and drought tolerant once established. A great street tree!

Max. Elev: 7,500 ft. **MSS** *2" B&B
Mature Ht: 40' & Spd: 30'

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

MAPLE, SUGAR, CADDO, Flashfire®
Acer saccharum 'JFS - Caddo2'

Improved selections of Sugar Maple found in isolated limestone canyons in Caddo County, Oklahoma. The late Dr. John Pair of Kansas State University evaluated many seedling over 20 years and selected these varieties based on outstanding early fall color. These selections have shown superior performance in spite of heat, wind, drought, disease, insects, and alkaline soils.

Max. Elev: 6,000 ft. **FFM** 1¼" #15
Mature Ht: 45' & Spd: 40' *2" B&B

MAPLE, SUGAR, Fall Fiesta®
Acer saccharum 'Bailsta'

Invite this sweet tree to your fall fiesta! Outstanding brilliant orange, red and yellow foliage in autumn. A sturdy vigorous sugar maple with a dense canopy of deep-green leaves that have good resistance to leaf scorch, summer heat and drought conditions. Excellent winter hardiness and said to be resistant to Japanese Beetles.

Max. Elev: 6,500 ft. **MFF** *2" B&B
Mature Ht: 50' & Spd: 40'

MOUNTAIN ASH, BLACK HAWK
Sorbus aucuparia 'Black Hawk'

An upright, narrow selection of Mountain Ash with dark green leaves, white flowers followed by bright orange berries and fantastic red fall color. Resistant to sunscald.

Max. Elev: 9,000 ft. **MBH** 1" #15
Mature Ht: 25' & Spd: 15'

MULBERRY, WEEPING FRUITLESS
Back for Year 2026
Morus alba 'Chaparral'

A grafted weeping umbrella-like tree with no fruits or flowers. Beautiful accent tree often placed close to an entryway. *Makes a great fort and hide-n-seek spot for kids of all ages!*

Max. Elev: 7,500 ft. **WFM** #15
Mature Ht: 8' & Spd: 10'

OAK, BUR ***Quercus macrocarpa***

Tolerates a wide range of soil types and air pollutants. Unusual branching characteristics and corky twigs. Yellowish brown fall color. Hardy tree for this area.

Max. Elev: 8,000 ft. **BOA** 1¼" #15
Mature Ht: 70' & Spd: 50' *2" B&B

OAK, CHINKAPIN ***Quercus muehlenbergii***

A durable and highly adaptable oak with narrow lustrous glossy dark green leaves and an open, rounded canopy. Yellow to brown fall color; tolerant of alkaline soils. Acorns are sweet and edible.

Max. Elev: 6,500 ft. **CKO** *2" B&B
Mature Ht: 40' & Spd: 40'

OAK, Crimson Spire™ ***Quercus 'Crimschmidt'***

ONE OF OUR TOP SELLERS!!

A cross between White Oak and English Oak. The white oak parentage provides dark green foliage and reddish fall color. The English Oak side provides the columnar growth habit. Experience shows these are somewhat intolerant of being too wet after planting, therefore they don't do well in a newly sodded lawn.

Max. Elev: 7,000 ft. **CSO** #15
Mature Ht: 45' & Spd: 15' *2" B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

OAK, ENGLISH ***Quercus robur***

Aye Chaps! How 'bout this stately, broad, round-topped tree with spreading branches. Rapid grower. Tolerates heavy soils. Known as the "Major Oak," Robin Hood and his merry men gathered in an English Oak of Sherwood Forest.

Max. Elev: 8,500 ft. **EOA** *2" B&B
Mature Ht: 50' & Spd: 40'

OAK, ENGLISH COLUMNAR ***Quercus robur 'Fastigiata'***

This columnar form of English Oak is urban tolerant, very adaptable, excellent for wind-break planting or screening.

Max. Elev: 8,000 ft. **EOC** 1" #15
Mature Ht: 40' & Spd: 20' *2" B&B

OAK, GAMBEL ***Quercus gambelii***

Our wonderful native Rocky Mountain oak that grows into a small to medium sized tree with beautiful fall color of yellow to occasional orange to red to bronze.

Max. Elev: 8,000 ft. **GOA** 4-5' #15
Mature Ht: 15' & Spd: 12' 5' B&B
6' B&B

OAK, HERITAGE® ***Quercus x macdanielii 'Clemons'***

An outstanding vigorous cross between English Oak and Bur Oak. Glossy, dark green leaves that turn bronzy yellow in the autumn. Scorch and mildew resistant foliage. Hardy. CSU reports: Heritage Oak appears to be more resistant to the Wasp Gall that can affect one of its parents - Bur Oak.

Max. Elev: 8,000 ft. **HOA** *2" B&B
Mature Ht: 60' & Spd: 40'

OAK, KINDRED SPIRIT®

Back for Year 2026 ***Quercus robur x bicolor 'Nadler' PP17604***

One of the tightest columnar trees in the landscape, this wonderful oak is mildew resistant and drought resistant, tolerant of urban conditions, making it an excellent street tree. Perfect tree to use for privacy screens, especially in narrow yards. Dark green leaves with silvery undersides. Bright yellow orange to bronze fall color. Small, dark brown acorns are a good food source for wildlife.

Max. Elev: 7,500 ft. **KSO** 2" B&B
Mature Ht: 30' & Spd: 6'

OAK, NORTHERN RED ***Quercus rubra***

Fast-growing tree with broad, spreading branches and round crown. Leaves turn dark red, then ruddy brown and orange in fall. May be harder to establish at a higher elevation.

Max. Elev: 8,000 ft. **ROA** 1¼" #15
Mature Ht: 50' & Spd: 30' *2" B&B

OAK, REGAL PRINCE® ***Quercus robur x bicolor 'Long'***

This hardy columnar oak of royalty has very bright green glossy leaves and is an adaptable hybrid of English Columnar and Swamp White Oak. It is extremely mildew resistant and tatter resistant. Attractive coppery bronze fall color. This prince looks great as a specimen or use to frame a focal point of the landscape.

Max. Elev: 8,000 ft. **ORP** 1¼" #15
Mature Ht: 45' & Spd: 18' *2" B&B

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

OAK, SCARLET ***Quercus coccinea***

Produces the best red fall color of all the oaks in Colorado. Fast growing oak tolerates our alkaline soil, and windy areas.

Max. Elev: 8,000 ft. **OSC** *2" B&B
Mature Ht: 45' & Spd: 35'

OAK, SWAMP WHITE ***Quercus bicolor***

This rugged, hardy oak grows well in clay soils. Dark green foliage with silvery undersides, turns reddish bronze in fall. this white White Oak and other White Oaks, exhibits marcescence; a trait of retaining its leaves after they are dead and dry throughout the winter. The new leaves push the old leaves off in spring; believed to protect the leaf buds from winter desiccation and deer browsing.

Max. Elev: 8,000 ft. **SWO** 1¼" #15
Mature Ht: 50' & Spd: 40' *2" B&B

OAK, TEXAS RED ***Quercus buckleyi***

Also called Buckley Oak, this West Texas native has proven cold hardy across the Front Range. Vivid red fall color, alkaline tolerant, pyramidal habit, grows quickly but not too big, and produces great acorns which are a valuable food source for wildlife. Proclaimed by our friend Panayoti Kelaidis at Denver Botanic Gardens as his favorite tree in the world; and may be the best of this magnificent family of trees for Denver. Unfazed by summer heat and extended periods of drought.

Max. Elev: 7,500 ft. **TEX** *2" B&B
Mature Ht: 50' & Spd: 40'

OAK, WHITE ***Quercus alba***

One of the mightiest of the Noble Oaks, this tree has mildew-resistant medium green leaves that turn bright red in fall. A notable specimen is growing at Chautaugua Park in Boulder and designated the fourth largest in Colorado—a great picnic spot!

Max. Elev: 8,000 ft. **WHO** *2" B&B
Mature Ht: 45' & Spd: 45'

OSAGE ORANGE, WHITE SHIELD

New for Year 2026 ***Maclura pomifera 'White Shield'***

Attractive glossy super dark green leaves on this thornless and fruitless vase-shaped tough Midwest native tree. Heat and deer resistant. Nice yellow fall color. Upright and spreading, rounded habit.

Max. Elev: 7,500 ft. **WSO** 2" B&B
Mature Ht: 25-30' & Spd: 25'

PEAR, AUTUMN BLAZE ***Pyrus calleryana 'Autumn Blaze'***

Considered one of the hardiest cultivar of callery pears, this variety is loaded with fragrant white flowers in early spring and reliable bright red fall color.

Max. Elev: 7,500 ft. **AUT** *2" B&B
Mature Ht: 30' & Spd: 25'

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

PEAR, CHANTICLEER® / CLEVELAND SELECT *Pyrus calleryana*

ONE OF OUR TOP SELLERS!!

These evenly branched trees grow more cone-shaped than other flowering pears. White flowers followed by glossy green foliage turning brilliant orange-red in the fall. Experience shows these are somewhat intolerant of being too wet after planting; therefore they sometimes don't do well in a newly sodded lawn.

Max. Elev: 7,500 ft. **CSP/CCP** 1¼" #15
Mature Ht: 35' & Spd: 15' *2" B&B

PEAR, JACK® (DWARF) *Pyrus calleryana 'Jack'*

Dwarf growth is perfect for planting in confined areas or under power lines. This low maintenance tree has dense dark green foliage that turns yellow in autumn.

Max. Elev: 7,500 ft. **JAP** 1¼" #15
Mature Ht: 15' & Spd: 10' 1¾" #25
*2" B&B

PEAR, Javelin® *Pyrus 'NCPX1' PP26539*

A tightly, column ornamental pear tree that stays narrow as it matures; pink buds open to white blossoms in spring followed by burgundy foliage that matures to dark glossy green in summer. Beautiful purple to maroon fall color. Resistant to fire blight. Excellent street tree and can be used as a privacy screen in smaller gardens.

Max. Elev: 6,000 ft. **JCP** *2" B&B
Mature Ht: 35' & Spd: 10'

PLUM, CRIMSON POINTE™ *Prunus x cerasifera 'Cripoizam'*

A tight narrow upright flowering plum great for small spaces or along sidewalks. With white flowers and non-messy purple fruit, it is mostly admired for its shape and purple foliage. Think of a tall, narrow Newport Plum.

Max. Elev: 7,500 ft. **CPO** 1¾" #25
Mature Ht: 20' & Spd: 6'

PLUM, NEWPORT / PURPLELEAF PLUM *Prunus cerasifera 'Newport'*

Colorful tree with reddish purple foliage. White-pink flowers in spring seldom set fruit. Can die when planted in a newly sodded area and overwatered. This variety was introduced by Kankakee Nursery. Brighter purple, more narrow in form.

Max. Elev: 8,500 ft. **NEW** 1¼" #15
Mature Ht: 15' & Spd: 10' *2" B&B

PLUM, PRINCESS KAY *Prunus nigra 'Princess Kay'*

2000 Plant Select® Hardy selection from the Minnesota Landscape Arboretum, Princess Kay offers year-round interest. The bright white, double flowers, attractive leaves, and almost-black bark covered with white spots makes Princess Kay a regal choice indeed.

Max. Elev: 7,000 ft. **PKP** 1¼" #15
Mature Ht: 18' & Spd: 12' 1¾" B&B

"Time spent amoung trees is never time wasted."
– Anonymus

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

REDBUD, EASTERN ***Cercis canadensis***

Beautiful purplish pink blooms completely cover this tree in spring. Attractive, rich green, heart-shaped leaves make it a good foliage tree.

Max. Elev: 7,500 ft. **RBU** 1¼" #15
Mature Ht: 20' & Spd: 15' *2" B&B
RBC Clump #15
*8' Clump B&B

REDBUD, Flame Thrower®

Cercis canadensis 'NC2016-2'

Fire up your landscape with this colorful Redbud. Pink spring flowers are followed by an ever-changing display of color. New foliage emerges burgundy, fades to yellow and matures to green. A small accent tree to end the season with a bonfire of color.

Max. Elev: 6,000 ft. **RFT** 1¼" #15
Mature Ht: 15-20' & Spd: 12-15'

REDBUD, FOREST PANSY

Cercis canadensis 'Forest Pansy'

Same outstanding magenta bloom, but with heart-shaped leaves that come out a dark red which lasts well into the summer. May not be quite as hardy as Eastern Redbud.

Max. Elev: 7,500 ft. **RBF** 1¼" #15
Mature Ht: 20' & Spd: 25' *2" B&B

REDBUD, WEEPING ***Cercis canadensis pendula***

These tears are tears of joy! I have a lot going for me: Interesting grey bark, bright pink flowers, heart shaped leaves and doggone it, people like me.

Max. Elev: 6,000 ft. **RBW** 1½" #15
Mature Ht: 8' & Spd: 8' *2" B&B

REDBUD, WEEPING, RUBY FALLS

Cercis canadensis 'Ruby Falls' PP22097

A compact, cascading form of Redbud with clusters of lavender-red sweet pea-like blooms on bare stems early in the spring. Deep maroon heart-shaped leaves emerge as the flowers fade and turn more deep green with red-purple tones in the heat of summer. Nice yellow fall color. This is a favorite of Stans' and he believes Ruby to be one of the hardiest weeping Redbuds in our landscape.

Max. Elev: 5,500 ft. **RFR** 1¼" #15
Mature Ht: 6-8' & Spd: 5-6' *2" B&B

SERVICEBERRY, AUTUMN BRILLIANCE®

Amelanchier x grandiflora 'Autumn Brilliance'

ONE OF OUR TOP SELLERS!!

Very ornamental. White flowers bloom in early spring. Excellent red-orange fall color. Edible berries are favorites of robins and make delicious pies and jellies for us humans.

Max. Elev: 8,500 ft. **ABT** 1¼" #15

SWEET GUM ***Liquidambar styraciflua***

Back for Year 2026

Known for its unique star-shaped leaves with outstanding yellow to orange-red and purple long lasting fall color, Sweet gum is an excellent large pyramidal shade tree. Sweet gum refers to the aromatic resin or gum that was historically used as chewing gum and medicinal salves. Not produced by Wrigley's….

Max. Elev: 6,000 ft. **SGU** *2" B&B
Mature Ht: 60+' & Spd: 50+'

TULIP TREE ***Liriodendron tulipifera***

Tall, fast growing, deciduous tree known for its straight trunk and rising branches. Striking, greenish yellow "tulip" flowers with orange base in late spring.

Max. Elev: 7,500 ft. **TUL** *2" B&B
Mature Ht: 90' & Spd: 50'

WILLOW, DESERT ***Chilopsis linearis***

A Texas native you actually want in Colorado, a fast-growing tree for southwestern landscapes requiring little care. We carry the 'Bubba' variety, a robust, sturdy plant boasting exceptional heat, drought and cold tolerance. Fewer seed pods despite a long and prolific blooming season. Pink, orchid-like fragrant flowers attract butterflies and hummingbirds, but like other Texans, cannot ski.

Max. Elev: 6,000 ft. **DES** 5-6' #10
Mature Ht: 15' & Spd: 10' *6' B&B

YELLOWWOOD, AMERICAN ***Cladrastis kentukea***

Intensely fragrant wisteria-like white flower clusters in late spring create a spectacular show on this old favorite native tree. Named for its yellow heartwood, this shade tree tolerates our high pH soils and dry conditions. The rounded canopy of dark green leaves with low branching habit and smooth smoky gray bark make it a beautiful specimen all year in any landscape. A "biennial bearing" meaning prolific blooms one year followed by few to no flowers the next.

Max. Elev: 7,500 ft. **YEL** *2" B&B
Mature Ht: 40' & Spd: 40'

* FOR FURTHER SIZES & PRICES - SEE PAGES 168-173

APPROXIMATE B & B TREE WEIGHTS

EVERGREEN TREES

Height	Ball Size	Weight
4-5’	16-20”	150-300 lbs.

10-12’	28-32”	600-700 lbs.

6 WAYS TREES BENEFIT ALL OF US!

1) Trees eat the greenhouse gases that cause climate change - for Breakfast!

2) Trees boost our mental health while rising our physical health.

3) Trees clean the air so we can breath more easily.

4) Trees give a home to the wildlife we love.

5) Trees cool down your life, and could even save it.

6) Trees filter your water, making our drinking supply cleaner and more reliable.

INFORMATION TO IMPRESS CLIENTS
(OR BORE FRIENDS)

TIME OF BLOOM

EARLY SPRING
Chaenomeles species (Quince) - orange-red, pink or white
Forsythia species (Forsythia) - yellow
Prunus Species (Plums and Cherries) - white or pink
Rhododendron P.J.M.-lavender
Tulips, Narcissus, Crocus

LATE SPRING
Amelanchier species (Serviceberry) - white
Cercis species (Redbud) - lavender
Deutzia species - white
Kolkwitzia species (Beauty Bush) - pale pink
Magnolia species - white or pink
Malus species (Flowering Crabapples) - red, pink or white
Peonies - red, pink or white
Philadelphus species (Mockorange) - white
Physocarpus species (Ninebark) - white
Pyrus species (Flowering Pear) - white
Sorbus species (Mountain Ash) - creamy white
Spirea species - white, rose pink or red
Syringa species (Lilac) - various colors
Weigela species - red, pink or white
Wisteria species - lavender, blue or white

EARLY SUMMER
Cornus species (Dogwood) - white
Crataegus species (Hawthorn) - white, pink or red
Dicentra species (Bleeding Heart) - red, pink or white
Lonicera species (Honeysuckle) - white, pink, red or yellow
Philadelphus species (Mockorange) - white
Potentilla species - yellow, orange or white (until frost)
Roses species - all colors
Sambucus species (Elder) - white
Viburnum species - white

SUMMER
Astilbe (False Spirea) - pink, red or white
Clematis species - pink, white, red, purple or blue
Hibiscus species (Althea) - white, pink, red, blue or two-toned
Hydrangea species - white, blue or sometimes pink
Hypericum species - yellow
Lonicera species (Vining Honeysuckle) - red and yellow
Ornamental Grasses
Spirea species - pink
Yucca species - white

LATE SUMMER
Buddleia species (Butterfly Bush) - blue, red, purple, white
Caryopteris (Blue Mist) - blue (until frost)
Hydrangea paniculata - creamy white tinged with pink
Polygonum aubertii (Silverlace Vine) - white

LATE FALL
Asters
Chrysanthemums (Mums) - many colors
Chrysothamnus (Rabbitbrush)
Sedum spectable (Autumn Joy)

PLANTS WITH ORNAMENTAL FRUITS

TREES
Acer ginnala (Amur maple) - reddish; Aug- Sept
Acer tartarian 'Hot Wings' - red sumaras in late summer

Amelanchier species (Serviceberry) - red changing to purplish-black; June
Crataegus species (Hawthorn) - red; Sept thru winter
Euonymus europaeus (European Euonymus) - pink fruits in fall
Juniperus species (Upright) - blue; fall thru winter
Malus species (Flowering Crabapples) - red, yellow and orange; early fall into winter
Prunus species (Plums) - yellow, red, dark purple or black; late summer
Sorbus species (Mountain Ash) - red or orange; Aug-Sept

SHRUBS

Acer ginnala (Amur maple) - reddish; Aug-Sept
Amelanchier species (Serviceberry) - red changing to purplish-black; June
Aronia arbutifolia (Red Chokeberry) - red; summer into fall
Aronia melanocarpa elata (Black Chokeberry) - orange turning black in fall
Berberis species (Barberry) - red berries persist in winter
Cornus species (Dogwood) - white or blue-black; June-Sept
Cotoneaster species - red or black; summer to fall
Euonymus species (Burning Bush) - pink-orange and orange-red; Sept-Nov
Ilex (Holly) - orange-red or red persistent fruit
Lonicera species (Honeysuckle) - red; mid to late summer
Physocarpus species (Ninebark) - red pods; summer
Rhamnus frangula (Buckthorn) - attractive red changing to black berries; Sept
Ribes odoratum (Yellow Flowering Currant) - black berries; late summer
Rosa rugosa (Rose) - orange and red rose hips in fall
Sambucus argentea (Elder) - blue, purple-black, black and red; summer
Shepherdia argentea (Silver Buffaloberry) - red-orange fruits in summer
Viburnum species - blue, blue-black, black, orange-red and red; summer until fall

PLANTS WITH COLORFUL SUMMER FOLIAGE

TREES

Acer platanoides
Crimson King Maple - purplish-red
Crimson Sentry Maple - purplish-red
Royal Red Maple - purplish -red
Gleditsia tricanthos
Sunburst Locust - yellow gold
Malus species
'Perfect Purple' - purple
'Prairiefire' - red-maroon aging reddish-green
'Royalty' - deep purple
'Thunderchild' - deep purple
Populus alba (Poplar) - green leaf with silvery underside
Prunus cerasifera
'Newport' - reddish-purple
Prunus virginiana
'Canada Red' - green turning maroon-red

SHRUBS

Berberis thunbergi atropurpurea
'Redleaf Barberry' - red
'Crimson Pygmy' - red
'Rocket Series' - red, orange and yellow
Caryopteris
'Blue Mist' - silvery blue-green
Cornus alba 'argenteo-marginata'
Variegated Dogwood - variegated cream and green
Cotinus coggygria
'Royal Purple' Smokebush - purplish fading to purplish-green

Daphne burkwoodii
'Carol Mackie' - variegated cream and green
Euonymus fortunei
'Emerald Gaiety' - variegated green and white
'Emerald and Gold' - variegated green and golden yellow
Ligustrum x vicaryi
Golden Privet - bright golden yellow
Philadelphus coronaries 'Aureus'
Golden Mockorange - yellow-green
Physocarpus opulifolius
'Darts Golden Ninebark' - gold
Physocarpus opulifolius 'Diablo'
'Diablo Ninebark' - dark red
Physocarpus opulifolius Luteus
'Golden Ninebark' - gold
Prunus x cistena
Purpleleaf Sandcherry - purplish-red
Rosa glauca
Red Leaf Rose - red foliage
Salix purpurea gracilis
Dwarf Blue Artic Willow - blue-gray
Sambucus canadensis aurea
Golden Elder - golden-yellow
Spirea x Goldflame - gold turning light green
Spirea x Goldmound - bright yellow foliage
Shepherdia argentea (Buffaloberry) - silver-gray
Weigela florida
'Variegated' Weigela - variegated green and white
'Java Red' Weigela - purplish-red

EVERGREENS

Juniperus species
Juniper - blue-green
Picea pungens glauca
Colorado Blue Spruce - blue

PERENNIALS

Artemesia species (Silvermound) - silver, gray-blue
Hosta species - variegated varieties
Ajuga (Carpet Bugle)
Brunnera (False Forget-Me-Not)
Ferns
Heuchera - all varieties
Iris pallida (Variegated Iris)
Sedums - all varieties
Ornamental Grasses - all

PLANTS WITH SHOWY FALL FOLIAGE

TREES

Acer species (Maple)
ginnala - rust red, orange, crimson
grandidentatum - orange, red or yellow
rubrum - yellow-orange to brilliant red-orange, maroon
saccharum (Sugar or Hard Maple) - red, orange, gold
Aesculus glabra (Ohio Buckeye) - orange
Amelanchier canadensis (Serviceberry) - orange-red, red
Betula species (Birch) - yellow
Crataegus species (Hawthorn) - orange, red, yellow
Ginkgo biloba (Ginkgo) - yellow
Liquidambar (Sweet Gum) - orange-red to purple
Malus (Apple) - yellow
Populus species (Cottonwood and Aspen) - golden-yellow
Prunus species (Plum, Cherry) - yellow, red-orange
Pyrus species (Flowering Pear) - burgundy, red-orange, red, yellow
Quercus species (Oak) - burgundy, coppery-red
Sorbus species (Mountain Ash) - orange, scarlet-red

SHRUBS
Acer ginnala (Amur Maple) - scarlet, brilliant red and orange
Amelanchier species (Serviceberry) - red and yellow
Aronia species (Chokeberry) - red, red-orange
Berberis species (Barberry) - orange-red, burgundy
Cornus species (Dogwood) - burgundy, purplish-red, bronze-red
Cotinus (Smokebush) - purple
Cotoneaster species - burgundy-red
Euonymus alatus (Burning Bush) - brilliant crimson-red
Hydrangea (Oakleaf) - red to burgundy
Kolkwitzia (Beautybush) - reddish
Nandina species - red-orange
Prunus species (Sand Cherry) - orange-red
Rhus species (Sumac) - red, yellow-orange, scarlet
Rosa rugosa (Rugosa Rose) - bronze-yellow to orange-red
Spirea species - copper-orange, red-orange, burgundy
Sumac species - orange to red
Syringa patula 'Miss Kim' - burgundy
Viburnum species - burgundy-red, reddish-purple

VINES
Partenocissus quinquefolia (Engleman Ivy) - orange-red, burgundy-red
Parthenocissus tricuspidata (Boston Ivy) - red

PERENNIALS
Arctostaphylos (Kinnikinnick) - purple-red
Aster alert (Fall Aster) - red
Bergenia - purple-red
Ceratostigma (Leadwort) - red to burgundy
Euonymus coloratus (Wintercreeper) - purple
Euoporbia (Spurge) - red
Fragaria (Strawberry) - red
Geranium - all varieties - brilliant red
Mahonia repens - red
Miscanthus species (Maiden grass) - yellow to red
Panicum species (Swithgrass) - yellow to copper
Polygonum (Japanese Fleeceflower) - red
Potentilla verna - reddish
Schizachyrium scoparium (Little Blue Stem) - orange-red
Sedums - all varieties - red to dark purple

PLANTS WITH WINTER INTEREST

TREES
Alnus tenuifolia (Thinleaf Alder) - cone-like nutlets persist over winter
Betula species (Birch) - exfoliating and/or white bark
Carpinus caroliniana (American Hornbeam) - smooth, slate gray bark
Crataegus species (Hawthorn) - some hold fruit into winter
Malus species (Flowering Crabapples) - some hold fruit into winter
Platanus species (London Planetree) - shedding bark dappled brown and cream
Populus species (Cottonwood) - whitish or light gray bark on some
Salix species (Willow) - yellow bark on some

SHRUBS
Amelanchier species (Serviceberry) - interesting bark and branch pattern
Cornus species (Dogwood) - red or yellow stems
Corylus avellena (Contorted Filbert) - twisted branching
Euonymus species (Burning Bush) - corky bark
Hydrangea species - dried flowers
Ilex species (Holly) - bright scarlet persistent fruit
Rhododendron P.J.M. - foliage
Rhus species (Sumac) - seed pods and branching
Viburnum species - some retain fruit into winter

PERENNIALS
Echinacea (Coneflower) - seed heads
Iris siberica - seed pods
Lavendula (Lavender) - grey foliage
Mahonia repens
Origanum (hopflower) - bracts
Ornamental grasses - all varieties
Santolina - grey foliage
Sedum spectabile - seed heads
Solidago (Goldenrod) - seed heads
Veronica liwanensis (Turkish Veronica)
Yarrow species - all varieties

VINES
Clematis - seed heads
Hedera helix (English Ivy)
Lonicera (Honeysuckle)
Polygonum (Silverlace Vine)

PLANTS FOR XERIC, EXPOSED SITES

TREES
Acer ginnala (Amur Maple)
Catalpa speciosa (Catalpa)
Celtis occidentalis (Western Hackberry)
Crataegus (Hawthorn)
Gleditsia - certain species (Honey Locust)
Gymnocladus dioicus (Kentucky Coffeetree)
Juglans nigra (Black Walnut)
Juniperus species (Junipers)
Koelreuteria paniculata (Golden Rain Tree)
Pinus - certain species (Pine, Ponderosa Pine)
Populus - certain species (Cottonwood)
Prunus americana (American Plum)
Prunus virginiana (Canada Red Cherry)
Quercus - certain varieties (Oak)

SHRUBS
Acer ginnala (Amur Maple)
Amelcnchier alnifolia (Saskatoon Serviceberry)
Arctostaphylos (Mazanita)
Artemesia (Sage)
Buddleia alternifolia (Butterfly Bush)
Caragana species (Peashrub)
Caryopteris (Dark Knight / Blue Mist Spirea)
Chaenomeles species (Quince)
Chamaebatiara millefolium (Fernbush)
Continus coggygria (Smoketree)
Cotoneaster lucidus (Peking Cotoneaster)
Cytisus (Broom)
Deutzia gracilis (Deutzia)
Ephedra (Mormon Tea)
Evonymus turkestanica nana (Nana Burning Bush)
Fallugia paradoxa (Apache Plume)
Genista (Woodwaxen)
Hypericum (St. Johnswort)
Jamesia americana (Waxflower)
Juniper horizontalis species (Spreading Juniper)
Kolkwitzia (Beautybush)
Ligustrum (Privet)
Lonicera species (Honeysuckle)
Mahonia aquifolium perovskia (Russian sage)
Physocarpus (Ninebark)
Potentilla species
Prunus besseyi (Western Sand Cherry)
Quercus (Gambel Oak)
Rhamnus species (Buckthorn)
Rhus species (Sumac)
Rosa rugosa (Rugosa Rose)

Shepherdia argentia (Silver Buffaloberry)
Syringa species (Lilac)
Viburnum lantana (Wayfaring Tree)
Viburnum lentago (Nannyberry)
Yucca species (Adam's Needle)

PERENNIALS

Achillea sp. (Yarrow)
Agastache sp. (Hyssop)
Arctostaphylos uva-ursi (Kinnikinnik)
Artemesia sp. (Sage)
Aurinia saxatillis (Basket of Gold)
Callirhoe involucrata (Poppy Mallow
Campanula sp. (Bellflowers)
Centranthus sp. (Valerian)
Cerastium tomentosum (Snow in Summer)
Coreopsis sp. (Coreopsis)
Delosperma sp. (Ice Plant)
Echinacea sp. (Coneflower)
Eschscholzia californica (California Poppy)
Euphorbia sp. (Spurge)
Fallopia japonica (Fleeceflower)
Gallardia sp. (Blanket Flower)
Gaura sp. (Whirling Butterflies)
Helianthemum nummularium (Sunrose)
Hemerocallis sp. (Daylily)
Heuchera sanguinea (Coral Bells)
Iberis sempervirens (Candytuft)
Iris sp. (Bearded Iris)
Kniphofia uvanria (Red Hot Poker)
Lavendula sp. (Lavender)
Linum perenne (Blue Flax)
Lonicera sp. (Honeysuckle)
Mahonia repens (Creeping Oregon Grape Holly)
Nepeta sp. (Catmint)
Oenothera sp. (Primrose)
Origanum (Hopflower)
Penstemon sp. (Penstemon)
Persicario affinis (Himalayan Border Jewel)
Phlox subulata (Creeping Phlox)
Physostegia virginiana (Obedient Plant)
Ratibida columnifera (Prairie Coneflower)
Salvia sp. (Sage, Salvia)
Santolina sp. (Lavender Cotton)
Sedum sp. (Sedums)
Sempervivum sp. (Hens and Chicks)
Solidago canadensis (Goldenrod)
Tecrium chamaedrys (Germander)
Thymus sp. (Thyme)
Veronica sp. (Veronica Varieties)
Waldsteinia ternata (Barren Strawberry)

PLANTS FOR WET SITES

TREES

Acer saccharinum (Silver Maple)
Acer rubrum (Red Maple)
Aesculus (Ohio Buckeye)
Alnus tenuifolia (Thinleaf Alder)
Amelanchier canadensis (Serviceberry)
Betula nigra (River Birch)
Celtis occidentalis (Hackberry)
Platanus species (Planetree)
Populus species (Cottonwood)
Quercus bicolor (Swamp White Oak)
Salix species (Willow)
Thuja species (Arborvitae)
Tilia americana (American Linden)

SHRUBS

Aronia species (Chokeberry)

Cornus species (Dogwood)
Chaenomeles species (Quince)
Potentilla species
Prunus (Chokecherry)
Salix species (Willow)
Sambucus species (Elder)
Spirea species
Symphoricarpus albus (White Snowberry)
Syringa species (Lilac)
Viburnum dentatum (Arrowwood)
Viburnum lentago (Nannyberry)
Viburnum trilobum (American Cranberrybush)
Weigela species

PERENNIALS

Aconiturn napelus (monkshood)
Anenome hupehensis (Japanese Windflower)
Alchemilla mollis (Lady's mantle)
Aruncus dioicus (Goat's Beard)
Astilbe sp. (Astilbe/False Spirea)
Bergenia cordifolia (Bergenia)
Brunnera macrophylla (Brunnera)
Clematis sp. (Clematis)
Convallaria majalis (Lily of the Valley)
Ferns
Hosta sp. (Hosta/Plaintain Lily)
Ligularia stenocephala (Ligularia)
Lupinus sp. (Lupines)
Pachysandra terminalis (Japanese Spurge)
Polemonium caeruleum (Jacob's Ladder)
Pulmonaria sp. (Lungwort)
Thalictrum aquilegifolium (Meadow Rue)
Tradescantia sp. (Spiderwort)

PLANTS FOR SHADY AREAS

TREES

Acer ginnala (Amur Maple)
Acer palmatum (Japanese Maple)
Acer saccharum (Sugar Maple)
Amelanchier canadensis (Shadblow Serviceberry)
Cercis canadensis (Redbud)
Crataegus crusgalli inermis (Thornless Cockspur Hawthorn)
Quercus (Swamp White Oak)

SHRUBS

Acer ginnala (Amur Maple)
Aronia melanocarpa elata (Black Chokeberry)
Berberis thunbergi (Green Barberry)
Chaenomeles species (Quince)
Cornus species (Dogwood)
Cotoneaster species
Euonymus species (Burning Bush)
Hydrangea species
Ilex (Holly)
Ligustrum species (Privet)
Physocarpus opulifolius nanum (Dwarf Ninebark)
Rhamnus species (Buckthorn)
Rhododendron hybrids
Ribes alpinum (Alpine Currant)
Sambucus species (Elder)
Symphoricarpos species (White Snowberry, Coralberry)
Viburnum species

EVERGREENS

Buxus - all varieties (Boxwoods)
Euonymus fortunei (Emerald Gaiety, Emerald N Gold, Ivory Jade, Canadale Gold
Juniperus horizontalis 'Wiltoni' (Wiltoni Blue Rug Juniper)
Juniperus squamata (Blue Star Juniper)
Picea abies nidiformis (Birds Nest Spruce)

Pinus mugo (Mugo Pine)
Thuja occidentalis species (Arborvitae)
Taxus species (Yew)

PERENNIALS
Alchemillia (Lady's Mantle)
Anemones
Aruncus (Goat's Beard)
Astilbe (False Spirea)
Carex grass
Dicentra species (Bleeding Heart)
Digitalis (Foxglove)
Hakenchloa (Japanese Forest Grass)
Heuchera (Coral Bells)
Hostas
Tiarella (Foam Flower)

VINES
Euonymus fortunei 'Coloratus' (Purpleleaf Winter Creeper)
Lonicera species (Honeysuckle)
Parthenicissus species (Engleman Ivy)

PLANTS FOR ACIDIC SOIL CONDITIONS

TREES
Acer rubrum (Red Maple)
Acer saccharinum (Silver Maple)
Amelanchier species (Serviceberry)
Betula nigra (River Birch)
Magnolia
Quercus species (Oak)

SHRUBS
Amelanchier species (Serviceberry)
Azalea species
Chaenomeles species (Quince)
Hydrangea species
Rhododendron species

PERENNIALS
Dicentra (Luxuriant Bleeding Heart)
Pachysandra

VINES
Clematis hybrids

PLANTS RESISTANT TO CHLOROSIS IN ALKALINE SOILS

Amelanchier (Serviceberry)
Caragana species (Peashrub)
Catalpa
Cercis canadensis (Redbud)
Gleditsia (Honey Locust)
Gymnocladus (Kentucky Coffeetree)
Potentilla species
Rhamnus species (Buckthorn)
Rhus species (Sumac)
Syringa species (Lilac)

PLANTS TOLERANT TO POLLUTION

TREES
Acer platanoides species (Norway Maple Family)
Celtis occidentalis (Hackberry)
Crataegus crusgalli inermis (Thornless Cockspur Hawthorn)
Crataegus phaenopyrum (Washington Hawthorn)
Gingko species (Maidenhair Tree)
Gleditsia species (Honeylocust)
Magnolia species
Pinus nigra (Austrian Pine)
Pinus sylvestris (Scotch Pine)

Platanus species (London Planetree)
Pyrus species (Flowering Pear)
Quercus species (Oak)
Tilia cordata (Littleleaf Linden)

SHRUBS
Berberis thunbergi (Japanese Greenleaf Barberry)
Lonicera species (Honeysuckle)
Rhamnus frangula columnaris (Columnar Buckthorn)
Spirea vanhouttei (Vanhoutte Spirea)
Symphoricarpos species (White Snowberry, Coralberry)
Syringa vulgaris (Common Purple Lilac)

HEDGE PLANTS

TREES
Acer ginnala (Amur Maple)

SHRUBS
Low Hedges (1-3 ft.)
Berberis mentorensis (Mentor Barberry)
Berberis thunbergi species (Green Leaf Barberry)
Buxus koreana (Korean Boxwood)
Forsythia dwarf species
Ligustrum lodense (Lodense Privet)
Lonicera xylosteum 'Claveyi' (Clavey's dwarf Honeysuckle)
Potentilla fruticosa species
Ribes alpinum (Alpine Currant)
Salix purpurea gracilis (Willow)
Spirea bumalda species
Syringa meyeri (Dwarf Korean Lilac)
Viburnum opulus 'Compacta' (Compact European Cranberry Bush)

Medium Hedges (4-6 ft.)
Caragana arborescens (Siberian Peashrub)
Corunus species (Dogwood)
Cotoneaster species
Euonymus alata 'Compacta' (Dwarf Burning Bush)
Forsythia species
Ligustrum species (Privet)
Physocarpus species (Ninebark)
Spirea species
Viburnum opulus 'Compacta' (Dwarf European Cranberry Bush)
Viburnum trilobum 'Baileyi Compact' (Bailey Compact American Cranberry Bush)

Tall Hedges (over 6 ft.)
Acer ginnala (Amur Maple)
Euonymus alata (Winged Burning Bush)
Hibiscus species (Althea)
Ligustrum species (Privet)
Lonicera species (Honeysuckle)
Rhamnus frangula 'Columnaris' (Buckthorn)
Syringa x chinensis (Chinese Lilac)

EVERGREENS
Juniperus species (Junipers)
Taxus species (Japanese Yew)
Thuja species (Arborvitae)

PLANTS FOR WINDBREAKS

TREES
Celtis occidentalis (Hackberry)
Geditsia triacanthos (Honey Locust)
Populus species (Poplar)
Salix alba (White or Weeping Willow)
Ulmus pumila (Elm)

SHRUBS
Acer ginnala (Amur Maple)
Amelanchier alnifolia (Serviceberry)
Caragana arborescens (Peashrub)
Cornus species (Dogwood)
Cotoneaster lucidus (Hedge Cotoneaster)
Lonicera species (Honeysuckle)
Physocarpus species (Ninebark)
Shepherdia argentea (Buffaloberry)
Syringa species (Lilac)
Viburnum species

EVERGREENS
Juniperus scopulorum (Upright Junipers)
Picea abies (Spruce)
Picea pungens (Colorado Spruce)
Pinus nigra (Austrain Pine)
Pinus strobus (White Pine)
Pinus sylvestris (Scotch Pine)
Pseudotsuja menziesii (Douglas Fir)
Thuja species (Arborvitae)

PLANTS FOR SLOPES

SHRUBS
Berberis thunbergi (Green Leaf Barberry)
Cornus sericea 'Isanti' (Isanti Dogwood)
Forsythia 'Arnold Dwarf'
Juniper horizontalis species
Rhus aromatica (Sumac)
Symphoricarpus species (Snowberry and Coralberry)

VINES AND GROUNDCOVERS
Clematis paniculata (Sweet Autumn Clematis)
Euonymus fortunei 'Colorata' (Wintercreeper)
Hedera helix (English Ivy)
Lonicera japonica 'Halliana' (Hall's Honeysuckle)
Parthenicissus species (Ivy)

PLANTS TOLERANT OF SALT

TREES
Acer species (Norway, Silver Maple)
Aesculus species (Horsechestnut)
Betula species (Paper Birch)
Gleditsia species (Honeylocust)
Juglans species (Black Walnut)
Morus species (Mulberry)
Populus species (Poplar)
Quercus species (English, White Oak)
Rhamnus species (Common Buckthorn)
Robinia species (Willow)
Sophora japonica (Japanese Pagodatree)
Sorbus species (Mountain Ash)

SHRUBS
Aronia arbutifolia brilliantissima (Red Chokeberry)
Lonicera species (Honeysuckle)
Rhus species (Sumac)
Rosa rugosa (Rugosa Rose)
Syringa vulgaris (Common Purple Lilac)
Viburnum dentatum (Arrowwood Viburnum)

EVERGREENS
Juniperus species
Larix decidua (European Larch)
Picea pungens (Blue Spruce)
Pinus nigra (Austrian Pine)

PLANTS INTOLERANT OF SALT

TREES

Acer species (Red, Sugar Maple)
Alnus species (Alder)
Celtis species (Hackberry)
Corylus species (Filbert)
Crataegus species (Hawthorn)
Fagus species (Beech)
Quercus species (Red, Scarlet, Swamp White Oak)
Tilia species (Linden)

EVERGREENS

Pinus species (White, Red, Scotch Pine)
Picea abies (Norway Spruce)
Thuja species (Arborvitae)

PLANTS FOR WILDLIFE

TREES

Acer species (Maple)
Amelanchier species (Serviceberry)
Celtis occidentalis (Hackberry)
Crataegus species (Hawthorn)
Juglans species (Walnut)
Malus species (Crabapple)
Morus alba (Mulberry)
Prunus species (Cherry)
Quercus species (Oak)
Sorbus species (Mountain Ash)

SHRUBS

Acer ginnala (Amur Maple)

Aronia species (Chokeberry)
Berberis species (Barberry)
Buddleia species (Butterfly Bush)
Chaenomeles species (Quince)
Cornus species (Dogwood)
Cotoneaster species
Euonymus species (Burning Bush)
Ilex verticulata (Holly)
Lonicera species (Honeysuckle)
Physocarpus species (Ninebark)
Prunus species (Cherry)
Rhamnus species (Buckthorn)
Rhus species (Sumac)
Ribes species (Currant)
Rosa rugosa (Rugosa Rose)
Sambnucus canadensis 'Aurea' (Golden Elder)
Symphoricarpus species (Coralberry, Snowberry)
Viburnum species

CONIFER EVERGREENS

Juniperus species
Picea species (Spruce)
Pinus species (Pine)
Thuja species (Arborvitae)

VINES - SMALL FRUITS

Lonicera species (Honeysuckle)
Parthenocissus species (Ivy)
Rubus species (Blackberry, Raspberry)
Vitus species (Grapes)

DEER RESISTANT PLANTS

Please note: Deer will eat these suggested varieties if weather, food conditions, overpopulation, etc become adverse.

TREES

Aesculus (Horsechesnut)

Amelanchier canadensis (Serviceberry)
Celtis occidentalis (Hackberry)
Crataegus (Hawthorn)
Gleditsia triacanthhos var. (Honeylocust)
Hibiscus syriacus (Althea)
Prunus virginiana (Chokecherry/Canada Red Cherry)

SHRUBS

Aronia melanocarpa (Black Chokeberry)
Artemisia tridentata (Tall Western Sage)
Berberis (Barberry)
Buddleia (Butterfly bush)
Buxus (Boxwood)
Caryopteris (Blue Mist Spirea)
Cercocarpus ledifolius (Curl Leaf Mahogany)
Chaenomeles (Quince)
Chamaebatiara (Fernbush)
Chrysothamnus (Rabbitbush)
Cotinus (Smoketree)
Cotoneaster
Cytisus (Scotch Broom)
Deutzia
Euonymus alatus (Burning Bush)
Fallugia (Apache Plume)
Forsythia species
Hibiscus syriacus (Althea)
Holodiscus (Rock Spirea)
Hypericum
Kolwitzia (Beautybush)
Ligustrum vulgare (Cheyenne Privet)
Lonicera tatarica (Honeysuckle)
Mahonia aquifolium (Orgeon Grape Holly)
Perovskia (Russian Sage)
Physocarpus (Ninebark)
Potentilla
Prunus tomentosa (Nanking Cherry)
Prunus virginia (Chokecherry)
Pyrancantha
Quercus gambelii (Gambel Oak)
Rhamnus (Buckthorn)
Rhus aromatica (Fragrant Sumac)
Rhus trilobata (Three-Leaf Sumac)
Ribes alpinum (Alpine Currant)
Ribes aureum (Golden Currant)
Ribes hirtellum (Gooseberry)
Rubus deliciosus (Boulder Raspberry)
Shepherdia (Buffaloberry)
Spirea species
Symphoricarpos x chenault (Hancock & Chenault Coralberry)
Symphoricarpos orbiculatus (Red Snowberry)
Symphoricarpos alba (Snowberry)
Syringa (Lilac)
Viburnum rhytidophylloides (Allegany Viburnum)
Yucca

EVERGREENS

Abies concolor (Concolor Fir)
Juniper species
Picea pungens (Blue Spruce)
Pinus aristata (Foxtail Pine)
Pinus edulis (Pinion Pine)
Pinus leucodermis (Bosnian Pine)
Pinus ponderosa (Ponderosa Pine)

PERENNIALS

Achillea (Yarrow)
Ajuga reptans
Agastache (Hyssop)
Alchemilla mollis (Lady's Mantle)
Amsonia (Blue Star)

Anemone species
Aquilegia (Columbine)
Arctostaphylos (Kinnikinnick)
Armeria maritime (Sea Pink)
Artemisia (Sages)
Astilbe
Athyrium (Fern)
Aurinia saxatilis (Basket of Gold)
Brunnera (Forget-Me-Not, False)
Centranthus (Valerian)
Cerastium tomentosum (Snow in Summer)
Clematis species
Coreopsis
Convallaria majalis (Lily of the Valley)
Delphinium
Delosperma (Iceplant)
Dianthus
Dicentra (Bleeding Heart)
Digitalis (Foxglove)
Dryopteris (Wood Fern)
Echinacea (Coneflower)
Euphorbia (Spurge)
Gaillardia (Blanket flower)
Gallium (Sweet Woodruff)
Geranium sanguineum (Dwarf Cranesbill)
Gypsophila (Baby's Breath)
Helleborus (Lenten Rose)
Heuchera (Coralbells)
Hemerocallis (Daylily)
Iris species
Kniphofia (Red Hot Poker)
Lamiastrum
Lamium (Dead Nettle)
Lavendula angustifolia (Lavender)
Leucanthemum (Shasta Daisy)
Ligularia
Linum (Flax)
Liatris (Gayfeather)
Lupine
Lysimachia (Moneywort)
Mahonia repens (Creeping Oregon Grape Holly)
Narcissus (Daffodils)
Nepeta (Catmint)
Oenothera (Evening Primrose)
Penstemon species
Pachysandra (Japanese Spurge)
Papaver nudicaule (Iceland Poppy)
Papaver orientale (Oriental Poppy)
Parthenocissus quinguefolia (Engleman Ivy)
Peonia (Peony)
Phlox subulata (Creeping Phlox)
Polemonium caeruleum (Jacob's Ladder)
Polygonum (Silverlace vine / Border Jewell)
Pulmonaria (Lungwort)
Pulsatilla vulgaris (Pasque Flower)
Ratibida columnifera (Prairie Coneflower)
Rudbeckia (Black-Eyed Susan)
Salvia sylvestris (Salvia)
Saponaria (Soapwort)
Sedum species
Solidago (Goldnrod)
Stachys lanata (Lamb's Ear)
Thymes
Veronica species
Vinca minor
Viola

ORNAMENTAL GRASSES

Miscanthus (Maiden)
Calamagrostis (Feather Reed)

Carex (Sedge)
Chasmanthium (Northern Sea Oats)
Festuca (Blue Fescue)
Hakonechloa (Japanese Forest)
Helictotrichon (Blue Avena)
Panicum (Switchgrass)
Pennisetum (Hardy Fountain)
Schizachyrium (Little Blue Stem)

TREE WATERING GUIDELINES

We are frequently asked "How much water does a tree need?" so we hope the following information is helpful to you and your customers. Soil textures, ranging from sand to heavy clay, weather conditions and water application methods all factor in to determining tree water requirements. Generally, our trees need a minimum of 3 ½ - 5 gallons of water per week to survive during the growing season.

The best test of soil moisture is pull back the mulch and geotextile; use a soil knife carefully dig down about 6" deep to ascertain the moisture content. A soil probe can also be used to obtain a deeper core sample at the edge of the root ball. If the soil does not form a ball when squeezed in you hand, it needs water. If it makes a moist ball easily, hold off on watering. The soil should resemble a nice chocolate brownie texture when the soil has adequate moisture. It is important to remember that plant roots need oxygen as well as water; over watering drives air out of the soil causing the plant to stress. Over watering is usually caused by frequency, not the quantity, of water. It is always best to water less frequently for longer periods of time. It is beneficial to run the irrigation system in two consecutive cycles with a short rest in between; this practice allows the water to soak into the soil deeper and efficiently.

During periods of drought and water restrictions:

A general rule is to use approximately 10 gallons of water per inch of trunk diameter. To calculate amount of water per tree, measure trunk at knee height:

Tree Diameter x 5 minutes= Total Watering Time

A standard garden hose at medium pressure delivers 10 gallons of water in 5 minutes. For example, a 4" diameter tree should receive 40 gallons of water – multiply by 5 minutes to equal total watering time of 20 minutes. Deep watering to a depth of 12 inches below soil surface and saturate the soil within the drip line of the branches to disperse water deeply to the roots. For evergreens, water 3-5 feet beyond the drip line on all sides.

Fall and winter watering of all plants is extremely important! Tree roots continue to grow throughout the winter and need moisture to survive. Our winters are often cold, dry and windy causing soil to dry out quickly and plants experience drought stress. Water all plants one or two times per month October through March on a day when outdoor temperatures are above 40˚ F and the ground is not frozen. Use the same amount of water as outlined above. Your trees and plants will greatly appreciate this extra attention and reward you in the spring with healthy growth and endless beauty.

The history of ALAMEDA WHOLESALE

Stanley Brown Sr., our firm's founder, started working for Marshall Nurseries in Arlington, Nebraska in 1925 at the age of 14. After working up to a landscape foreman he had the responsibility of planting the designs of Gloria Rapp, who had started her studies at Doane College in Nebraska, and later graduated from Iowa State at Ames with a degree in Landscape Architecture. Stan and Gloria were married November 2, 1940, and moved to Denver the following month, where they would begin work on the lawns and landscaping for the Lincoln Park Housing Project, and later start a branch of Marshall Nurseries in the spring of 1941.

In 1944 Stan left Marshall's and bought one square block at the edge of town on a beaten gravel road (now known as West Alameda Avenue and Canosa Court), and with the help of a partner, Gilbert Pike, Stan Brown Sr. opened a retail nursery and garden center. The partnership ended after a year, but the tiny business continued to grow and prosper, with considerable credit going to the inventiveness, creativity, and introduction of new concepts to Denver such as packaged peat moss, African Violet soil, and a liquid fertilizer truck for residential turf (called "Green Rain," it proved to be 30 years too soon). In 1950 Mount Arbor Nursery sent a double order of Paul Scarlet roses, so Stan bought tar-paper pots from Hasler Nursery in Kansas City, and was the first nursery in the state to begin container-grown roses, and later container-grown trees and shrubs in 5-gallon egg cans collected from local bakeries.

In 1957 a farm at West Dartmouth Avenue and South Zuni Street was purchased to be the growing field for "Denver's Garden Center" as it was then advertised. In 1962 the property on West Alameda was sold and the garden center and nursery were moved to 3160 S. Zuni St. After the flood of 1965 the retail end of our business was dropped in order to concentrate on wholesaling. The drop in

volume was significant, but the nursery struggled through with the idea that there was enough business in supplying plants to landscapers and garden centers.

Stan Brown Jr. joined the business after leaving Colorado State University in 1964 to work full time, and later was joined by his brother Arnold after he left IBM in 1969. The two sons worked their way up through the nursery and eventually purchased the business from their father in 1975. Stan Sr., Stan Jr. and Steve have served as presidents of the Colorado Nurserymen's Association, and Stan Jr. has served as Denver Chapter president and state board president of the Associated Landscape Contractors of Colorado.

In 1992 Stan Brown Sr. passed away. In 1993 the nursery moved to 1950 W. Dartmouth Ave., doubling the amount of land available.

Many valuable employees have joined us over the years. As the nursery has grown, our ownership has evolved to include:

- **Stan Brown Jr.** - Started in 1964.
  Past President
- **Steve Brown** - Started in 1995.
  President / B&B Tree Buyer,
  Deciduous Container Manager
- **Alan Clark** - Started in 1977.
  Sales, Evergreen/Broadleaf Container Manager
- **Bill Owens** - Started in 2008.
  Computer Operations, Accounting

The above mentioned employees have over 216 years combined nursery experience.

In more than 81 years of quality business and service Alameda Wholesale Nursery has evolved from a small "growing nursery" to one of the oldest and largest wholesale nurseries in Colorado.

Our Business is "Growing" for Over 81 Years

PLANT INDEX

Botanical genus names are listed in *small italic letters* and common names in CAPITAL LETTERS.

A

Abies 109
Alchemilla 35
Acer . . . . . 76, 134 - 137
Achillea 47
ADAM'S NEEDLE 104
Aegopodium 44
Aesculus 127, 147, 154

Our Promise to You:

1. We are committed to integrity in all matters of business—from fair pricing to the highest performance standards.

2. Our relationships with customers are built on trust, respect, and a sincere interest in meeting your individualized needs.

3. We strive for excellence in our work and nothing less. Our skilled staff promises to deliver top quality products and services—on schedule.

4. Our company is a family-friendly workplace that attracts a skilled and motivated staff dedicated to a high standard of customer service.

5. We promote the highest environmental standards in our work—helping to create ecologically sustainable landscapes that respect the natural environment. Since 2009, we recycled over 60,000 lbs. of plastic containers; re-used over 300,000 more; and recycled over 8,500 yards of wood chips at our nursery.

6. We are committed to giving back to the local community that has so richly supported our work. Over the past five years, we have donated over $180,000 worth of plant material to our community.
